General Session Minutes
State Board of Registration for Professional Engineers
July 14, 2015

The State Board of Registration for Professional Engineers met in their offices at 300 Capitol Street in Charleston, WV on Tuesday, July 14, 2015. Those present for all or part of the meeting were:

Edward L. Robinson	President
William E. Pierson	Vice-President
Bhajan S. Saluja	Secretary
Richard E. Plymale	Member
Leonard J. Timms	Member
Lesley L. Rosier-Tabor	Executive Director
Aaron M. Armstrong	Board Investigator
Debra L. Hamilton	Legal Counsel

The meeting was called to order at 9:00 am.

The Board meeting minutes for May 12, 2015 were reviewed. A motion to approve the minutes was made by Dr. Pierson, seconded by Mr. Plymale. Motion carried.

The Board budget summaries for May and June 2015 were received and reviewed. Ms. Rosier explained the PCard transactions and answered Board questions. Ms. Rosier explained that the fiscal year-end balance was down approximately $250K due to the Legislative mandated renewal cycle changes and moving the COA renewals to the end of this calendar year. Mr. Timms requested that the complete wvOASIS accounting reports, which now outline each individual renewal transaction (every $40 renewal charge), be placed in a separate electronic folder for review and not included in the actual Board business notebook. Ms. Rosier agreed to place this information in a separate electronic file for Board review in the future.

A motion to approve the budget, current expenditures, and purchasing card transactions was made by Mr. Timms, seconded by Mr. Saluja. Motion carried.

Ms. Rosier presented the Executive Director's report and addressed all Board questions and comments.

- Mr. Saluja commented on the significantly higher pass rates amongst other professional exams (such as Nursing / Medical fields). Dr. Pierson indicated

his contemplated reason for these higher pass rates in other fields is due to the fact that other professions cannot practice at all unless they pass their professional exam.

- Ms. Rosier informed the Board that PE exam interviews will take place at the Board office on August 11th. President Robinson indicated he would attend.
- Ms. Rosier reported that the State Auditor-required Board member training is scheduled for December 1st. Dr. Pierson agreed to attend in addition to agency staff.
- Ms. Rosier reported that all Board members except for Mr. Robinson will be attending the NCEES annual meeting in Williamsburg, VA on August 18 – 22. Mr. Armstrong, Ms. Hamilton and Mrs. Rubenstein will also be in attendance.
- Ms. Rosier reported upon her attendance to the Engineering Career Presentations and Mr. Armstrong's and Mr. Timms' attendance at the Fairmont State summer technical conference.

A motion was made by Mr. Timms, seconded by Mr. Plymale, to approve attendance and travel for Board members and staff to the activities as discussed and outlined in the Executive Director's report and the updated 2015 calendar. Motion carried.

Mr. Saluja made a motion to enter into Executive Session at 9:35 AM, seconded by Mr. Plymale. Motion carried. Board members were presented the following settlements: C2015-06, C2015-07, C2015-15, and C2015-16. Details of the settlements will be posted on the Board's website.

The Board recessed the meeting at 12:00 PM for lunch, and resumed in Executive Session at 12:40 PM.

At the conclusion of the Executive Session, Mr. Timms moved to enter into General Session at 1:00 PM with a second by Mr. Saluja. Motion carried and the Board took the following action:

Based on a motion by Dr. Pierson, seconded by Mr. Plymale, the Board took the following action on Special Cases for Board Action:

Ms. Rosier reported that the emergency rules were approved as of 2 JUN and are now the Series 1 rules now in effect.

The Board reviewed the BRIM Loss Control questionnaire and the Safety Committee meeting minutes.

The Board discussed the ABET visit/observer requirements. Mr. Timms agreed to be the observer for the ABET visit to WVU during October, and Mr. Plymale tentatively agreed to be the observer for the ABET visit to Marshall in November.

Ms. Rosier provided an update concerning the renewal season for 2015. She reported to date there were approximately 420 PEs and 60 Retired PEs yet to renew. As noted last meeting, the 3100+ COAs were extended until December 31, 2015.

Ms. Rosier reported that the PDH audit during the December 2016 renewal will encompass all hours obtained from July 1, 2014-December 31, 2016, negating the need for a complete PDH audit to be conducted in 2015 following this current renewal cycle.

Mr. Timms noted a rather constant increase in the amount of PE renewals the past 7 years. Ms. Rosier indicated that is reflective of our annual report statistics which show we have licensed approximately 450-550 new PEs per year for the last decade.

The Board, upon motion by Mr. Timms and second by Mr. Plymale, voted to retain the same Board officers for FY16.

Ms. Rosier discussed the Board's 2015 Calendar of Events. The next Board meeting is scheduled for Tuesday September 15, 2015. The meeting will take place at the Board's office in Charleston, WV.

She also asked the Board to send her any newsletter topic ideas between now and then.

This morning's meeting was delayed by 1 hour so that the Executive Director and counsel could attend the interim meeting of the Legislative Rule-Making Review Committee (LRMRC). Modifications which had been requested or agreed to by Board staff and counsel were presented to the LRMRC, which then authorized the rule as modified. Notice of the modified rule will be filed with the Secretary of State.

The Board meeting minutes for March 22, 2016 were reviewed. A motion to approve the minutes was made by Mr. Timms, seconded by Mr. Plymale. Motion carried.

The Board budget summaries for March and April 2016 were received and reviewed. Ms. Rosier explained the current agency balance recently reached its highest during her tenure due to the first, new 2-year COA renewal cycle being collected only 6 months after the final PE annual renewal. She noted that with the recent PE and Retired renewal fee decreases, our regular revenue will decrease in the future. The Board also reviewed the PCard transactions, and Ms. Rosier addressed all Board member questions. Dr. Pierson asked if the staff have received any comments on the change to 2-year renewal cycles, and Ms. Rosier responded that we have received hundreds of positive comments on the biennial cycle, the move to calendar year collection, and the anticipated fee decreases. Mr. Timms commented on the PEIA employee and employer contribution increases and how that may affect the FY2017 budget. Ms. Rosier responded that until a FY2017 State budget is passed by the legislature, that impact is unknown. Ms. Rosier shared a phone conversation she recently had with a member of the House of Delegates. Delegate Kurcaba called the office a few weeks ago asking questions about the Board's budget (revenues, expenditures and balance). Ms. Rosier explained as discussed above and answered all of the Delegate's questions.

A motion to approve the budget, current expenditures, and purchasing card transactions was made by Mr. Timms, seconded by Mr. Saluja. Motion carried.

Ms. Rosier presented the Executive Director's report and addressed all Board questions and comments.

- Ms. Rosier noted that the April 2016 PE exam results were still pending.

- Ms. Rosier reported that there are 22 people currently scheduled for the FE CBT exam.
- Ms. Rosier reported that the following Board members and staff will attend the NCEES annual meeting in Indianapolis, Indiana from August 24-27, 2016: Mr. Timms, Mr. Plymale, Ms. Rosier, Mr. Armstrong. She requested that the other board members and counsel check their calendars and let her know ASAP of their plan to attend or not.
- Ms. Rosier discussed the other upcoming presentations and meetings, as well as the on-going projects.
- Ms. Rosier reminded the Board of the plan to mail the newsletter out with the renewal notices in mid-November and asked the Board for any suggested newsletter articles.

A motion was made by Mr. Timms, seconded by Mr. Plymale, to approve attendance and travel for Board members and staff to the activities as discussed and outlined in the Executive Director's report and the updated 2016 calendar. Motion carried.

Mr. Timms made a motion to enter into Executive Session at 9:40 AM, seconded by Mr. Saluja. Motion carried.

The Board President reported the resolution of the following complaints: C2016-13, C2016-16, and C2016-17. The resolution of C2016-13 will be posted on the Board's website within a reasonable time. The Board President reported the settlement of C2016-13, which will be posted on the Board's website within a reasonable time.

At 11 AM, Carlos Valenzuela, Jr., appeared before the Board at his request in connection with his pending comity application.

The Board recessed for lunch at 12:10 PM and resumed Executive Session at 12:45 PM. At the conclusion of the Executive Session, Dr. Pierson moved to enter into General Session at 1:30 PM with a second by Mr. Timms. Motion carried and the Board took the following action:

- Mr. Timms made a motion, seconded by Mr. Saluja, to move I2016-25 to complaint. Motion carried.
- Mr. Timms made a motion, seconded by Mr. Plymale, to move I2016-27 to complaint. Motion carried.

Based on a motion by Dr. Pierson, seconded by Mr. Saluja, the Board took the following action on Special Cases for Board Action:

- Emmanuel Ansa, Lawrence Ayer, and Leslie Brown's requests for comity were approved.

Mr. Timms made a motion to approve up to an average 5% merit increase for the Board staff. The raise is to be effective July 1, 2016. Mr. Plymale seconded, and the motion carried.

Mr. Timms also moved to authorize the Board President and Executive Director to work with the Attorney General's Office to negotiate up to a 5% merit increase for Board Counsel, Debra Hamilton. Mr. Saluja seconded, and the motion carried.

Mr. Timms provided a summary of the NE Zone meeting to include an in-depth discussion on the NE Zone's motion to be taken to the upcoming NCEES Board of Directors Meeting, and possibly the NCEES Annual Meeting, concerning the attestation-only option for entry to take the PE or PS exam.

Ms. Rosier discussed the 2016 NCEES Annual Meeting agenda and schedule of events.

The Board discussed the status of its emergency rules, which did not complete legislative action due to a veto related to another set of rules bundled into SB 159. On April 6th the Board President sent a letter to the Governor requesting that the Board's rules be included in the Governor's call for special session.

The Board discussed the April 7th letter from the Governor acknowledging Dr. Pierson's resignation. Ms. Rosier was directed to contact the Governor's office regarding appointments for expired Board terms and to provide names of possible academicians who have been involved with NCEES and/or may have an interest in Dr. Pierson's Board seat.

Ms. Rosier presented information concerning Marshall University's intent to obtain ABET accreditation of a new Mechanical Engineering program.

Ms. Rosier shared with the Board the WVDOT Municipal Home Rule correspondence copied to her on April 6th.

Ms. Rosier discussed the finalization of the COA questionnaire and the results. She reported that as of 5/11/16, only five firms out of the 3138 active COAs did not respond. Additionally, she reported that since 5/11/16, staff have made contact with 3 of those firms and they have complied with the questionnaire or have requested to go to inactive status. After further discussion, the Board voted to file formal complaints against the 2 firms who had not responded to the questionnaire. Mr. Timms made a motion, seconded by Mr. Plymale, to file said complaints. Motion carried.

Ms. Rosier presented a synopsis of the draft PDH reporting page that is about to "go live" and allow for continuing education information to be logged year-round and 24/7 via our new website link. In addition, the Board previewed an example of how the reporting functionality will work and sync with the PE's December 2016 renewal. Dr. Pierson shared his hopes that our new database will eventually be able to accept direct entries from the new NCEES Continuing Education system, allowing for those PEs licensed in multiple states to not have to duplicate data entry.

The Board held officer elections for the upcoming fiscal year, FY2017. Upon unanimous vote, the Board re-elected Mr. Robinson as President, Mr. Saluja as Secretary, and then elected Mr. Plymale as Vice President.

Mr. Robinson reported that he spoke with the engineering staff at WVU concerning the ABET EAC Criterion 3 and 5 issue as discussed during the last Board meeting.

Upon motion by Mr. Timms, seconded by Dr. Pierson, the Board meeting adjourned at 2:45 PM. The next Board meeting will be July 19th in Charleston. The Board members will be compensated one day per diem plus travel expenses.

We've Come A Long Way Baby!

In the famous lyrics sung by Loretta Lynn and the name of her 1978 country music album, We've Come a Long Way Baby.

We've Come a Long Way Baby.
– LORETTA LYNN

July 27, 1921 ... The date of the first Act to create the West Virginia State Board of Registration for Professional Engineers. Upon invitation from the governor, the first five Board members met for the first time in the Coyle and Richardson Building in Charleston, WV on July 1, 1922. The first PE license, WV PE #1, assigned by the WV PE Board was issued in 1922 to Mr. Nathan H. Mannakee, a consulting mining and metallurgical engineer from Beckley, WV. Only a few short years ago, you may recall the feature back cover article in the 2013 edition of the Interchange was bidding a fond farewell to our oldest Active PE, Mr. Brast Thomas of Huntington, WV, who held the lowest assigned PE number at the time (WV PE #2360). In addition, during that same year, the Board crossed a monumental mark by assigning WV PE #20000. Fast forward to now, late 2016, three short years later, we are soon to license WV PE #22100.

On April 25, 1949, the Board, supported by a favorable opinion of the Attorney General of West Virginia dated March 12, 1948, authorized the issuance of certificates of Engineer in Training (EIT) to college graduates in courses accredited by the Engineers' Council for Professional Development or to applicants who successfully passed the examination of the Board covering Fundamentals of Engineering. Such certificate holders could, after completing a period of engineering work or experience of a character satisfactory to the Board, take the final examination and complete the requirements of the law for registration as a Professional Engineer. The first EIT certificate issued was to Mr. Ervin R. Baker, Jr. in 1949. Now, over 67 years later, we are soon to grant Engineer Intern (EI) certification to EI #11000.

We've Come a Long Way Baby!

As I have grown older, and hopefully a little wiser, I have tried to make a concerted effort to appreciate the hard work of those who have come before us, those who blazed the trails and cleared the paths for us to follow. I have tried to keep an open mind to all comments, criticisms, suggestions and recommendations for improvement in all aspects of life, but in particular for the betterment of the profession and our engineering community. When I joined the Board office in June of 2002, I walked in for my first day of work filling a newly created position for our agency wondering what the day would bring. Within an hour I was sitting in my new office, with a beautiful view of downtown Charleston, facing 2 large overflowing postal containers of 2000+ pieces of unopened renewal responses and payments. After two days of doing nothing but opening mail, date stamping entries and processing payments alongside of 3 other staff members, we decided something had to change. I was sure this task was NOT what the Board had in mind when hiring their first Executive Director and first Professional Engineer on staff.

So with that new appreciation for the hard work and paper processing performed for decades by those that came before us, our staff set out on a journey that has been difficult yet very exciting and extremely rewarding. We quickly entered into a cooperative agreement with the West Virginia State Treasurer's Office to bring us into the 21st century with a web presence. From that platform, we have built an impressive and comprehensive website complete with online renewals, credit card processing, electronic address changes and CPC reporting, real-time license verifications, a comprehensive enforcement program, broad transparency and much more. In 2016, we find ourselves wrapping up the development and implementation of the largest contract ever awarded by our agency, a new comprehensive cloud-based licensing solution database.

On a professional level, every day is exciting as we move forward at record pace to implement new technology and integrate state-of-the art systems being developed at the national level by NCEES. It is truly an honor to come to work and serve our engineering community and the citizens of our great State. Moreover, it is a privilege to work with a top-notch staff with the same level of dedication. On a weekly basis I receive emails and phone calls complimenting our staff on their record turnaround times for licensure verifications, application processing, certificate processing, inquiry responses and the like. I make every effort to share such emails and conversations with our staff so they know their work ethic and level of commitment to our agency and the State of West Virginia does not go unnoticed. We have been blessed to be able to hire and retain an amazing team during my nearly15-year tenure with the Board. They are truly an impressive group of individuals and a joy to work with. As a PE myself, I couldn't be more proud of the services they provide to our engineering community and the public at-large.

Board Updates Continued

MEET NEW BOARD MEMBER GARTH THOMAS, JR., PE

Garth Thomas is the Chair of the Chemical Engineering Department at West Virginia University Institute of Technology, and previously served as the Associate Provost. He has been on the faculty for thirty-four years, with primary teaching interests in the areas of process design, mathematical modeling and process simulation. He holds degrees in chemical engineering from West Virginia Institute of Technology and West Virginia University and has been a licensed Professional Engineer in West Virginia since 1991.

Mr. Thomas has conducted training and performed consulting work for several chemical and manufacturing companies in West Virginia. He has held several offices with the Charleston Section of American Institute of Chemical Engineers, and served as the WVU Tech AIChE student chapter advisor. He is also a member of the American Society for Quality, American Society for Engineering Education, and the International Society for Automation.

Thomas is certainly no stranger to the engineering licensure arena and is intimately familiar with the state engineering regulatory Board's exam processes as he is a long-standing volunteer for the National Council of Examiners for Engineering and Surveying (NCEES). Garth has donated countless hours as an exam volunteer on the Chemical Engineering subcommittee of the Fundamentals of Engineering examination committee of NCEES.

WELCOME NEW BOARD MEMBER L.A. GATES, PE

L.A. Gates is the President and CEO of L.A. Gates Company in Beckley, WV. He established his consulting firm in 1984 for the purpose of providing professional engineering services of the highest ethical caliber to the local and state community. Mr. Gates is responsible for overall technical review of all Gates' projects which include design of roads, collection ponds, dams, bridges, water systems, site developments and other structures for the mining, natural gas and civil industry, government and commercial clients.

Mr. Gates holds degrees in Mining Engineering from Colorado School of Mines and Business Administration from West Virginia University and has been a licensed Professional Engineer in West Virginia since 1984.

Mr. Gates specializes in project and contract management, surface and underground mine operation and development, mine feasibility studies, mine planning & design, coal reserve studies, coal quality analysis and economic evaluations (capital and operating). He is a member of the Society of Mining Engineers of AIME, National Society of Professional Engineers, King Coal Club, and the Board of Directors for the West Virginia Chamber of Commerce.

Gates also joins the Board with an intimate understanding of the work of the WV PE Board as his father, Leslie C. Gates, was a Board Member from 1966-1980, rising to serve as President during his tenure. L.A. fondly recalls memories of his father traveling to Charleston for monthly Board meetings and around the country for various NCEES activities.

Executive Director Rosier-Tabor stated, "This is a monumental moment in WV PE Board history. To our knowledge, it is the first-ever father-son service provided to our State agency since the Board was formed at the direction of the WV Legislative Act, effective on July 27, 1921." With more than 3 ½ decades separating the service of father and son, Gates is eager to carry on the important work that his father loved dearly many years ago. Upon notification of the appointment, L.A. Gates stated that he had recently shared his professional "bucket-list" with his daughter, most notably including his interest in having the opportunity to serve as a WV PE Board member, and as an Elder in his church. Within a few short months of voicing those interests, he was honored to be nominated for both positions and is eager to carry out the important work for each.

Computer-Based Testing: View from a Volunteer

GARTH E. THOMAS, JR., PE
BOARD MEMBER

The Fundamentals of Engineering (FE) examination has been delivered in a computer-based testing (CBT) format since January of 2014, and the Professional Engineering (PE) examinations are being converted to CBT as well. This transition has impacted the process of registration and preparation for the examination by the potential examinees, and has changed the processes for certifying candidates by the state boards. As might be expected, the conversion to CBT has also made a significant difference in the activities of the volunteers who develop the examination questions.

When I initially joined the chemical engineering FE subcommittee over ten years ago, the pencil-and-paper examinations were assembled by the NCEES staff (primarily the FE examination coordinator). The questions for each examination were selected from the problem bank in accordance with the published examination specifications. Our subcommittee generally spent a day or two reviewing the examination to ensure that the questions were correctly worded and had the correct answer key. We would also replace problems that were too similar to another on the examination, and make sure that solution documentation for the problems was complete. This meant that we spent the better part of two of our four yearly meetings reviewing and modifying examinations. Each examination was also reviewed three times - although the second and third reviews were limited to ensuring that edits from the previous review were correct – which required some examination review work to be done at every meeting. The review process within my subcommittee was to have each examination problem reviewed by at least two team members, with the review findings presented to the entire subcommittee. The other subject area subcommittees followed a similar process to conduct reviews.

The remainder of our meeting time was devoted to writing and reviewing new problems. A problem was submitted on a paper form containing the problem statement with any figures and tables, a correct solution, and a set of plausible distractors to provide alternate answers for the multiple choice questions. Each problem submission was reviewed by two subcommittee members as well as the subcommittee chair. Once three approvals were obtained, the problem was entered into the problem bank.

As problems were used on examinations, statistics were collected on their performance. The two primary statistics we used were the p+ (fraction of examinees who answered the problem correctly) and the Rbis (correlation between examinees who answered the problem correctly and those who also passed the examination). Problems that had p+ values that were too high or low, or Rbis values that were too low were weeded out of the problem bank. This process provided a tertiary level of quality review in addition to the examination reviews and the initial problem reviews. During the time that I was involved with paper examination development, attention to each of these three levels of quality assurance had the effect of improving the performance of our discipline examination. This was also the case for the other FE subcommittees.

The major change in our activity as examination volunteers is that examination reviews are no longer necessary with CBT. Each examinee receives an examination that is "constructed" by the computer from a large bank of problems. The quality checks are now performed at the problem level. New problems are now pretested as unscored items on a number of individual examinations before they are employed for examination construction. This means that problems with poor statistics from the pretesting are referred back to the subcommittee for improvement or removal. The result is that we can now see how problems perform before they become "live" rather than waiting until they are used on an examination. This is a significant benefit of CBT.

However, there are some drawbacks as well. A significant one is that the subcommittee members must identify problems that should not be used together so that an "enemies list" is available to the computer as it constructs an examination. Since the examination review is no longer available to identify problems that are too much alike, it falls on the committee members to review the problem bank on a regular basis to minimize the chances of similar problems being used together.

Another significant change in our work process is that problem submissions are now done via software. This has required some time for the volunteers to learn the mechanics of using the software package, and we are still dealing with some limitations of the platform. It now takes two acceptable reviews to move a problem into the problem pretest pool. While there was some initial concern that the level of review would not be as thorough as it had been in the past, the ability to pretest problems should offset the effect of having fewer reviewers. As we gain experience using the new tools, I think we will find that the quality of the examinations will continue to improve as it had in the past.

CBT also permits us to develop problem types other than the four-item multiple choice answer format that has been the norm for the FE examination. We now have the ability to add multiple choice problems with multipart correct options, fill-in-the-blank, matching type problems, and graphical problems that include selection points or regions. As the volunteers gain experience with the development of these types of problems, future examinations will have a variety of problem types.

While CBT has significantly changed the work of the examination development volunteers, we are quickly moving up the learning curve. There have been the inevitable bugs and frustrations with a new system, but the volunteers remain focused on developing examination items that will effectively identify candidates who are qualified to enter the licensure process. The key will be to exploit the full potential of CBT.

Why Complain??? Nobody ever listens anyway ...

INVESTIGATOR'S CORNER

AARON ARMSTRONG, PE, BOARD INVESTIGATOR

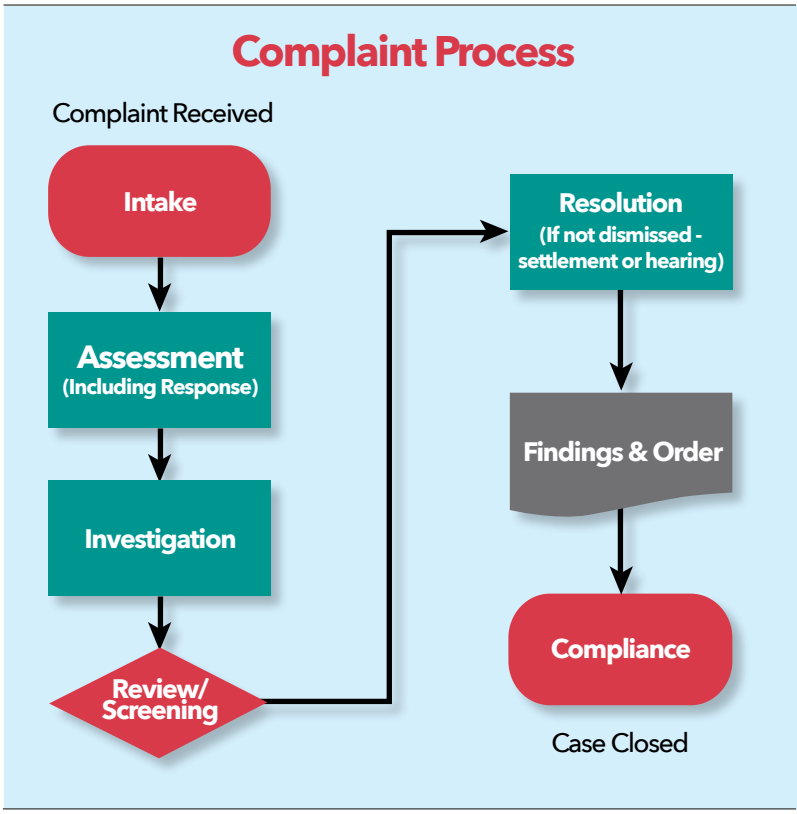
Sometimes the title is true; however, in regards to the WV State Board of Registration for Professional Engineers that is certainly not the case. As the Board Investigator for the past three years, I can attest to the fact that someone is listening. At this point, I have now worked on a number of complaints before this Board, and I would like to give a short summary of not only the complaints, but also the complaint process and the complaint resolution process.

This past year has been quite busy, with the Board logging more complaints in fiscal year 2016 (FY16) than in any of the last 14 fiscal years of its Enforcement program – which is the number of years its current Executive Director has been with this Board. Why so many more complaints one may ask? Well, I'd like to be able to point to one or two reasons and give a plausible explanation. Unfortunately, it's not that easy and I suspect the number of formal complaints before this Board is just like the everyday ebb and flow of the work cycle – sometimes workloads are extremely busy while other times it's not so much. I can say for certain, though, the amount of cooperation and support I have received from numerous municipalities, state / federal agencies, and our registrants have enhanced the Board's enforcement program. Without your assistance, my job would be extremely complicated as it would be difficult, if not impossible, to geographically cover the entire state and monitor the nearly 12,000 registrants and firms.

Since our last newsletter publication, there have been over 40 formal complaints. While not all of these complaints are resolved at the time of this writing, the overwhelming majority of the complaints relate to the unlicensed practice of engineering. Included in this category is the practice of engineering without a Certificate of Authorization (COA) and also included is the offer to practice without a license and COA. I try to reiterate this every chance I get, in WV not only is it illegal to practice engineering without a license and COA, but it is also illegal to offer engineering without a license and COA! This means that firms or individuals submitting an engineering proposal prior to obtaining a COA could be in violation of W. Va. Code §30-13-17(a). See, for example, C2016-04, which is posted under the enforcement tab on the Board's website at www.wvpebd.org.

Anywhere between 70-80% of the complaints have to do with the unlicensed practice topic; however, there have been a number of complaints related to "failing to provide information to the Board" and "misuse of seal." WV Code §30-13-21(a)(6) authorizes the Board to take disciplinary action against a registrant who fails to provide information requested by the Board within 30 days of the Board's request. WV Code §30-13-16(c) and WV Code §30-13-21(a)(10), along with associated rules, discusses a registrant's seal. Additionally, the Board worked with the Architect's Board to jointly publish "The Professional Use of Seals" brochure which is also on the Board's website. Another code citation that has seen some activity recently is WV Code §30-13-21(a)(8), which in summary states that it is a violation to "aid and assist another person in violating any provision of Chapter §30-13 or the rules promulgated. See, for example, C2015-12 on the Board's website. Since the aforementioned violations are not all inclusive of the disciplinary actions taken by the Board in the past year and a half, I welcome you to visit the Board's website where all disciplinary actions are posted dating back to 2003.

So what does it mean to make a complaint to the WV PE Board? I must start off by quoting one of the procedural rules known as W. Va. Code R. §7-2-2.1(b), which states "A complaint may be submitted by any natural person or legal entity, any registered engineer, or any firm holding a certificate of authorization." I interpret this as anybody may file a complaint and I try to point this out every time I give a presentation to a group or even when just having a conversation with someone on the phone or in my office. Simply go to our website and download the complaint form, fill it out, and submit it to our office via mail, fax, email, hand delivery, etc. However please note that WV Code R. §7-2-2.2(b) does allow for an electronic filing of a complaint, but the original must be delivered to the Board Administrator within fourteen (14) days thereafter. Once the complaint is received, our office takes immediate action and begins what I call the 7 step process. The below flow chart represents this process, which is used mostly nation-wide and has been vetted through the NCEES Law Enforcement community.



The process is the same for every complaint the Board receives or initiates on its own motion, which is very important to ensure fairness and uniformity. Per W. Va. Code R. §7-2-2.4, the respondent of the complaint is given 30 days to provide a written response to the complaint. I must note that, without a response, a failure to respond shall be deemed an admission of the factual allegations contained in the complaint (W. Va. Code R. §7-2-2.5). Once the response is received and any further investigation is completed, the Board will act on the complaint in one of three ways: Dismissal, Settlement, or Hearing.

A dismissal occurs when the Board determines the allegations are unfounded or trivial, per WV Code §30-13-22(b), or when the allegation, even if presumed to be true, would not constitute a violation of WV Engineering Law or raise issues outside the jurisdiction (authority) of the Board. The Board does not publicize complaints which have been dismissed but for reference to the dismissal (by complaint number only) in the Board meeting minutes where the action was taken and in the Annual Report to the Governor.

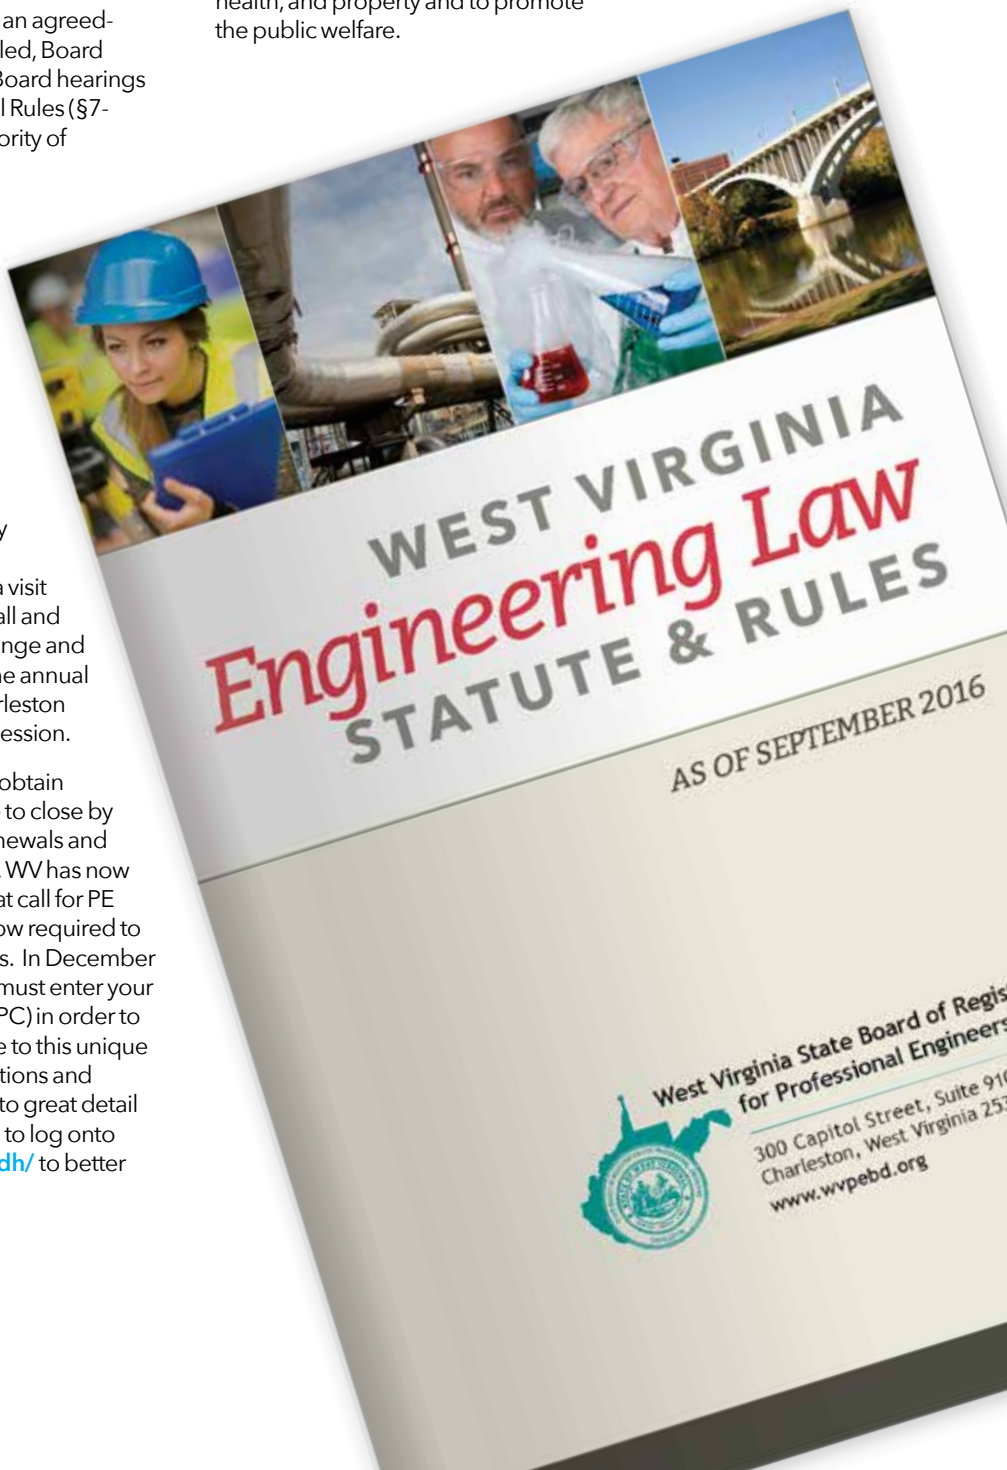
If the Board determines the allegations, if admitted or provable, would violate West Virginia Engineering Law, Board counsel is given settlement authority. Most complaints result in an agreed-upon Consent Order. If the complaint cannot be settled, Board counsel is directed to notice the matter for hearing. Board hearings are discussed in great detail in the Board's Procedural Rules (§7-2-1 through 5), but I would like to highlight that a majority of all complaints that are not dismissed are resolved by voluntary settlement.

If the complaint goes to hearing, in order for the Board to impose any sanction or penalty, the findings of the Hearing Panel in support of disciplinary action must be proved by a preponderance of the evidence. All of the Board's orders since 2003 are posted on the web and sent to NCEES for reporting nationwide.

While the above complaint description is only a summary and relatively brief, we welcome anyone to contact our office for further information. We typically give 4-5 presentations per year in different venues throughout the state. If your organization would like a visit from the WV PE Board staff please don't hesitate to call and we will try to arrange some type of information exchange and dialogue. Of course, we are always present during the annual WV Construction and Design Exposition held in Charleston during the early spring, and many of you attend our session.

Speaking of the EXPO and its many opportunities to obtain Professional Development Hours (PDHs), I would like to close by highlighting the new requirement of our Biennial Renewals and how that affects your PDH reporting. As you all know, WV has now come online with about 90% of all the other states that call for PE license renewal every two years. With that, you are now required to report 30 hours of continuing education every 2 years. In December 2016, our online renewal system will be live and you must enter your 30 hours of Continuing Professional Competency (CPC) in order to renew your license up through December 2018. Due to this unique transition to biennial renewals, there are some exceptions and 'special cases' relative to reporting. Without going into great detail concerning these exceptions in this article, I urge you to log onto your account at **https://services.wvpebd.org/pe/pdh/** to better understand your personal situation.

Finally, I would also remind everyone to keep all of their PDH documentation for a minimum of three (3) renewal cycles as called for in W. Va. Code R. §7-1-10.7. Beginning in January and February of 2017, I will initiate the Board's biennial PDH audit as required by W. Va. Code R. §7-1-10.8. If your renewal is selected for audit, you will receive official correspondence from the Board detailing the steps required to successfully fulfill the audit requirements.
I hope 2017 and beyond proves to be a great time for our profession and I look forward to working for the Board and with all of you in an effort to safeguard life, health, and property and to promote the public welfare.



Board Disciplinary Actions

Disclaimer: *Every effort has been made to ensure that the enforcement information is correct; however this information should not be relied upon without verification from the Board office or website. It should be noted that the names of companies and individuals listed may be similar to the names of parties who have not had enforcement actions taken against them. Should you have any specific questions regarding the disciplinary actions noted below, please contact the Board office.*

In meeting its mission of safeguarding life, health and property, and to promote the public welfare, the WV Board actively enforces the statutes and rules that fall within its jurisdiction. Below is a summary of formal complaints that resulted in disciplinary action since the 2015 newsletter. Numerous other investigations were conducted, some resulting in formal complaints which are still pending; some dismissed because the charges were unsubstantiated or considered trivial; and some closed after acceptable corrective action or warning.

The actions below were either a result of a formal hearing resulting in a Board Order or settled informally resulting in a Consent Order. These orders are public records. If you are interested in knowing more about the nature of the complaint, you may request a copy pursuant to the State's Freedom of Information Act. All Orders are posted on the Board website.

All civil penalties are deposited in the state's general fund. Administrative costs are made payable to the WV PE Board and are retained by the Board to offset costs incurred in the investigation and complaint resolution efforts. Administrative costs may be waived if the complaint is resolved with a minimum of expense.

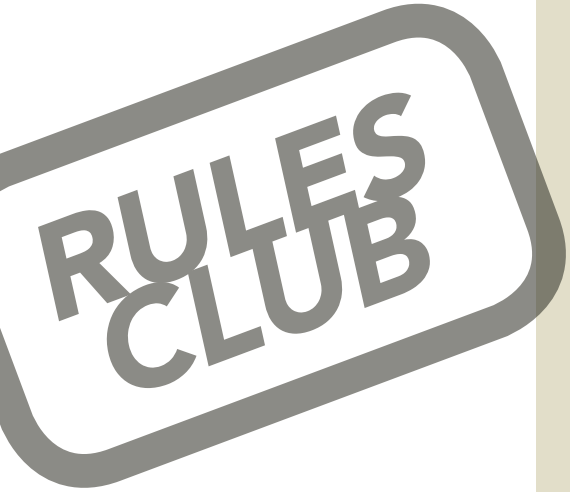
FIRST RULE: Know Your Rules (or RPRs)

LEGAL CORNER

DEBRA L. HAMILTON, BOARD COUNSEL & DEPUTY ATTORNEY GENERAL

The first rule of Fight Club is: You do not talk about Fight Club.

The second rule of Fight Club is: You do not talk about Fight Club.[1]



Those are absolutely not the rules of your Rules of Professional Responsibility (RPRs).

The first rule of the Professional Engineer's Rules of Professional Responsibility: Know your Rules of Professional Responsibility. W. Va. Code R. §7-1-12.1.

A later RPR: If you have knowledge of possible violations of any of the Rules of Professional Responsibility, you must provide the Board with information and assistance necessary to the final determination of the [alleged] violation. W. Va. Code R. §7-1-12.3(h).

It is not only fine to talk about the Rules of Professional Responsibility, but a good idea to talk about them, so this article gives a general overview of the RPRs and specific attention to the duties owed by Professional Engineers to their employers.

After W. Va. Code R. §7-1-12.1, the Rules of Professional Responsibility are divided into four sections. W. Va. Code R. §7-1-12.2 can be viewed as the introductory rules or admonitions. After stating that the RPRs are binding on every registrant, this general rule states:

(a) You must know WV Engineering Law (your statute, rules and other applicable laws relating to the practice of engineering), you must meet specific obligations delineated in the rules, and you must adhere to the highest ethical standards and moral conduct in all aspects of your engineering practice;

(b) Your engineering practice is a privilege that must be exercised only in your areas of competence according to current standards of technical competence;

(c) You must represent yourself "before the public only in an objective and truthful manner;" and

(d) You must "avoid conflicts of interest and faithfully serve the legitimate interests of your employers, clients, and customers." You cannot "compete unfairly with others."

An expert witness at a recent hearing on a PE Board complaint testified that the remaining sections give more specific "bright-line rules" and that the violation of one of these rules would most likely also violate one of the general rules in §7-1-12.2. Section 12.3 sets forth several rules regarding your Obligation to Society. Section 12.4 addresses your Obligation to Employer and Clients. The next section – 12.5 – delineates your Obligation to Other Registrants. (There is also Section 12.6, which requires you to report any disciplinary action taken by another jurisdiction on your renewal form.)

We shall now take a closer look at two of the bright-line rules that you must consider with regard to your duties to your employer (which also apply to your clients). One requires you to say nothing; the other requires you to speak up.

Rule of Professional Responsibility §7-1-12.4(c) prohibits you from revealing "facts, data or information obtained in your professional capacity without the prior consent of the client or employer except as authorized or required by law."[2]

Rule of Professional Responsibility §7-1-12.4(e) requires you to make full prior disclosures to your employers or clients "of potential conflicts of interest or other circumstances which could influence or appear to influence" your judgment or the quality of your service.

The above two rules are very likely to come into play if you are thinking about setting up your own company while still with your current employer, if you are actively talking to other potential employers, or if you are discussing doing work for existing clients or new customers through a firm other than

your current employer.[3] Err on the side of saying nothing about what you know about your current employer as a result of working there unless you have been told it is okay to share the information and stay extremely aware of the disclosure requirement as you are now in a circumstance that could influence your judgment or service.

It is true the line is not always that bright and you might not think you have crossed it in terms of unethically revealing or not disclosing information. What if you think there is a moral or ethical conflict between the interests of your employer and your client? The Board's expert witness at the same hearing mentioned above testified that the solution is to go to your employer and voice your concern. He went on to testify that under the RPRs, a professional engineer is under no obligation to the client to be honest and forthcoming about what the employer is doing. So what do you do? It was the expert's opinion that, if an uncomfortable question is asked or situation comes up, simply tell your client to talk with your employer directly. The expert went on to state: "If that raises some red flags, so be it." If you are unsure how to proceed, contact the Board to discuss your dilemma and your duties under the Rules of Professional Responsibility. It can't hurt and may well help you avoid disciplinary action.

Another rule in Section 12.5 should be considered if your employer is also a Professional Engineer. You must not, directly or indirectly, attempt to injure another PE's professional reputation, prospects, practice or employment – although to be a violation, the attempt to injure must be false or made maliciously. Neither can you "indiscriminately criticize" another PE's work. Since you should not be "dissing" your competition, you most definitely should not be talking "out of school" about a professional engineer who is your employer.

The above is not a theoretical discussion with no real life application. As shown by the references to expert witness testimony above, the WV PE Board has both gone to hearing and settled matters that resulted in disciplinary action for violations of some of the Rules of Professional Responsibility discussed here. Two involved former employees, and another was disciplined for failure to serve the legitimate interests of his client and failure to disclose a potential conflict of interest. A particularly egregious example (it could have even had criminal ramifications) was when a departing employee took with him some of the clients and files of his former employer.

If you are thinking about going out on your own or changing jobs, honor your obligations to your employer and make a good faith effort to minimize any harm done. You don't want your new start to start with an ethics complaint being filed against you.

---

[1] If you don't get that reference, you missed a good movie.

[2] In other words, you cannot reveal anything you know about your employer as a result of your job without your employer's consent, with the same restriction applying to information you get on-the-job about your client.

[3] The Board at times get questions about "moonlighting." If there is no chance it could be perceived as a conflict of interest, okay, but it would be safer to disclose your intentions to your employer.

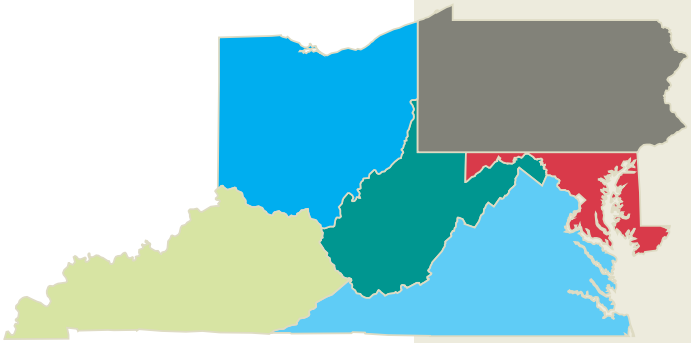
Special Accommodations

All requests for testing accommodations must be submitted through the NCEES E3 system by the posted registration deadlines. These include accommodations for ADA and religious reasons and for active military service. More information about special accommodations is posted on the NCEES website.

If you have any questions about these changes or require additional information, please contact NCEES or visit their website at ncees.org.



LOOKING TO PRACTICE IN MULTIPLE STATES?

Many professional engineers find that their careers require them to be licensed in more than one state. To do this, a PE must apply for comity licensure in additional states. NCEES Records is a service designed for engineers seeking comity licensure.

Discover if an NCEES Record is right for you. Visit ncees.org for details.

THE NCEES CONTINUING PROFESSIONAL COMPETENCY (CPC) STANDARD

State licensing boards can require a licensee to either meet the requirements of their jurisdiction or the NCEES CPC Standard for renewal purposes. The NCEES CPC Standard requires licensees to acquire 15 PDHs in each calendar year, of which at least one must be earned in an area that focuses on professional engineering ethics or improving a licensee's methods of business practice or operations.

NCEES RECORDS PROGRAM

The NCEES Records program is for currently licensed engineers and surveyors who are looking for an easier and faster way to complete the licensure process in multiple states. An established NCEES Record will include most–if not all–of the materials you need to apply for comity licensure in additional states and territories. Eliminate the hassle of resubmitting your

- **college transcripts**
- **exam results**
- **employment verifications**
- **professional references**

When applying for a license in an additional state, NCEES will review your materials and electronically submit them directly to the state licensing board on your behalf. This saves time and simplifies the application process when you need to practice in multiple states.

ABOUT NCEES

The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states and territories and the District of Columbia. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the U.S. public.

NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit ncees.org.

NCEES Vision: The vision of NCEES is to provide leadership in professional licensure of engineers and surveyors through excellence in uniform laws, licensing standards, and professional ethics in order to safeguard the health, safety, and welfare of the public and to shape the future of professional licensure.

Value of licensure: Professional licensure protects the public by enforcing standards that restrict practice to qualified individuals who have met specific qualifications in education, work experience, and exams. In the United States, licensure for the engineering and surveying professions is regulated by state. Candidates interested in pursuing licensure are encouraged to check the requirements in the state or territory where they plan to practice, as the requirements vary.

NCEES Distinguished Service Awards

The National Council of Examiners for Engineering and Surveying (NCEES) recently honored six individuals for their dedicated service to the organization and the engineering and surveying professions. The WV PE Board proudly recognizes three of the six award winners as our own.

WV honorees in this elite group of national NCEES award winners included the following:

- **Leonard J. Timms, Jr., PE**
  NCEES Distinguished Service Award
- **William E. Pierson, PhD, PE**
  NCEES Distinguished Examination Service Award
- **Kenneth H. Means, PhD, PE**
  NCEES Distinguished Examination Service Award

"Small yet mighty" are the words used by the WV PE Board's Executive Director when describing the geographic size of her small state in comparison to the important contributions made on a national level by her PE Board members. With only a fraction of licensees compared to other Member Boards throughout the country, the volunteer efforts, committee work and dedication in both elected and volunteer positions from West Virginia speaks volumes. "It was a wonderful evening to witness our WV PE Board members being honored before their families, friends and colleagues for giving tirelessly to NCEES and to the engineering profession for decades. I couldn't be more proud."

The winners were honored at the NCEES annual meeting, held August 24–27, 2016, in Indianapolis, Indiana. The following is a portion of each of their press releases:

NCEES honors WV professional engineer Dr. Kenneth H. Means for service

Michael Conzett, PE (2015-2016 NCEES President) and Dr. Kenneth H. Means, PE

Kenneth H. Means, PhD, PE, of Morgantown, West Virginia, has been awarded the NCEES Distinguished Examination Service Award for his dedicated service to NCEES and the engineering profession. Means received this award at the organization's 95th annual meeting, held August 24–27, 2016, in Indianapolis, Indiana.

Means began volunteering with NCEES exam development in 1982, working primarily on the Fundamentals of Engineering exam. Two years later, he began working with the Principles and Practice of Engineering Mechanical exam, when he and another volunteer assembled the entire exam of 40 essay questions.

Over the past 34 years, Means has continued to work in a variety of ways to support engineering licensure exams and the mission of NCEES. He has written many PE Mechanical exam items, taken part in preliminary item analyses to assess the quality of exam items, and participated in studies to update the exam specifications.

He has served as Chair of the PE Mechanical committee and as Chair and Vice Chair of the Mechanical Systems and Materials module. He has also trained and supported other exam development volunteers.

Means has been a part of many changes to the PE Mechanical exam, helping with the exam's conversion from an essay format to multiple choice and now working toward the transition to computer-based testing.

Means was a member of the WV State Board of Registration for Professional Engineers from 1981 to 1997, serving terms as President and Vice President during this time. He was a member or consultant to the Committee on Examinations for Professional Engineers for eight terms and also served as Vice Chair. He served on several other NCEES committees during his board tenure, including the Committee on ABET and the ad hoc Committee on Office Automation, aimed in part at streamlining the exam process to improve efficiency.

A licensed professional engineer since 1971, Means is a professor of mechanical and aerospace engineering at West Virginia University. He received his bachelor of science and doctoral degrees in mechanical engineering from West Virginia University. He received his master's of science degree in mechanical engineering from Drexel University.

NCEES honors WV professional engineer Dr. William E. Pierson for service

William E. Pierson, PhD, PE

William E. Pierson, PhD, PE, of Scott Depot, West Virginia, has been awarded the NCEES Distinguished Examination Service Award for his dedicated service to NCEES and the engineering profession. Pierson received this award at the organization's 95th annual meeting, held August 24–27, 2016, in Indianapolis, Indiana.

A dedicated supporter of the Fundamentals of Engineering (FE) exam, Pierson is a past Chair and Vice Chair of the committee as well as past Chair of the electrical engineering subcommittee. In addition to writing exam items since the early 1990s, Pierson has worked on preliminary item analyses to assess the quality of exam items. He has also worked on the subcommittee to select approved calculators for use on NCEES exams and assisted with the development of the FE Supplied Reference Handbook and exam preparation materials.

In the 26 years that Pierson has volunteered with the FE Exam Development Committee, the FE exam has undergone substantial changes. It moved from a single pencil-and-paper exam for all disciplines to a breadth-and-depth exam with common and discipline-specific sections and then to a computer-based exam offered in seven disciplines.

Pierson was a member of the WV State Board of Registration for Professional Engineers from 2006 to 2016 and is now an emeritus member. During his board tenure, he served as Board Vice President and also served four terms each as a member of the NCEES Committee on Examinations for Professional Engineers and the Committee on Education. He also served as a member of the NCEES Engineering Education Award jury and as the NCEES alternate representative to the ABET Board of Directors.

Pierson is committed to advancing intern certification and PE licensure. As a member of the West Virginia PE Board, he met with engineering deans at various state colleges and universities to discuss the effectiveness of the FE exam as an outcomes assessment tool. He also gave presentations on NCEES licensing exams, including the FE exam's transition to computer-based testing.

A licensed professional engineer since 1975, Pierson is professor emeritus at Marshall University's Weisberg Division of Engineering. He earned a bachelor of science degree in electrical engineering from West Virginia Institute of Technology, a master of science degree in electrical engineering from West Virginia University, and a PhD from the University of Missouri–Rolla.

NCEES honors WV professional engineer L. Joseph Timms, Jr., PE, for service

Michael Conzett, PE (2015-2016 NCEES President) and Joe Timms, PE

L. Joseph Timms, Jr., PE, of Bridgeport, West Virginia, has been awarded the NCEES Distinguished Service Award for his dedicated service to NCEES and the engineering and surveying professions. Timms received this award at the organization's 95th annual meeting, held August 24–27, 2016, in Indianapolis, Indiana.

Timms was a member of the West Virginia State Board of Registration for Professional Engineers from 1998 to 2016. During this time, he served as Board President and Secretary. In 2016, he was named an emeritus member of the board.

Timms served on the NCEES Board of Directors from 2007 to 2012 while fulfilling terms as President and Northeast Zone Vice President. During this time, he was board liaison to a number of NCEES committees and task forces, including the Committee on Uniform Procedures and Legislative Guidelines, the Committee on Examinations for Professional Engineers, and the Education Task Force. He also served three terms as a member of the Committee on Law Enforcement and chaired the Foreign Experience Evaluation Task Force. He most recently served as chair of the 2015–16 Advisory Committee on Council Activities.

A resource and advocate for licensure and ethical responsibilities, Timms is actively involved in other professional and community organizations. He is a Fellow of the American Society of Civil Engineers and a member of the ASCE Committee on Licensure. He has made dozens of presentations on the value of licensure and the ethical obligations for professional engineers at West Virginia universities. As a member of the Advisory Committee and Engineering Visiting Committee for the West Virginia University Department of Petroleum and Natural Gas Engineering, he has promoted the need for faculty members to be licensed. For more than a decade, he has taken part in the West Virginia PE Board's continuing education presentation at the annual West Virginia Construction Design and Exposition.

Timms has more than 50 years of experience in civil engineering, management, and energy consultancy. He retired as president and CEO of Consolidated Natural Gas (now Dominion) Transmission Corporation, a Fortune 500 company. Since his retirement almost 20 years ago, Timms has been active as an adjunct professor of management, a management and energy consultant, and mayor of his city for 8 years.

Timms holds a bachelor's degree in civil engineering from the Massachusetts Institute of Technology and a bachelor's degree in business and economics from Salem International University. A former chair of the Davis and Elkins College (W.Va.) board of trustees, Timms received an honorary doctor of law degree from the college following his 2008 commencement address.

2016 WV LICENSEE STATUS REPORT

To view or download a complete roster of the Active PE licenses, Firm Certificates of Authorizations (COAs), and Retired PEs, simply visit our website. You may also access the online verification search to determine if a particular individual and/or firm is authorized to practice, or even offer to provide engineering services in WV. In the past, our site (and this newsletter) contained disclaimers indicating that users should use the rosters and online verification systems with caution, noting that the search mechanisms were only updated every 60-90 days. However, we are extremely pleased to report that we have implemented a new in-house database and all rosters and online verification search tools are now pulling data in "real-time". All submitted address changes, new employer updates, new licensees, as well as any recent Board changes to the status of a licensee will appear immediately unless an action is required by staff before it will post. If such an action is required by staff, they will receive a flashing warning the next time they log into the database and be prompted to perform the check and release the "real-time" update. In most instances, such approvals are performed during the normal course of business and multiple times throughout each work day. If, however, an after-hours/weekend/holiday submission occurs that requires staff action, rest assured such will take place within a maximum of 1-2 hours of our office opening on the next official business day.

Summary Note: *Due to our upgraded technology and "real-time" search features available on our website, we are no longer publishing lengthy newsletter lists within our newsletter of those PEs or firm COAs with Lapsed, Inactive or Invalidated status. It is quite possible these individuals or firms may have already begun or completed the reinstatement process to bring such non-practicing status situations into Active status and good standing. Again, visit our website for complete status details for any WV PE or WV COA, or simply contact the Board office with any specific questions.*

COA RENEWAL FOLLOW-UP

In the early months of the 2016 calendar year, shortly after the January 30th COA deadline for renewal with late fees, several issues came to the attention of the WV PE Board staff where the COA renewal fee submissions did not appear to match earlier submissions and the reported number of PEs claimed for the employer in previous years. For this reason, correspondence was sent on behalf of the Board to each firm and their Engineer In Responsible Charge (EIRC). This correspondence contained a COA Questionnaire that asked the following 2 simple questions:

Total Number of Employees associated with your COA.

NOTE: This must include every employee on your payroll for the main office as well as all branch locations with the same COA.

	1 Employee
	2-25 Employees
	25+ Employees

Total Number of Professional Engineers (PEs) associated with your COA.

NOTE: This must include every registered professional engineer from any jurisdiction, not just WV PEs.

	1 Professional Engineer
	2 or 3 Professional Engineers
	4 or more Professional Engineers

The EIRC was asked to simply respond to these 2 questions and return to the Board office no later than March 7, 2016. Upon receipt, Board staff verified the responses against the firm's new application, renewal information and/or fee submission and then followed up with those who had apparent discrepancies. Slightly more than 11%, approximately 350 COAs, were discovered to have discrepancies and potential problems with their 2015-16 Certificate of Authorization (COA) Renewal, or new COA application, when compared to their response to the Board COA Questionnaire. Specifically, discrepancies existed regarding the total number of employees and/

or the total number of Professional Engineers (regardless of state of licensure) working for their firms. In order to maintain active status of the current COA, the firm was required to review the discrepancies and make the necessary corrections in the data responses or submit the correct corresponding fee for the correct number of employees and/or PEs working under that COA.

The Board explained in the correspondence that the differences in the responses to the questionnaire vs. the COA application or renewal may simply have been an oversight on the part of the individual who handled the application/latest renewal process or perhaps the information was correct at the time of application/renewal but has changed. If this was the case, the Board asked for a basic written explanation to file with their COA record documents. If the response to the COA Questionnaire was and continued to be correct, meaning the discrepancy existed, the Board asked the company to rectify this situation by sending in the additional required payment. In order to ensure the current accuracy of the size of the firms practicing engineering in West Virginia, the Board decided to disregard prior years and simply allow firms to pay the difference between the correct 2016-17 renewal fee/original application fee and the actual required fee payment made by the company. Of course, they must agree to continue to renew based on then current and correct information or possibly subject themselves or their firm to disciplinary action based on misinformation to the Board.

Details of such discrepancies were presented in the form noted below:

_____ Original COA Application Fee paid by firm

_____ Correct COA Application Fee based on COA Questionnaire Response

_____ Posted 2015 COA Renewal Payment paid by firm

_____ Correct 2015 COA Renewal Fee based on COA Questionnaire Responses

_____ Total of all noted discrepancies on most recent payment history attached

_____ One-Time payment needed to correct the deficiency

For those firms who needed to pay an additional amount to reflect the size of their firm as of this 2016-17 licensure period, the Board respectfully requested the one-time payment via check or money order within 14 days of the date of the correspondence (no later than July 7, 2016).

As of September 15, 2016, the following is a summary of those firms with COA discrepancies and who potentially owed the Board additional funds:

26 explanations received and no fee required (firm was in compliance, ie, a PE added after renewal, error in completion of questionnaire, etc.)

7 elected Inactive Status (signed documentation they were no longer practicing or offering engineering services in WV)

319 payments collected to date – Total = $139,625

The Board would like to thank all firms involved in this administrative matter who provided a thorough and expeditious response to the Board Questionnaire and follow-up. The Board would also like to highlight that two firms reported inaccuracies in multi-year renewals and were not only apologetic but insistent that they pay the full amount of the arrears payments and not simply the 2015 discrepancy option offered by the Board. In the first instance, the firm's EIRC thanked the Board for their gracious offer but elected to send in the full $1500 discrepancy in lieu of the $500 one-time, reduced payment request. In the second instance, the EIRC stated that while he certainly appreciated the Board's generosity, he did not feel compelled to take advantage of the situation and they submitted $150 in lieu of the $100 one-time payment option offered.

First WV PE Biennial Renewal Season Is Upon Us

NEW PE FEE REDUCTIONS (as of July 2016)

2015 and prior

- PE License Renewal ..... $40 / year
- Retired PE License Renewal ..... $25 / year

2016 and until further notice*

- PE License Renewal ..... $70 / biennially
- Retired PE License Renewal ..... $30 / biennially

*WV PE renewal fees have remained the same since July 2001. The PE Board and staff have worked diligently to increase services and implement technological advances without any PE fee increases. In fact, with our new PE Roster approaching 8700 Active PEs, our new PE fee structure was able to be reduced to the same level as set by WV Legislature in 1993 and the PE-Retired renewal fee is lower than in documented history.

THE FINAL STEP IN THE MUCH ANTICIPATED TRANSITION

In a letter dated May 14, 2015, addressed to all Active WV PEs and COA holders, the WV PE Board was pleased to announce its success during the 2015 Legislative Session in having 2-year renewals authorized and changing the licensure year to the calendar year, both of which our stakeholders clearly preferred and have been requesting for years. Due to other sections of WV law, we were required to adjust our receipt of revenue in comparison to budgeted expense and, for that reason, were required to stagger the biennial renewals for PEs and COAs. Therefore, the 2-year cycle for COAs began on January 1, 2016 and for PEs will begin January 1, 2017. Obviously, there were some issues that arose in the transition to this 2-year licensure period that, by Board action, are being resolved as follows:

The renewal process for PEs for the 2015-2016 licensure period began with a letter outlining that the traditional 12-month licensure period would extend an additional six (six) months such that your PE license does not expire until December 31, 2016. For that 2015-2016 PE renewal period, the Board delayed the requirement to report the fifteen (15) professional development hours (PDHs). In addition, PEs simply paid the regular $40 annual renewal fee but enjoyed the benefit of the additional six months of licensure. Now that this 18-month transition is nearing completion, we are preparing for the 2017-2018 renewal where PEs must document thirty (30) PDHs prior to the issuance of a new license, which will be valid from January 1, 2017 through December 31, 2018. The thirty (30) PDHs is simply twice the number previously required for an annual renewal. If the licensee has earned more than the required 30 PDHs in the allowable timeframe, he/she should claim those as well because the Board now allows for up to 15 carryover hours into the next 2-year renewal cycle.

In other words, those wishing to renew their current license (which expires on December 31, 2016), simply complete the basic online renewal form, submit the new reduced fee of $70 (instead of $80), and your license will be renewed through December 31, 2018. Prior to the expiration of your 2015-16 license, you will submit the new renewal fee (which was set forth in new legislative rules approved during the 2016 WV Legislative Special Session) and document 30 PDHs obtained between July 1, 2014 (or your 2014 renewal date) and December 31, 2016 (or your 2016 renewal date). Essentially this transition has afforded each WV PE an extra six months to earn the required continuing education during our transition year. The Board waived six months of the regular annual renewal fee (a $20 savings) and six months of required continuing education (7.5 PDHs) in an effort to aid in a quick and efficient transition that would be amenable to our licensees.

Another change that was implemented during the COA renewal season in late 2015 is also being implemented during the upcoming PE renewal season which is the reduction in the grace period following the December 31st deadline. The Board grace period where a license can still be renewed by submitting late fees changed from ninety (90) days to one month. This means that all WV PE licenses not renewed by January 31, 2017 will lapse and then require submission of a reinstatement application package to return to active status.

One additional, yet important, change in W.Va. Code 30-13-18 drops the requirement that the WV PE Board mail a notice of renewal requirements to each licensee at their last known address. It is contemplated that future renewal notices will be emailed to current licensees, as well as continue to be displayed prominently on the Board's website at www.wvpebd.org. For this reason, please remember to keep your email address(es) current with the Board.

The new renewal processes will reduce the amount of time and cost needed by both you and our staff to ensure professional engineers and engineering firms serving West Virginia are properly credentialed. We will strive to continue to find ways to best serve our licensed PEs and firms, while fulfilling the Board's mission to protect public health, safety and welfare.

CPC Tracking – 2 New Tools for Your Use

YOU HAVE ASKED AND WE HAVE ANSWERED!

The above "We" refers to the WV PE Board as well as NCEES. Most state licensing boards require licensed professional engineers and surveyors to meet a continuing professional competency (CPC) requirement to renew their license. The WV PE Board recently unveiled their year-round continuing education online activity log. You may report your continuing education activity participation at any time by logging into your personal WV database record, 365 days a year, 24 hours a day. You no longer have to wait and type all entries during the processing of your online WV PE renewal transaction. This will be a great benefit as we move to the multi-year renewal which requires a minimum of 30 qualifying professional development hours (PDH) to successfully renew.

You may also conveniently track and report your CPC requirements for free through your MyNCEES account.

How to track your CPC courses and requirements

1. Identify the state licensing board(s) for which you would like to track CPC requirements. Log into your MyNCEES account and select CPC Tracking to select the appropriate state licensing boards and enter renewal period information for each.
2. Enter CPC course information when you complete a continuing education course by adding the course information and corresponding PDHs. Supporting documentation can be uploaded to your account and the course and PDHs will be applied to the appropriate states.
3. Track your progress and view a side-by-side comparison of the state's requirements and your completed CPC courses.
4. Transmit your completed CPC report to the relevant state licensing board(s) at the appropriate time. Check with the various state licensing boards for specific requirements.

Where Do You Fit In?

NCEES is made up of 70 engineering and surveying licensing boards that represent all U.S. states, the District of Columbia, Guam, Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. These boards are divided into four zones: Central, Northeast, Southern, and Western.

The zones generally meet twice a year—at the annual meeting in August and at the zone interim meeting in the spring. The 2017 zone interim meeting dates are as follows:

- **April 27–29, 2017:** Joint Northeast/Southern Zone, St. Thomas, Virgin Islands
- **May 18–20, 2017:** Joint Central/Western Zone, Denver, Colorado

Red Flags

Watch out for these issues:

- Architectural sheets sealed by an engineer
- Engineering sheets sealed by an architect
- Plans sealed by an unlicensed person, architect or engineer
- Plans sealed by an engineer of an unauthorized firm (one without a COA)
- Incomplete documents sealed without a disclaimer
- Plans that have not been sealed, signed (dated) by the licensee(s)
- Prototypical, standard plans that do not bear the seal of the WV licensee and disclaimer
- Seals that appear to be cut and pasted
- Contact person is not the licensee or it is difficult to contact the licensee
- Plans, details, letters, reports, etc. do not appear to apply to the project
- Plans have numerous or serious code violations
- Non-dated revisions
- Revisions or changes missing seal, signature (date)
- Plans which do not list the name of the architect or engineer involved and the name of his/her firm.

What to do?

- Question the professional as to circumstances and qualifications
- Get the issue corrected
- Reject the documents
- Contact the appropriate licensing board
- File a complaint with the appropriate licensing board

Engineering Addendum:

Are the services of a registered professional engineer required for single family residential structures?

Single family residences do not normally require the design services of professional (structural) engineers except for some large custom designed homes where the owner requests the services or the spans are too large for typical code-specified framing to work. Generally the only times a structural engineer will become involved in a single family residence are as follows:

- Where there is a problem with the foundation or framing of the house, such as storm damage, soil movements, or unusual deflections and damages in the architectural finishes.
- When an existing house is being sold and the mortgage company is looking for someone to identify and describe the various structural movements and damages that have occurred in the structure, as well as provide some recommendations of what should be done to eliminate the problems.
- When the design of the house involves a structural system which is outside of the typical structural framing and foundation systems specified in the residential building code or when the building code requires engineering services.

Introduction

The licensing of Professional Engineers began in the State of Wyoming in 1907. The West Virginia State Board of Registration for Professional Engineers (WV PE Board) was formed to oversee the licensing of engineers in West Virginia in 1921. Article 13 – the part of the professional licensing chapter of the code (Chapter 30) that regulates Professional Engineers – was first enacted in 1992. The statutes in W.Va. Code 30-13-1 et seq. and Series 7 of the Code of State Rules are the primary components of what is referred to as "West Virginia Engineering Law."

Laws requiring professional licensure and regulating the practice of that profession are enacted under the police powers of the State. The primary purpose is to protect the public. Through its statutes and rules, the WV PE Board works to safeguard life, health and property and promote the public welfare. This is done, in part, by requiring professional engineers to meet specified minimum standards, follow certain procedures, and practice in accordance with their rules of professional responsibility.

Those licensure standards, and the procedures and rules that govern those who have been granted the privilege to practice engineering in West Virginia, can be found in these pages. It is hoped that the information provided here helps you understand the substantive and procedural aspects of West Virginia Engineering Law. The staff and its counsel are always available in the event you need more information or have questions regarding the Board's implementation and application of West Virginia Engineering Law.

The Board and staff work diligently to carry out our responsibilities to the public, the State of West Virginia, and to the professional engineers licensed in West Virginia. The more that these entities know, understand and comply with West Virginia Engineering Law, the easier our job will be, and we can all work together to ensure that West Virginia's professional engineers are providing good service to the State and its people.

CHANGES TO STATUTE OR RULES AFTER 2016:

Please be advised this booklet contains only legislative action prior to September 2016. It is unpredictable when the West Virginia Legislature may consider and possibly pass legislation amending Article 13, and there is always the possibility that the Board may choose to seek statutory changes through the legislative process in future years. The Board, on its website, will attempt to keep the engineering community and citizens of West Virginia apprised of legislative developments and will always post legislation amending Article 13 that is enacted into law.

Similarly, the Board may pursue changes to its rules in future years although no changes to its legislative rules (Series 1) are proposed for rule-making review by the WV Legislature in 2017. You will always be able to find the rules in effect and any proposed rules on the Board's website at ***www.wvpebd.org*** *and on the WV Secretary of State's website at* ***www.sos.wv.gov****.*

§30-13-1. Legislative findings; intent.

The Legislature hereby determines the need to regulate the practice of engineering; to provide for the registration of qualified persons as professional engineers and the certification of engineer interns; to define the terms "engineer," "professional engineer," "engineer intern" and "practice of engineering"; to create a state board of registration for professional engineers and provide for the appointment and compensation of its members; to fix the term of members of the board and define its powers and duties; to set forth the minimum qualifications and other requirements for registration as an engineer and certification as an engineer intern; to establish registration fees with expiration and renewal requirements; to impose certain duties upon the state and political subdivisions thereof in connection with public works; and to provide for the enforcement of this article and penalties for its violation.

§30-13-2. General provisions.

In order to safeguard life, health and property and to promote the public welfare, the practice of engineering in this state is hereby declared to be subject to regulation in the public interest. It is unlawful for any person to practice or to offer to practice engineering in this state, as defined in the provisions of this article, or to use in connection with his or her name or otherwise assume or advertise any title or description tending to convey the impression that he or she is a registered or licensed engineer, unless the person has been duly registered or exempted under the provisions of this article. Engineering is hereby declared a learned profession and its practitioners are held accountable to the state and the public by professional standards in keeping with the ethics and practice of other learned professions in this state. The practice of engineering is a privilege granted by the state.

§30-13-3. Definitions.

Unless the context in which used clearly requires a different meaning as used in this article:

(a) **"Board"** means the West Virginia state board of registration for professional engineers as provided for in this article.

(b) **"Consulting engineer"** means a professional engineer whose principal occupation is the independent practice of engineering; whose livelihood is obtained by offering engineering services to the public; who serves clients as an independent fiduciary; who is devoid of public, commercial and product affiliation that might tend to infer a conflict of interest; and who is cognizant of their public and legal responsibilities and is capable of discharging them.

(c) **"Engineer"** means a person who is qualified to practice engineering by reason of special knowledge and use of the mathematical, physical and engineering sciences and the principles and methods of engineering analysis and design, acquired by engineering education and engineering experience.

(d) **"Engineer intern"** means a person who has qualified for, taken and has passed an examination in the fundamental engineering subjects, as provided in this article.

(e) **"Practice of engineering"** means any service or creative work, the adequate performance of which requires engineering education, training and experience in the application of special knowledge of the mathematical, physical and engineering sciences to such services or creative work as consultation, investigation, evaluation, planning and design of engineering works and systems; planning the use of land and water; teaching of advanced engineering subjects, engineering surveys and studies; and the review of construction for the purpose of assuring compliance with drawings and specifications any of which embraces such services or work, either public or private, in connection with any utilities, structures, buildings, machines, equipment, processes, work systems, projects and industrial or consumer products or equipment of a mechanical, electrical, hydraulic, pneumatic or thermal nature, insofar as they involve safeguarding life, health or property, and including such other professional services as may be necessary to the planning, progress and completion of any engineering services. Engineering surveys include all survey activities required to support the sound conception, planning, design, construction, maintenance and operation of engineered projects.

Any person who practices any branch of the profession of engineering or who, by verbal claim, sign, advertisement, letterhead, card or in any other way represents himself or herself to be a professional engineer, or by using another title implies that he or she is a professional engineer or that he or she is registered under this article or who holds himself or herself out as able to perform, or who performs any engineering service or work or any other service designated by the practitioner which is recognized as engineering, is considered to practice or offer to practice engineering within the meaning and intent of this article.

(f) **"Professional engineer"** means a person who has been duly registered or licensed as a professional engineer by the board. The board may designate a professional engineer, on the basis of education, experience and examination, as being licensed in a specific discipline or branch of engineering signifying the area in which the engineer has demonstrated competence.

(g) **"Responsible charge"** means direct control and personal supervision of engineering work.

(h) **"Rules of professional responsibility for professional engineers"** means those rules, if any, promulgated by the West Virginia state board of registration for professional engineers as authorized by this article.

§30-13-4. Board of registration for professional engineers; appointment and term.

There is hereby created the board of registration for professional engineers which shall hereafter be referred to as the board. The board shall be composed of five members appointed by the governor, by and with the consent of the Senate, preferably from a list of names submitted by the West Virginia society of professional engineers. The members of the board shall be qualified and shall meet the requirements of section five of this article. The governor shall present each board member with a certificate of appointment. Each board member shall make and file an oath or affirmation with the secretary of state to faithfully execute the duties of a member of the board. Members of the board shall serve a term of five years. Of the members first appointed, one shall serve a term of one year,

one shall serve a term of two years, one shall serve a term of three years, one shall serve a term of four years and one shall serve a term of five years. Members are eligible for reappointment but no member may be appointed for more than three full consecutive terms. In lieu of information required on the board's application forms, the board may accept the verified information contained in a valid council record issued by the national council of examiners for engineering and surveying for professional engineer applicants.

The board shall set fees for all applicants for registration and certification by promulgating legislative rules under the provisions of article three, chapter twenty-nine-a of this code.

Fees of unsuccessful applicants and the fees of applicants who have been refused registration or certification for any purpose shall be retained by the board to cover administrative costs.

§30-13-15. Examinations.

(a) The board has the power to establish, by legislative rule, the requirements for examination for registration as a professional engineer and certification as an engineer intern including, but not limited to, the following criteria: subject matter, prerequisites for testing, passing score, examination sites and schedules, entities authorized to administer examinations, prerequisites for testing and form of testing, including examination by electronic or other means.

(1) An examination to qualify to be an engineer intern, to test the applicant's knowledge and understanding of the fundamentals of engineering; and

(2) An examination to qualify as a professional engineer, to test the applicant's knowledge and understanding of the principles and practice of engineering.

(c) If the board determines that the safe and ethical practice of engineering in this state requires examination of matters specific to the law and practice in this state, the board may also establish criteria, by legislative rule, for an examination of the applicant's knowledge and understanding of this state's statutes, rules, professional ethics and design requirements.

(d) A candidate for registration as a professional engineer who fails the examination of the principles and practice of engineering may retake the examination one time upon payment of the fee established by the board. In the event of a second failure, the candidate may not repeat the examination unless the examinee demonstrates to the board that he or she has pursued additional instruction or training to correct the candidate's deficit areas of knowledge.

(e) In the event that examination requirements, test administration procedures, scoring or testing methods are modified by a board-approved testing entity providing standard tests for use by the board, the board has the authority to promulgate emergency rules to adopt and reflect those changes.

§30-13-16. Certificates and seals.

(a) The board shall issue a certificate of registration to any applicant who, in the opinion of the board, has met the requirements of this article. The certificate of registration shall carry the designation "professional engineer." It shall give the full name of the registrant with their registration number and shall be signed by the chairman and the secretary under the seal of the board. The certificate of registration grants the recipient authority to practice in this state.

(b) An unexpired and unrevoked certificate is prima facie evidence that the person named on it is entitled to all rights, privileges and responsibilities of a professional engineer.

(c) Every registrant shall obtain a seal for use in identifying his or her official professional work. The design of the seal shall be determined by the board and shall bear the registrant's name, registrant's registration number, the legend "registered professional engineer, state of West Virginia" and such other words or figures as the board may prescribe. The seal may be a rubber stamp. Whenever the seal is applied, the registrant's written signature shall be adjacent to or across the seal. No further words or wording are required. Whenever presented to a client or any public or governmental agency, the seal, signature and date shall be placed on all specifications, reports, drawings, plans, design information and calculations in accordance with rules promulgated by the board. The seal and signature shall be used by registrants only when the work being stamped was under the registrant's complete direction and control.

In the case of a registrant of another state using a temporary permit issued by this state, the registrant shall use the state of permanent registration seal and shall affix his or her signature and temporary permit number to all work. In the case of a registrant checking the work of an out-of-state registrant, the state registrant shall completely check and have complete dominion and control of the design. The complete dominion and control includes possession of the sealed and signed reproducible construction drawings with complete signed and sealed design calculations indicating all changes in design.

(d) The board shall issue to any applicant who, in the opinion of the board, has met the requirements of this article, an enrollment card as engineer intern, which indicates that his or her name has been recorded in the board office. The engineer intern enrollment card does not authorize the holder to practice as a professional engineer. It is unlawful for a registrant to affix or to permit his or her seal and signature to be affixed to any document after the expiration of his or her certificate or for the purpose of aiding or abetting any other person to evade or attempt to evade any provisions of this article.

(d) An engineer who renders occasional, part-time or contract engineering services to or for a firm may not be designated as being in responsible charge for the professional activities of the firm unless that engineer is an owner or principal of the firm.

(e) The Secretary of State shall not issue a certificate of authority or business registration or license to an applicant whose business includes, among the objectives for which it is established, the words engineer, engineering or any modification or derivation thereof unless the board of registration for this profession has issued to the applicant a certificate of authorization or a letter indicating eligibility to receive the certificate. The certificate or letter from the board shall be filed with the application filed with the Secretary of State to do business in West Virginia.

(f) The Secretary of State shall decline to register a trade name or service mark which includes the words engineer, engineering or modifications or derivatives thereof in its business name or logotype except those businesses holding a certificate of authorization issued under the provisions of this article.

(g) The certificate of authorization may be renewed or reinstated in accordance with board rule and upon payment of the required fees.

(h) Every holder of a certificate of authorization has a duty to notify the board promptly of any change in information previously submitted to the board in an application for a certificate of authorization.

§30-13-18. Renewals and reinstatement.

(a) Certificates of registration and certificates of authorization expire on the last day of December of the year indicated on the certificate, and the holder of any certificate that is not timely renewed is ineligible to practice or offer to practice engineering in this state until the certificate has been reinstated in accordance with rules promulgated by the board.

(b) Certificates may be renewed only in accordance with board rule, which may include payment of a late fee for renewals not postmarked by December 31 of the year in which renewal is required. The board shall notify every person or firm holding an active certificate under this article of the certificate renewal requirements at least one month prior to the renewal date. The notice shall be made by mail or electronic means using the contact information provided to the board.

To comply with the Board's responsibilities, which are to safeguard life, health and property, to promote the public welfare, and to maintain a high standard of integrity and practice, the Board has developed the following Rules of Professional Responsibility set forth in this section. These rules supplement the provisions for professional responsibility prescribed in W. Va. Code §30-13-21 and are binding on every registrant and firm.

(a) All persons registered in West Virginia are required to be familiar with W. Va. Code §30-13-1 et seq., this rule, and all applicable laws relating to the practice of engineering. The Rules of Professional Responsibility delineate specific obligations the registrant shall meet. In addition, each registrant is charged with the responsibility of adhering to standards of highest ethical and moral conduct in all aspects of the practice of engineering.

(b) The practice of engineering is a privilege, as opposed to a right. All registrants shall exercise this privilege by performing services only in the areas of their competence according to current standards of technical competence.

(c) Registrants shall recognize their responsibility to the public and shall represent themselves before the public only in an objective and truthful manner.

(d) Registrants shall avoid conflicts of interest and faithfully serve the legitimate interests of their employers, clients, and customers within the limits defined by this rule. Their professional reputation shall be built on the merit of their services, and they shall not compete unfairly with others.

12.3. Registrant's Obligation to Society.

(a) Registrants, in the performance of their services for clients, employers and customers, shall be cognizant that their first and foremost responsibility is to the public welfare.

(b) Registrants shall approve and seal only those designs, plans or other documents that conform to accepted engineering standards and safeguard the life, health, property and welfare of the public.

(c) Registrants shall notify their employer or client and other appropriate authority when their professional judgment is overruled under circumstances where the life, health, property, or welfare of the public is endangered.

(d) Registrants shall be objective and truthful in professional reports, statements or testimony. They shall include all relevant and pertinent information in the reports, statements or testimony.

(e) Registrants shall express a professional opinion publicly only when it is founded upon an adequate knowledge of the facts and a competent evaluation of the subject matter.

(f) Registrants shall issue no statements, criticisms or arguments on engineering matters which are inspired or paid for by interested parties, unless they explicitly identify the interested parties on whose behalf they are speaking, and reveal any interest they have in the matters.

(g) Registrants shall not permit the use of their name or firm name, nor associate in business ventures with, any person or firm engaging in fraudulent or dishonest business or professional practices.

(h) Registrants having knowledge of possible violations related to the practice of engineering as set forth in statute or these rules, including the Rules of Professional Responsibility, shall provide the Board with information and assistance necessary to the final determination of the violation.

12.4. Registrant's Obligation to Employer and Clients.

(a) Registrants shall undertake assignments only when qualified by education or experience in the specific technical fields of engineering involved.

(b) Registrants shall not affix their signatures or seals to any plans or documents except in accordance with §30-13-1 et seq. and these rules.

(c) Registrants shall not reveal facts, data or information obtained in a professional capacity without the prior consent of the client or employer except as authorized or required by law.

(d) Registrants shall not solicit or accept financial or other valuable consideration, directly or indirectly, from contractors, their agents, suppliers, manufacturers, or other parties in connection with work for employers or clients.

(e) Registrants shall make full prior disclosures to their employers or clients of potential conflicts of interest or other circumstances which could influence or appear to influence their judgment or the quality of their service.

(f) Registrants shall not accept compensation, financial or otherwise, from more than one party for services pertaining to the same project, unless the circumstances are fully disclosed and agreed to by all interested parties.

(g) Registrants shall not solicit or accept a professional contract from a governmental body on which a principal or officer of their organization serves as a member. Conversely, registrants serving as members, advisors, or employees of a governmental body or department, who are the principals or employees of a private concern, shall not participate in decisions with respect to professional services offered or provided by the private concern to the governmental body which they serve unless their participation is approved by the West Virginia Ethics Commission.

12.5. Registrant's Obligation to Other Registrants.

(a) Registrants shall not falsify or permit misrepresentation of their or their associates' academic or professional qualifications. They shall not misrepresent or exaggerate their degree of responsibility in prior assignments or the complexity of the assignments. Presentations incident to the solicitation of employment or business shall not misrepresent pertinent facts concerning employers, employees, associates, joint ventures or past accomplishments.

(b) Registrants shall not offer, give, solicit or receive, either directly or indirectly, any commission, gift, or other valuable consideration in order to secure work, and shall not make any political contribution with the intent to influence the award of a contract by a public authority.

(c) Registrants shall not attempt to injure, maliciously or falsely, directly or indirectly, the professional reputation, prospects, practice or employment of other registrants, nor indiscriminately criticize other registrants' work.

12.6. Actions brought against applicants.

A registered PE who has been fined, received a reprimand, or had his or her registration revoked, suspended or denied in another jurisdiction for reasons or causes which this Board finds would constitute a violation of the law governing the practice of engineering in this state or any rule promulgated by this Board, is sufficient cause for the Board to levy a fine, reprimand, or deny, revoke or suspend a registration to practice engineering by the registrant in this state. Any such actions by other jurisdictions shall be reported on the renewal form. For purposes of this section, "another jurisdiction" means any other governing entity, including a licensing board for another profession.

§7-1-13. Fees Generally.

13.1. The fees listed in this section are payable to the West Virginia State Board of Registration for Professional Engineers unless charged by and payable to NCEES. 13.2. Timing of Submission of Fees. (b) A registrant or firm shall pay renewal fees on or before December 31st of the year of expiration.

(c) A renewal postmarked or submitted online between January 1 through 31 after the expiration date is considered late, and the Board shall assess a late fee set forth in subsection 13.4 of this rule.

TITLE 7 – SERIES 2
ADMINISTRATIVE HEARING PROCEDURES

§7-2-1. General.

1.1. Scope. — This rule specifies the procedure for Resolution of complaints relating to the practice of engineering in this State pursuant to the authority granted to the West Virginia State Board of Registration for Professional Engineers by W. Va. Code §30-13-1 et seq.

1.2. Authority. — W. Va. Code §30-13-1 et seq. and §30-1-1 et seq.

1.3. Filing Date. — June 22, 2004.

1.4. Effective Date. — July 23, 2004.

§7-2-2. Complaints.

2.1. Submission.

(a) Form. The form of complaints shall be determined by the Board. All complaints shall be in writing and verified by the complainant before a notary public.

(b) Who may submit. A complaint may be submitted by any natural person or legal entity, any registered engineer, or any firm holding a certificate of authorization. A complaint may be submitted by the Board, a member of the Board staff, with or without direction from the Board, or a member of the Board. Charges may be based upon information received solely through investigative activities undertaken by the Board.

2.2. Filing.

(a) The applicable statute provides for disposition of a complaint if trivial, unfounded, or settled informally. Unless in the opinion of at least one member of the Board the alleged situation which is the subject of a

complaint presents an imminent danger to health or safety, a complaint will be deemed received and filed only upon the majority vote of the Board members present and meeting in general session. Until such action, the complaint will be on the agenda for each meeting until resolved informally or filed. During the period before a complaint is deemed filed, the Board may take appropriate action, upon motion and consistent with the applicable statutes, to investigate and settle the complaint informally.

(b) A complaint will not be considered by the Board until an original is delivered to and logged in and numbered by the Board Administrator at Charleston during normal business hours. Facsimile and other electronic transmission of complaints will be accepted for filing, provided originals are delivered to the Board Administrator within fourteen (14) days thereafter.

2.3. Notice to Respondent. The Board Administrator shall give notice of the filing of a complaint to any and all respondents named in the complaint. Such notice shall be by certified mail, return receipt requested, to the respondent at his, her, or its last known address or in a manner consistent with the rules for service of process under the West Virginia Rules of Civil Procedure. A return of service shall be completed by the person effecting service and filed with the Board.

2.4. Response to Complaints. The respondent may file, within thirty days after service of the complaint, a responsive pleading which shall state with particularity every defense in law or fact to the allegations in the complaint. Every responsive pleading shall be verified by the respondent.

2.5. Failure to File Response. The failure to file a response to the complaint shall be deemed an admission of the factual allegations contained therein. The failure to file a response shall not be grounds for delaying hearing or other action upon the complaint.

2.6. More Definite Statement. The Board or a respondent may request a clarification or more definite statement of the allegations in the complaint. A respondent's request for a more definite statement shall be filed with the Board not less than fifteen days before the hearing date. The Board's request may be issued to a complainant at any time, and the complainant shall respond within seven days of service of the request by the Board. Failure of a complainant to respond timely to such request may be grounds for dismissal of the complaint.

§7-2-3. Hearing Panel.

3.1. Hearing Panel.

(a) Complaints regarding persons licensed by the Board and complaints regarding unlawful practice of engineering in this State or a request for hearing regarding licensure or issuance of a certificate of authorization shall be heard and decided by the Board as a whole sitting as a Hearing Panel, except that any member of the Board who has a conflict of interest with regard to a particular complaint may decline to participate

in such proceedings. Recusal is mandatory in any proceeding in which a judge, similarly situated, would be required to exercise recusal. The filing of a complaint by a Board member will not automatically be grounds for recusal. Recusal shall not prevent a Board member from testifying as a witness.

(b) If recusals result in there being less than a quorum, the remaining unrecused members of the Board shall appoint a registered professional engineer who is not a member of the Board for each recused member to serve solely for the purposes of hearing and deciding such complaint.

(c) The Hearing Panel shall conduct hearings, make findings of fact and conclusions of law, and issue administrative decisions and orders to enforce the provisions of W. Va. Code §30-13-1 et seq.

3.2. Location of Hearing Proceedings. Unless otherwise ordered by a majority vote of the Board, all hearings shall be heard at Charleston.

3.3. Quorum. A quorum shall consist of not less than three members of the Hearing Panel.

3.4. Presiding at Hearings.

(a) The President of the Board shall serve as the presiding officer at hearings. In the event of the President's recusal, the Hearing Panel shall elect a presiding officer from among themselves who will preside for hearings on that complaint.

(b) The presiding officer shall have the power to (1) administer oaths and affirmations, (2) rule upon offers of proof and receive relevant evidence, (3) regulate the course of the hearing, (4) hold conferences for the settlement or simplification of the issues by consent of the parties, and (5) dispose of procedural requests or similar matters.

3.5. Privilege and Immunity. All information provided, including documents and testimony given with respect to any complaint, investigation or proceeding under these rules, shall be privileged in any action for defamation or the like. All members of the Board, its counsel, and their employees shall be absolutely immune from civil suit in the same manner as members of the judiciary in the State for any conduct in the course of their official duties.

§7-2-4. Procedural Rules for Hearings.

4.1. Notice of Hearings.

(a) Within sixty (60) days of filing complaint, the presiding officer shall set a hearing date and time. Notice of the hearing date and time shall be served on respondent and counsel for respondent, if any, by first class mail addressed to the last known mailing address of such person. Such notices shall be mailed not less than thirty (30) days before the hearing date. All complaints, unless dismissed by the Board as unfounded, trivial or settled informally, shall be heard within six months after the date each complaint was received and filed.

(b) Hearings may be rescheduled by the presiding officer and, once begun, continued from time to time, for cause shown as the interests of justice may require.

4.2. Prehearing Matters. The presiding officer, with or without the request of a party, may schedule a prehearing conference to narrow the issues to be heard, to estimate the time which will be required for the hearing, rule upon prehearing motions, and, when appropriate, negotiate informal disposition of the complaint.

4.3. Hearings Generally.

(a) Conduct and Order of Hearing.

(1) Upon calling on for hearing any complaint, the presiding officer may cause the complaint to be read and shall offer the respondent the opportunity to reply. The Hearing Panel may receive evidence from its investigator or staff. Respondent, directly or by counsel, may present evidence in defense against the complaint. All testimony given shall be subject to cross-examination by the opposing party. The Board may receive rebuttal evidence after respondent's presentation. Any member of the Hearing Panel may inquire to any witness at any time.

(2) After the receipt of all evidence, respondent and Board staff, directly or by counsel, may be allowed to make closing arguments.

(3) If the respondent is not a natural person, the respondent shall be represented by counsel. The Board or its staff may be represented by counsel.

(4) Failure of the respondent to appear, without cause, shall not result in delay or postponement of the hearing.

(b) The Record. The record of a hearing shall consist of the testimony and documentary and physical evidence admitted into evidence by the Hearing Panel, all judicially cognizable facts so noticed, and the administrative decision or order ruling upon the complaint. All hearing proceedings on the record shall be recorded by stenographic means. Any party may obtain a transcript of the proceedings at the party's expense.

(c) Testimony. Witnesses shall testify under oath or affirmation.

(d) Evidence.

(1) The West Virginia Rules of Evidence shall apply. Irrelevant, immaterial, or unduly repetitious evidence shall be excluded. When necessary to ascertain facts not reasonably susceptible of proof under those rules, evidence not admissible thereunder may be admitted, except where precluded by statute, if it is of a type commonly relied upon by reasonably prudent persons in the conduct of their affairs. The Hearing Panel shall be bound by the rules of privilege recognized by law. Objections to evidentiary offers and the ruling thereupon shall be noted in the record. Any party to any such hearing may vouch the record as to any excluded testimony or other evidence.

(2) Only the evidence admitted into the record and judicially cognizable facts so noticed shall be considered in the determination of the complaint.

(3) Depositions may be taken and read or otherwise received as evidence in accordance with Rules 30 and 32 of the West Virginia Rules of Civil Procedure.

(e) Conformance. Upon motion of any member of the Hearing Panel or any party assigning error or omission in any part of any transcript, the presiding officer shall settle all differences arising as to whether such transcript truly discloses what occurred at the hearing and shall direct that the transcript be corrected as appropriate so as to make it conform to the truth.

(f) Deliberations. Hearing Panels may deliberate and issue decisions in person, by telephone conference, or by written correspondence, including electronic communications.

(g) Open Meetings and Executive Sessions. Pursuant to W.Va. Code §6-9A-1, the Board may by majority vote hold hearings under these rules in executive session unless the respondent requests an open meeting. In any event, the vote upon the final decision of the Hearing Panel shall be in open session.

4.4. Standard of Proof. To impose any sanction or penalty, the findings of the Hearing Panel in support thereof must be proved by a preponderance of the evidence.

4.5. Subpoena and Contempt Power. The Hearing Panel shall have power to issue subpoenas or any other lawful process through the presiding officer at the request of any party. Subpoenas may be issued for attendance of witnesses or the production of documentary evidence. Subpoenas and other process may be served in accordance with the West Virginia Rules of Civil Procedure. All witnesses shall be entitled to such witness fees and expenses as in any civil proceeding in this State. The Hearing Panel may apply to any circuit court for an order requiring any person to comply with the presiding officer's directions in maintaining order at a hearing or to compel compliance with subpoenas.

4.6. Criminal Convictions.

(a) An engineer who has been convicted of a crime that reflects adversely on the engineer's honesty, trustworthiness or fitness as an engineer, or of any felony, shall, within thirty days of entry of the order or judgment of conviction, forward a copy of the order or judgment to the Board's Administrator. A plea or verdict of guilty or a conviction after a plea of nolo contendere shall be deemed to be a conviction within the meaning of this rule. Any other person may file a copy of the order or judgment with the Board.

(b) Upon receipt of the order or judgment, which shall be conclusive evidence of the guilt of the crime or crimes of which the engineer has been convicted, the Board Administrator shall treat the order or judgment as a complaint for misconduct and violation of professional responsibility.

(c) A respondent may present evidence and argument in support of mitigation based on, but not limited to, the nature of respondent's misconduct, surrounding facts and circumstances, previous ethical violations, the willfulness of the conduct, and the adequacy of respondent's previous opportunity to present evidence.

4.7. Reciprocal Discipline.

(a) A final adjudication in another jurisdiction, whether state or federal, of misconduct constituting grounds for discipline of a registered professional engineer in that jurisdiction or a voluntary surrender of a license to practice engineering in connection with a disciplinary proceeding in that jurisdiction shall, for the purposes of proceedings under these rules, conclusively establish such conduct.

(b) A registrant in this State against whom any form of public discipline has been imposed by the authorities of another jurisdiction, whether state or federal, or who voluntarily surrenders his or an aggravating factor in any subsequent disciplinary proceeding. Any other person may notify the Board of such action by submitting a complaint.

(c) If the registrant intends to challenge the validity of the disciplinary order entered in the foreign jurisdiction or the voluntary surrender of his or her license to practice engineering in connection with a disciplinary proceeding, the registrant must request a formal hearing and file with the Board a full copy of the record of the disciplinary proceedings which resulted in imposition of the disciplinary order or the voluntary surrender of a license to practice engineering.

§7-2-5. Disposition of Complaints.

5.1. Administrative Decisions and Orders.

(a) Any party may submit proposed findings of fact and conclusions of law as permitted in the discretion of the presiding officer.

(b) After a hearing upon a complaint is completed, including an instance in which the respondent defaults, the Hearing Panel may make findings of fact and conclusions of law and shall issue the appropriate administrative decision or order.

(c) The Hearing Panel may make findings of fact and conclusions of law in connection with the hearing and in conformity with applicable law notwithstanding the failure of the complaint to allege the grounds therefor.

(d) Informal disposition may also be made of any complaint by stipulation, agreed settlement, or consent order provided, however, that a hearing upon any pending complaint set pursuant to Rule 4.0 shall not be cancelled other than by a respondent's acceptance of such proposed informal disposition.

(e) All dispositions of complaints shall be signed by the presiding officer. A copy shall be maintained in the permanent records of the Board.

(f) The official determination of the Hearing Board shall be made by majority vote of the Hearing Panel. The presiding officer shall vote in every matter but shall reserve his vote to the last. Any minority of the Hearing Panel may preserve its opinion in written form submitted at or not less than ten days after the entry of the majority's administrative decision or order.

(g) A copy of the administrative decision or order shall be served upon each party and his counsel in person or by registered or certified mail within five days after entry by the presiding officer.

5.2. Unlawful Practice. In addition to disciplinary actions authorized by W. Va. Code §30-13-21, if the administrative decision or order finds that the respondent is engaging in the practice of engineering in this state without being registered, the Board may request the prosecutor of any county to prosecute the respondent pursuant to W. Va. Code §31-13-23 or the Board may file a complaint seeking an injunction to enforce the provisions of W. Va. Code §31-13-1 et seq. Nothing in these rules shall prohibit the Board from requesting prosecution or seeking an injunction without prior notice and opportunity for hearing to the person who is believed to be in violation.
