A motion to approve the budget, current expenditures, and purchasing card transactions was made by Mr. Robinson, seconded by Mr. Gates. Motion carried.

Ms. Rosier presented the Executive Director's report and addressed all Board questions and comments:

- Ms. Rosier reported a 44.2% pass rate for the April 2019 PE exam cycle.
- Ms. Rosier noted that 40 applications have been received for the upcoming October 2019 PE exam and that she expected more applications in the upcoming week with the application deadline of July 25, 2019.
- The Board reviewed the upcoming presentations, conferences, and meetings and Ms. Rosier reported that 3 Board members and 3 staff members would be in attendance at the NCEES annual meeting in Washington D.C..
- Ms. Rosier discussed the staff's upcoming presentation to the ASCE Eastern Panhandle branch of the WV Section, noting that they have requested the

same presentation the Board provided during EXPO to allow for PEs and Land Surveyors to obtain dual credit that can be used as acceptable continuing education credit in both OH and WV.

The Board reviewed the NCEES PE Exam transition to CBT schedule and noted that this year the Petroleum and Environmental exams have transitioned to CBT for the Fall of 2019.

Ms. Rosier reported that she had submitted the agency-approved Legislative Rule changes for Series 7-1, on June 18, 2019. She also reported that the required 30-day

public comment period ended July 19, 2019 with no comments received. The Board, upon motion by Dr. Nottingham and seconded by Mr. Gates, voted to file the agency approved Legislative Rules as submitted with the WV Secretary of State's Office and the Legislative Rule-Making Committee. The motion passed.

Ms. Rosier also discussed the passage of HB118, regarding use of criminal records as disqualification from authorization to practice, which occurred during the recent WV Legislative Special Session. This bill requires all Chapter 30 Boards to propose rules or amendments to existing rules for legislative approval to comply with the provisions of the bill within the applicable time limit to be considered by the Legislature during its regular session in the year 2020. Given the final filing date had passed, the Boards were granted an extension exclusively for the purpose of incorporating the provisions of those bills. For this reason, the Board reviewed HB118 for the necessary proposed changes to Title 7, Series 1 Legislative Rule updates and directed the Executive Director to file the additional rule revisions with the WV Secretary of State's Office and for public comment prior to the extended deadline of August 30th.

The motion passed unanimously and therefore Mr. Saluja will remain as Board President, Mr. Thomas as Board Vice-President, and Dr. Nottingham as Board Secretary.

Ms. Rosier discussed the proposed 2019 Calendar of Events and requested the Board provide her with any future conflicts.

Upon motion by Mr. Robinson, seconded by Dr. Nottingham, the Board voted to adjourn the meeting at 11:40 am. The next Board meeting will be September 18, 2019, in Charleston. The Board members will be compensated one day per diem plus travel expenses.

General Session Minutes
State Board of Registration for Professional Engineers
January 21, 2020

The West Virginia State Board of Registration for Professional Engineers met at their office in Charleston on Tuesday, January 21, 2020. Those present for all or part of the meeting were:

Bhajan S. Saluja	President
Garth E. Thomas	Vice-President
L.A. Gates	Member
Edward L. Robinson	Member
Lesley L. Rosier-Tabor	Executive Director
Aaron M. Armstrong	Board Investigator
Edward Eagloski	Board Counsel

The meeting was called to order at 9:15am. Dr. Nottingham was absent. The Board meeting minutes for November 13, 2019 were reviewed. A motion to approve the minutes was made by Mr. Robinson, seconded by Mr. Thomas. Motion carried.

The Board budget summaries for November and December 2019 were received and reviewed, and the Board reviewed the PCard transactions for the months of November and December. Ms. Rosier discussed the FY 2020 budget report noting the December 2019 revenue numbers are higher than anticipated due to the COA renewal season having an extremely high percentage of the firms opting to renew rather than go to lapsed or inactive status. Ms. Rosier reported Ms. Coleman, who handles all COA matters for the Board, has followed up with 238 companies that renewed their COA at a lower rate than their previous renewal (or original application designation or COA Questionnaire response). As of the date of the Board meeting, approximately 150 of the 238 firms indicated they inadvertently renewed at a lower fee rate than was warranted. Once the firm size selection errors were corrected, this resulted in an approximate $60K revenue increase. Ms. Rosier informed the Board that there were only 162 firms (less than 5%) remaining to renew their COA during the January grace period.

A motion to approve the budget, current expenditures, and purchasing card transactions was made by Mr. Thomas, seconded by Mr. Robinson. Motion carried.

Ms. Rosier presented the Executive Director's report and addressed all Board questions and comments:

- Ms. Rosier reported 61 applicants sat for the October PE exam and the result was an overall pass rate of 63.3%, which is one of the highest pass rates in recent history. There were 0 absences for the October exam.
- Ms. Rosier informed the Board that the number of pencil and paper PE test takers continues to decrease due to the increased number of computer-based testing (CBT) disciplines being made available by NCEES.

- The Board reviewed the recent and upcoming presentations, conferences, and meeting participation. Ms. Rosier discussed her and Mr. Thomas' planned attendance to the NCEES Education Committee meeting, Mr. Armstrong's planned attendance to the NCEES Law Enforcement Committee meeting, and the upcoming WVUIT student ethics presentation relating to C2017-17 that will take place in February on the Beckley campus. Ms. Rosier informed the Board of the upcoming NCEES Joint Zone meeting in Houston. Board members Thomas, Nottingham, Saluja, and Gates, as well as staff members Rosier and Eagloski, plan to attend.

In addition, Mr. Robinson left the room as to not be part of any discussion or decision making relative to I2020-21.

The Informal Conference scheduled for 10:30am was cancelled at the request of the individual originally scheduling his appearance before the Board. At 11:10am, the Board recessed the Executive Session for the purpose of holding an Informal Conference related to complaint C2020-14. At the conclusion of the Informal Conference, the Board re-entered Executive Session.

The Board recessed the Executive Session for lunch at 12:10pm and resumed the Executive Session at 12:45pm. Mr. Gates made a motion, seconded by Mr. Thomas, to move into general session at 1:10pm. The motion carried, and the Board took the following action:

- Mr. Thomas made a motion, seconded by Mr. Robinson, to dismiss C2019-08. Motion carried.
- Mr. Thomas made a motion, seconded by Mr. Robinson, to dismiss C2020-14. Motion carried.
- Mr. Thomas made a motion, seconded by Mr. Gates, to move I2020-18 to complaint and set said complaint for hearing during the July 2020 meeting, if not settled. Motion carried.
- Mr. Robinson made a motion, seconded by Mr. Gates, to move I2020-16 to complaint and set said complaint for hearing during the July 2020 meeting, if not settled. Motion carried.

The Board reviewed the December 2019 NCEES notice of future changes to NCEES exams and supporting material, noting that the PE Industrial and Systems exam and the PE Fire Protection exam will be moved to Computer Based Testing (CBT) in October 2020.

Ms. Rosier discussed the November 17, 2019 Legislative Rule Making Review Committee (LRMRC) meeting, that occurred immediately following their last Board meeting, and informed the Board that the Board's Modified Legislative Rule filing was submitted immediately following the meeting with the Committee's recommended revisions.

Ms. Rosier reminded the Board members that all Ethics Commission Financial Disclosure Statements (FDS) must be filed prior to February 2, 2020.

The Board reviewed documentation regarding Bluefield State College's Bachelor of Science in Engineering Management degree curriculum, which is not ABET-accredited, and requested the Executive Director continue to follow up and provide an update during the Board's March 2020 meeting.

The Board reviewed the most recent Professional Licensing Report (PLR) and Ms. Rosier encouraged the Board and staff to continue to review the valuable content of the publication.

Ms. Rosier reported that since the March 2020 EXPO was cancelled, she was able to simply transfer the registration and applicable fees to next year's 2021 EXPO.

Ms. Rosier updated the Board concerning the COA renewal season and noted that all 25 COAs that were in default of the WV Worker's Compensation requirements have now come back into compliance.

Ms. Rosier updated the Board concerning the new "Doing Business As" (DBA) waiver form and presented an updated spreadsheet with the status of all DBAs approved since 2010. Ms. Rosier indicated she would be working with staff to contact all previous waiver recipients to obtain updated information and request completion of the new form if they are still interested in maintaining an active waiver.

The Board discussed numerous inquiries about whether or not an adjustment will be made to the number of Professional Development Hours (PDHs) required for license renewal in December 2020 due to COVID-19 restrictions. The Board directed Ms. Rosier to poll the other NCEES member boards regarding their planned courses of action for upcoming renewals and summarize for their review during the July Board meeting.

The Board reviewed the upcoming 2020 Calendar of Events and noted the many changes due to the COVID-19 cancellations and restrictions.

Upon motion by Dr. Nottingham, seconded by Mr. Thomas, the Board voted to adjourn the meeting at 3:45pm. The next Board meeting will be July 21, 2020, in Charleston. The Board members will be compensated one day per diem plus travel expenses.

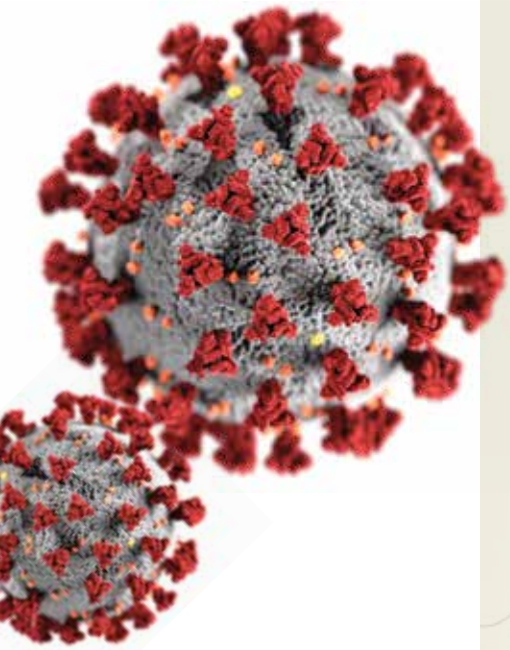
2020...What a year!

LESLEY L. ROSIER-TABOR, PE, EXECUTIVE DIRECTOR

"It is my hope that 2020 led us to become more innovative problem solvers than ever before. It is my hope that 2020 allowed many of you to put less miles on your cars and spend that extra commuting time with your family. It is my hope that you were given the time to put a pause on some parts of life and maybe rethink your business model, or engineer a better future for you, your career, your family. Whatever it may be, I trust that 2020 has challenged our engineering community to rethink, adapt, and re-engineer our future despite the pandemic."



I have to admit that when ringing in the 2020 New Year, I was already feeling some anxiety, but in a good and positive way. Maybe it's better described as excitement. I knew 2020 would be a year of experiences like no other. I was already anticipating it. My husband and I had made a last-minute decision, just a few days after Christmas 2019, to attend a wedding of a dear friend over 8000 miles away. So, with 72 hours before we had to be in the air to make the event, we booked our tickets and packed our bags! I was excited, yet anxious, but all in! This unplanned trip signified a belated honeymoon for us. Super belated, like 16 years belated. The day after our backyard wedding in 2004, he traveled to Florida for a week of consultant training and I attended required procurement training for the Board in central West Virginia.

This spur-of-the-moment trip was a perfect way to bid farewell to 2019. Aboard a 747, about 30,000 feet in the air, we rang in the new year in the most unusual way. Honestly, we would have slept right through it *(which would not be the unusual part for us)* but for the fact the airline staff woke the entire plane to let us know we were crossing the international dateline and celebrating midnight earlier than we anticipated! They were prepared with music, noisemakers, champagne and party hats to help kick off what would turn out to be a year to remember!

On a personal level, 2020 was to be the year to surprise my parents with an over-the-top 50th wedding anniversary trip we had been saving for, 2020 was the year my daughter's all-female robotics team won the state championship and would be traveling to compete in the World Robotics competition, 2020 was our year to say "au revoir" to middle school and "bonjour" to high school for our only child, 2020 was our year for family weddings, 50th and 70th birthday celebrations, anticipated piano recitals, family vacations, summer camps with cousins, and the list goes on.

On a professional level, 2020 started out on a great note as the WV Legislature passed a bill to implement several Board requested changes in WV Engineering Law. As described in the 2019 edition of this Interchange publication, the Board sought and received rule changes to (1) "decouple" the PE exam from engineering experience allowing candidates greater flexibility of when to sit for the PE exam, (2) to lower several fees, including a number of COA renewal, application, and reinstatement fees and (3) implement fee waivers for military families and low-income applicants.

On the national scene, 2020 marked a monumental milestone for the National Council of Examiners for Engineering and Surveying (NCEES) with plans for the centennial celebration of NCEES's first organization meeting. In November 1920, 100 years ago, seven engineering Boards met in Chicago to lay the foundation for our future. These jurisdictions discussed the need for interstate registration, a uniform basis of exam, and how to facilitate engineering licensure to protect health, safety and welfare of the public in a more meaningful way than ever before.

And then BOOM! The middle of March 2020 hit and the world seemed to come to a screeching halt. COVID-19 was here. Life got turned upside down in a matter of days. School was canceled, travel put on hold, large celebratory gatherings forbidden, churches and businesses closed, work schedules altered, NCEES meetings and even FE and PE exams were canceled. The last 8 months of life have been like no other. We had to learn to adapt and do so quickly.

I am a pretty strong person by nature. I am also pretty easy going and try not to let things bother me. But golly ... we have been overloaded with information from government officials, news outlets, social media and more. The data has been conflicting, controversial, political and downright depressing most of the time. And yet we as a human race are resilient and learned to adapt the best way we know how, both in our personal lives and our professional careers. However, with crisis comes recovery and unique opportunity. It is my hope that each and every reader will look back on 2020 as the year when your families became closer and your businesses made positive changes. It is my hope that 2020 was the year when our engineering skills were put to work in a more meaningful way than ever before. It is my hope that 2020 was the year we became more innovative problem solvers than ever imagined. It is my hope that 2020 was the year you put less miles on your car and spent that commuting time with your family. It is my hope that 2020 was the year that allowed you to put a pause on some parts of life and maybe rethink your business model, your career goals, your family needs. Whatever it may be, I trust that 2020 has challenged us all to rethink, adapt, and re-engineer our future.

Board Updates

SO WHAT'S THE SCOOP ON BOARD APPOINTMENTS?

Since our last INTER**change** edition published in late 2019, the composition of the West Virginia State Board of Registration for Professional Engineers has not changed. From time to time, Board staff will receive an inquiry regarding Board members who appear to be serving on expired terms. This, in fact, is the case for two of our current Board members as one can see by reviewing their term expiration dates above. When such an inquiry is received, Board staff direct the individual to WV Engineering Law, and specifically covered in §30-13-4 which states "Each member shall hold office until the expiration of the term for which appointed or until a successor has been duly appointed and has qualified". One of the two Board members currently serving on an expired term is eligible for reappointment, while the other will be required to be replaced due to meeting term limits.

A quick synopsis of key citations regarding Board appointments and terms, composition and qualifications, as well as compensation is covered below:

W.Va. Code §30-13-4
Composition is 5 members appointed by the governor, by and with the consent of the Senate.

The term is 5 years and eligible for reappointment with a maximum of 3 full consecutive terms.

Members hold office until their term expires or until a successor has been appointed and qualified.

Vacancies due to resignation, death or other causes resulting in an unexpired term, if not filled within three months by the governor, may be filled by the Board appointing a member until the governor makes the appointment.

W.Va. Code §30-13-5
Board qualifications include (**1**) being a citizen of the United States, (**2**) a resident of West Virginia, (**3**) engaged in the practice of engineering as a professional engineer for at least 12 years, (**4**) been in responsible charge of engineering projects for at least 5 years, and (**5**) a registered PE in West Virginia.

W.Va. Code §30-13-6
Each member of the board shall receive compensation for time spent, and reimbursement for reasonable and necessary expenses incurred, while engaging in official duties not to exceed the amount paid to members of the Legislature for their interim duties. (Current per diem is $150 per day while carrying out official Board duties.)

W.Va. Code §30-13-7
The governor may remove any Board member for misconduct, incompetency, neglect of duty or for any reason prescribed by law for removal of state officials. Board vacancies will be filled for the remainder of the unexpired term.

W.Va. Code §30-13-8
The Board is required to hold at least one regular meeting each year. Each year the board shall elect the following officers: A president, a vice president and a secretary, who shall serve at the will and pleasure of the board. A quorum of the board shall consist of not less than three professional engineer members. *(During the last 2 decades, the WV PE Board has strived to hold a minimum of 6 bi-monthly meetings a year, with election of officers taking place at their July Board meetings).*

2020-2021 BOARD LEADERSHIP ELECTION RESULTS

During the July 28, 2020 Board meeting, the WV PE Board held officer elections for the upcoming fiscal year, FY2021. Upon unanimous vote, the current officer slate remained unchanged:

- **Mr. Bhajan Saluja, PE**
  Board President
- **Mr. Garth Thomas, PE**
  Board Vice-President
- **Dr. Larry Nottingham, PE**
  Board Secretary

A Unique Perspective on Enforcement

INVESTIGATOR'S CORNER

AARON ARMSTRONG, PE, BOARD INVESTIGATOR

"It is the EI's or PE's responsibility to notify the Board within thirty days of any change in information previously submitted to the Board, such as name change, change of address, change of employer, or similar matter requiring current information."

Moving into a new decade has brought along many, many changes worldwide. Needless to say, 2020 has been a year to remember and I hope all of our registrants and their loved ones have persevered and continue to stay safe and healthy. As for the WV PE Board, we continue to see an increase in the number of registrants, firms, and the number of formal complaints. FY 2020 saw the largest number of formal complaints in the Board's history, with a majority of them being split between the issues of unlicensed practice and not disclosing previous disciplinary actions properly.

As the Executive Director has detailed in this issue, the Board promulgated new Legislative Rules covering a plethora of new topics. I point your attention to W. Va. Code R. §7-1-6.5 entitled Updated Information, which states, "It is the EI's or PE's responsibility to notify the Board within thirty days of any change in information previously submitted to the Board, such as name change, change of address, change of employer, or similar matter requiring current information." This rule was added to fall in line with an existing and similar rule concerning firms which can be found in W. Va. Code R. §7-1-11.9, and both rules conform to NCEES Model Law and Rules.

The new rule is incorporated to emphasize the importance of a registrant keeping his or her Board records updated. It is the responsibility of the registrant and/or firm to notify the Board of changes requiring current information. This can be accomplished simply by logging on to the Board's website: **https://services.wvpebd.org/pe/changeAddress**. Additionally, a registrant and firm must inform the Board of any disciplinary action (taken by any jurisdiction) and any investigation/conviction matter. At a minimum, this information must be reported upon initial licensure and renewal. It is imperative that you always read and understand the online renewals so that the disclosure questions are accurately answered.

A Unique Perspective on Enforcement

As registrants are surely aware, the Board has investigative, enforcement, and disciplinary power as delineated in West Virginia State Code Chapter 30, Article 13. The Board maintains an active enforcement program to enforce this code and to assist in the Board's overall mission to protect the public's health, safety, and welfare. In addition to the disciplinary actions reported on ***page 8*** *of this newsletter, the next few paragraphs will describe a creative, alternative approach to discipline.*

C2017-17 involved an engineer who pled guilty to one felony count of Conspiracy to Launder Monetary Instruments in violation of Title 18, United States Code Sections 1956(a)(1)(B)(i) and 1956(h) related to a pay-to-play scheme within the West Virginia Department of Highways (WVDOH). As a result of the criminal conviction and a detailed investigation involving many state and federal agencies, the Board filed an administrative complaint in accordance with WV State Code 30-13-22.

The Board settled C2017-17 via consent order, issuing disciplinary actions that included a $15,000 civil penalty, $1,500 administrative costs, a 3-year license revocation, and required the respondent to take a Board-approved 30-hour course in professional ethics. The respondent remained in good standing with the Board's order, but requested leniency in the payment of the civil penalties.

The Board found a repentant respondent who obviously wanted to comply with the consent order and remain in good standing so that he may apply for reinstatement of his revoked license. Because there were no health and safety issues involved in this case, the Board agreed to a unique approach and offered the respondent a partial credit in paying the civil penalties. The Board decided to offer the individual the opportunity to participate in Board ethics presentations in lieu of paying the entire civil penalty. This option not only assisted the engineer but also provided a unique educational training tool to bring to West Virginia engineering college and university classrooms.

To reduce the amount of civil penalties, the engineer agreed to participate in five Board-sponsored ethics presentations conducted at each of the five college engineering programs within the state. Each presentation would deduct $1,000 from the civil penalty owed. The engineer presented from talking points approved by the Board, accompanied by a PowerPoint presentation where he highlighted the specifics of his case, the details of his signed consent order as well as the applicable WV Engineering Laws and Rules. He admitted what he did was wrong and explained why, answered questions candidly, and made a lasting impression on the students as well as the professors. He talked about the ramifications of losing his license for 3 years and how the unfortunate events affected his livelihood, family, and personal life.

As it turned out, one university asked that he come back the following semester to provide the presentation again to a different class of students. The engineer readily accepted the invitation even though the agreement only required his participation in five presentations, so the Board offered another $1,000 credit to his civil penalties. He has since said that this endeavor helped him deal mentally with the situation he found himself in and was pleased with the opportunity to participate. In the end, the engineer was required to pay $9,000 of the original $15,000 civil penalty, in addition to traveling to West Virginia University, Marshall University, Fairmont State, Bluefield State and WVU-Tech (2x) to address more than 300 students, faculty, staff and administrators.

Should you ever get an opportunity like this, ask yourself what are you looking for – punitive or corrective action? The Board often looks to the instructive points that can be made through its disciplinary actions. However, to actually utilize teaching in lieu of a civil penalty as the disciplinary action itself turned a serious ethics violation into a positive experience for many in our West Virginia engineering community.

Confession is Good for One's Soul ...
With an Alternative Penance

COUNSEL'S COLUMN

N. EDWARD EAGLOSKI, II, BOARD COUNSEL

The author, N. Edward Eagloski, is the Board's legal counsel. The reader should not take this article as legal advice, but as a background on completing the WV PE renewal application. If the reader requires legal advice or instruction, the reader should seek independent counsel for legal advice.

As we near the end of a very callous year at the hand of the Covid-19 virus, a cultural, life-style changer, donning masks, social distancing, and working from one's home, the time is upon us to prepare for the biennial renewal of our West Virginia PE registrations. For some, it is also a time to take a deep breath, reflect, and prepare to confess. Remember that Confession is Good for One's Soul.

Last year, I prompted the reader to "Know the Rules," of West Virginia Engineering Law as firms proceeded with their renewal of their Certificates of Authorization. However, as Mr. Armstrong notes in his article at page 4, the number of complaints handled by the Board increased over the previous year. About one-third of these complaints dealt with the firms' failure to disclose that the firm was disciplined in another jurisdiction. I believe that had these firms confessed (disclosed) these disciplinary actions, the Board would likely not have taken any additional action. The Board's disciplinary actions were not based on the firms' original acts, but on their failure to report the other boards' disciplinary actions. The failure to disclose this information can be a violation of West Virginia Engineering Law.

So, what lessons can the PE renewal applicant learn from the failing of these firms. First, one should understand that silence (non-reporting) is what got the firms into trouble. The West Virginia PE Board is a member of the National Council of Examiners for Engineering and Surveying (NCEES). The Board reports its disciplinary actions to the NCEES, which they place in a propriety database. This database is used by NCEES member boards to maintain and exchange information on their registrants, including information on those it disciplined. So, with this one-stop NCEES shop, the Board discovered the non-disclosed misconduct by these aforementioned disciplined firms. All because they were silent. Second, these board disciplinary actions have been made public. The Board publishes its closed disciplinary actions on its website. https://wvpebd.org/West-Virginia-Engineering-Law/Enforcement-Disciplinary-Actions. Other boards also publish their actions on their websites and/or in their newsletters.

PE renewal applicants will be asked:

> **Since your last WV PE renewal (or if this is your first WV PE renewal since your initial PE application was submitted) have you been subject to any disciplinary action or any investigation by any local, state, or national regulatory board (including those in WV), or have you been convicted of a felony or a misdemeanor (excluding minor traffic violations)?**

Clearly, a PE renewal applicant should report any investigatory/disciplinary action he/she has experienced since his/her last PE renewal (and for first timers, since the date they submitted their initial PE application). In addition, the PE renewal applicant should disclose, for the same time periods stated above, any felony or misdemeanor (excluding minor traffic violations) conviction. When self-reporting, one should upload a copy of the investigatory/disciplinary action through the Board's website renewal portal.

As a PE renewal applicant, you will also have to disclose other information such as Professional Development Hours (PDHs). You are to have completed thirty (30) hours since your last renewal. All WV PEs renewing for the first time do not have to report any hours unless they wish to bank earned PDHs for their next renewal period. The maximum carryover is 15 PDHs. If a PE renewal applicant has not earned a total of thirty PDHs, including any immediate past carryovers, then they will not be able to renew their license, unless one of the exemptions set forth in the legislative rule W.Va. Code R. §7-1-10.9 applies.

Enough? Well, confession is not yet over. You still have two more questions to answer. If you have an active child support obligation, you have to acknowledge the same. Furthermore, you have to disclose if you are in arrears of six (6) months or more, of that obligation, and whether you are the subject of a child support subpoena or warrant. Again, false reporting is a violation of West Virginia engineering law.

Lastly, you have to identify the firm, your employer under whom you offer or perform engineering services for a project in West Virginia. This is done by referencing the firm / employer / sole proprietorship, its/his/her Certificate of Authorization (COA) and the WV Engineer in Responsible Charge (EIRC). It is possible to renew your WV PE registration without being linked to a COA and an EIRC. However, if you do register without a COA and EIRC, you are to state the reason(s) why you are not associated with a COA and EIRC. If you are not associated with a firm or sole proprietor that holds a COA and has an active WV PE as its EIRC, then you are not to offer or provide engineering services for a West Virginia project.

It is important to "Know the Rules," and what is expected of a PE renewal applicant. You have the freedom to inform the Board of any past transgressions; you are free to contact the Board for assistance; you are free to remain silent; and/or you are free to consult with an attorney of your choice for legal advice at your sole expense.

Alternative Penance

Even though you may "Know the Rules," you may find yourself in a disciplinary proceeding, with a finding that you violated West Virginia Engineering Law. If so, there could be hefty civil penalties and/or administrative costs levied against you. The Board Investigator's article discussed the benefits of a public confession. The penitent shared his failures and by doing so, lifted a burden from his shoulders. The students shared the burden and eased the penitent's pain. The students, hopefully, learned a very valuable life-lesson, and will avoid such pitfalls in their lives. So, a public confession, helped the penitent, both personally and economically, while teaching the young (the future of our profession) a life-lesson that, hopefully, none will repeat. However, if one so fails, it will again be time to confess. Be Well and Safe.

Board Disciplinary Actions

Disclaimer: *Every effort has been made to ensure that the enforcement information is correct; however this information should not be relied upon without verification from the Board office or website. It should be noted that the names of companies and individuals listed may be similar to the names of parties who have not had enforcement actions taken against them. Should you have any specific questions regarding the disciplinary actions noted below, please contact the Board office.*

In meeting its mission of safeguarding life, health and property, and to promote the public welfare, the WV Board actively enforces the statutes and rules that fall within its jurisdiction. Below is a summary of formal complaints that resulted in disciplinary action since the 2019 newsletter. Numerous other investigations were conducted, some resulting in formal complaints which are still pending; some dismissed because the charges were unsubstantiated or considered trivial; and some closed after acceptable corrective action or warning.

Disciplinary actions can be either a result of a formal hearing resulting in a Board Order or settled informally resulting in a Consent Order. These orders are public records. If you are interested in knowing more about the nature of the complaint, you may request a copy pursuant to the State's Freedom of Information Act. All Orders are posted on the Board website.

All civil penalties are deposited in the state's general fund. Administrative costs are made payable to the WV PE Board and are retained by the Board to offset costs incurred in the investigation and complaint resolution efforts. Administrative costs may be waived if the complaint is resolved with a minimum of expense.

NCEES
advancing licensure for engineers and surveyors

The NCEES pages contain an overview of recent news releases received from the National Council of Examiners for Engineering and Surveying (NCEES), as well as NCEES Licensure Exchange articles, concerning items that may be of interest to our engineering community. Some of these articles may have been adapted to fit the space allocated. A CENTENNIAL CELEBRATION

The year of 2020 marks an important point in history. Looking back one century ago, the first meeting of the organization now known as the National Council of Examiners for Engineering and Surveying (NCEES) was a productive one. Seven of the ten engineering boards then in existence gathered in Chicago in November 1920 for a two-day meeting. During this time, they passed motions that allowed for the development of reciprocity between states, they framed a Constitution and Bylaws, and they introduced the subject of developing a model law. That's a lot of work for two days!

At the NCEES meeting in Chicago, on November 8–9, 1920, the following states – Colorado, Florida, Illinois, Iowa, Louisiana, Michigan, and South Dakota – constituted the membership in our association. Other states having laws for the registration of engineers but which were not represented were Idaho, New York, Oregon, Virginia, and Wyoming. During the winter of 1920 and 1921, registration laws were enacted by the legislatures of Arizona, Indiana, Minnesota, North Carolina, New Jersey, Tennessee, and **West Virginia**, bringing the number of states having some sort of a law for the licensing and registration of engineers and/or surveyors up to twenty.

As part of its ongoing centennial celebration, NCEES is featuring important milestones in the organization's history in each 2020 issue of their Licensure Exchange publication. NCEES staff is also designing a 100th anniversary website that will launch this winter to honor the contributions of its members over the years to fulfill its mission. The site will highlight the accomplishments of NCEES over the last century. If you would like to learn more about the development of this organization over the last century, simply visit the NCEES website to read the latest issues of Licensure Exchange, the NCEES publication dedicated to opinions and ideas regarding the licensure of engineers and surveyors.

NCEES HEADQUARTERS RELOCATED TO GREENVILLE, SOUTH CAROLINA

The National Council of Examiners for Engineering and Surveying (NCEES) has relocated its headquarters from Clemson, South Carolina, to 200 Verdae Boulevard, Greenville, South Carolina. The organization's headquarters move coincides with its 100th anniversary.

"NCEES is entering its second century of advancing licensure for engineers and surveyors, and this move will help us better fulfill our mission to safeguard the health, safety, and welfare of the public," explained NCEES Chief Executive Officer David Cox. "The new headquarters will provide a better position for the growth of the organization and allow NCEES to better support its member boards and the professions of engineering and surveying."

NCEES is a national nonprofit organization made up of the engineering and surveying licensing boards from across the United States and its territories. It provides a range of services to support licensure and public protection, including developing the exams used to license professional engineers and surveyors.

The 70,600-square-foot building offers more space and flexibility to expand NCEES services—including Exam Development, Records, Credentials Evaluations, and Client Services—that, in turn, help its member boards carry out their missions.

NCEES brings hundreds of professional engineers and surveyors from across the country each year to its headquarters to assist with exam development. The move is expected to have an annual economic impact of $1 million for the Greenville tourism and hospitality industry, including local hotels, catering, restaurants, and transportation.

NEW EXAM SPECIFICATIONS & STANDARDS

Details regarding the following new exam specifications and standards are posted on the NCEES website. If you have any questions about these changes or require additional information, please contact NCEES. The 2020-2021 exam changes include:

FALL 2020 EXAM CHANGES AND BEYOND

Due to the unique and unexpected COVID-19 pandemic, NCEES cancelled the April 2020 PE pencil-and-paper administration which impacted thousands of examinees. Examinees who were registered to take an exam during this administration received a full refund of fees paid to NCEES. Affected examinees were notified by email and they were required to re-register if they were interested in taking the exam during the October 2020 administration. The October 2020 PE administration was a two-day event with some exams offered on Thursday, October 22 and some on Friday, October 23. To help ensure the health, safety and welfare of examinees and proctoring teams, NCEES implemented a number of measures to operate in compliance with capacity and social distancing requirements. In most cases, this reduced the number of examinees accommodated at an exam site. Please be aware that every effort will be made to accommodate all registered examinees in a manner that protects the health and safety of everyone involved.

A summary of additional recent and upcoming PE Exam changes is noted below:

- PE Environmental - Transitioned to Computer-Based Testing format (CBT) and now available year-round.

Exams Continue the Transition to Computer-Based Testing

NCEES began the process of transitioning exams to computer-based testing (CBT) in 2011. CBT offers many benefits, such as enhanced exam content security and uniformity in testing conditions. For most exams, it provides greater scheduling flexibility. All exams are offered at approved Pearson VUE test centers (visit ncees.org/exams/test-center-locations to view NCEES-approved test centers near you). For more information on registering for a CBT exam, visit the NCEES website to download the Examinee Guide and watch a video series about the exam-day experience.

Consulting Engineering and COVID-19

CONTRIBUTORS: JAY CANTLEY, PE, PS AND GARY KEATON, PE, BOTH OF L.A. GATES ENGINEERING

Since mid-March 2020, everyone's life has been a bit topsy-turvy due to the pandemic. It is no different for those in the Consulting Engineering industry as they have adjusted to working from home, video conferences and non-stop phone calls, emails and texts. There have been both unexpected benefits from this season but also many problems to overcome. Here is a combination of responses provided from local engineering consultants when quizzed about their COVID experiences.

POSITIVE EXPERIENCES

We are hopeful that technical knowledge gained from teleworking will pay dividends down the road. Adapting by utilizing programs and apps like Zoom and Teams have improved communication that make it easier to share ideas and to brainstorm through problems. Improving computer systems, networking capabilities, and alternatives ways to communicate to support teleworking should provide added long-term benefits. While most of these improvements were readily available prior to the pandemic, but due to necessity, they are now being utilized.

Working from home is now considered a more viable, flexible work alternative than in the past. For many years, many consulting firms were opposed to the notion of having a high number of employees teleworking fearing primarily a loss of productivity, continuity and effective communication. The pandemic has taught us otherwise and this added flexibility can now be an added benefit to some employees who have limitations being away from home and the traditional work environment and 9 to 5 work schedule. This more flexible work environment could open up the doors to a new pool of resourceful employees who would not have been considered prior to the pandemic.

Working from home eliminates commuting and allows individuals to work more hours in the same amount of time that they would have typically spent away from home. For many teleworking employees, production has actually increased as they seem to work more hours since their computers are just a few feet away from their living room.

The value of collaboration and comradery among co-workers is now better understood and was always taken for granted prior to the shutdowns. Nothing replaces face-to-face meetings and even casual conversation with your team of coworkers. The human connection with colleagues is what most miss about daily office life.

NEGATIVE TAKEAWAYS

Communication with employees and clients requires much more of a deliberate approach. Prior to the pandemic, a quick stroll through the office and brief conversations with each employee give the project manager reassurance of where all employees stand on their tasks and the overall project status. Now, this is a much more time-consuming effort as you call, text or email each employee on their status. The teleworking environment, without one central office, lends itself to losing track of an individual employee's status. The cliché "out of sight, out of mind" has never been more pertinent.

A small percentage of employees lack the discipline to stay on task while working from home due to the multitude of distractions at home or possibly from a basic lack of maturity. Employees with small children and children that no longer can attend school seem to especially have a more difficult time staying on task.

With everyone telecommuting, training new employees will be a particularly difficult challenge.

Video Conference meetings have proved very inefficient if the number of attendees is greater than six. Large video meetings where each individual needs to share input is a real challenge that is a constant barrage of awkward pauses and individuals talking over one another.

By far the most significant pitfall from the pandemic is the overall economy slow-down. Much of the engineering consulting impact may still be playing out as consultants finish up work that was already under contract when the slow down started. The ripple effects are less manufacturing and therefore less energy consumption. A major part of our clientele are energy producers and transporters so if our clients' products and services are not in high demand, they need less engineering expertise. In addition, as the pandemic continues, state and federal agencies will experience dwindling revenue and the private consultants will eventually suffer devastating impacts.

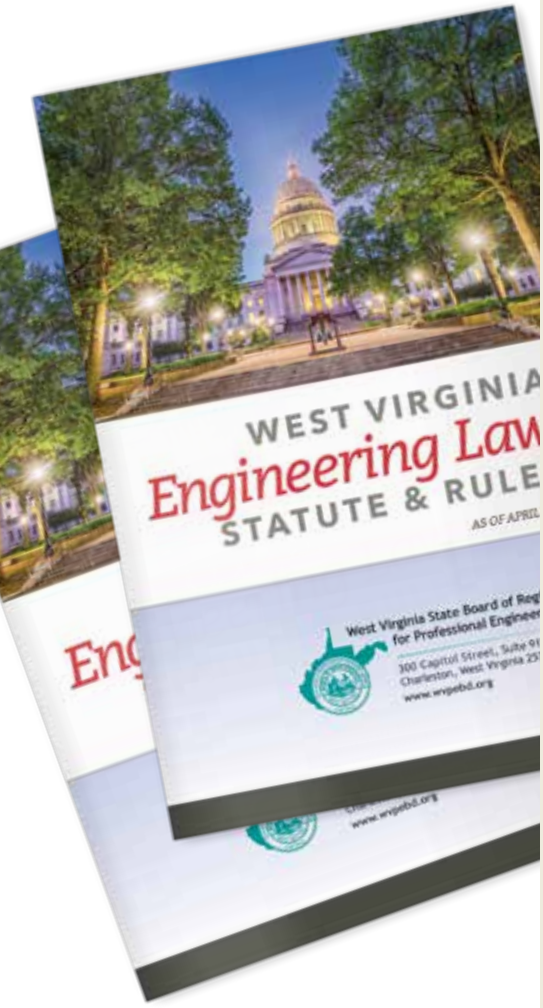
CHANGES IN MARKETING, OUTREACH AND NETWORKING

As the economy has slowed down due to COVID-19, we have had to change the way we do marketing. With consultants and their clients strictly following CDC guidelines, you are no longer able to meet face-to-face. Conferences and trade shows have all cancelled. Outreach and promotion efforts have been hampered, but have led consultants to overcome with creative use of Skype, Zoom, and Teams meetings. Traditional conferences, networking and continuing education opportunities are successfully moving to the virtual platform. Out-of-state travel to events will likely become less common going forward. Employees are multi-tasking and able to attend meetings or seminars in front of their computer screens while continuing to work and answer emails. What would have traditionally required hours upon hours of vehicular travel across the state or perhaps air travel across the country is being replaced with an email containing a conference log in ID and password, ultimately saving employers hefty costs for travel, meals, lodging and more.

SUMMARY

We are now 8 months in and the effects of altered schedules and work environments depend on the employer and their employee's individual situation. For some, it's been a nice change of pace. Being home means commuting time is now family time. Employers and work schedules are more flexible. Multi-tasking has taken on a whole new meaning. Many employees have adapted quite well to this arrangement. For others, it's a major challenge if they have no space for their home office or no childcare facilities available in their area. From an employer's perspective, the key to working from home is being able to trust your employees to stay on track and get the job done.

PE and COA Renewal Information



UPCOMING 2021-22 WV PE RENEWAL REMINDER

It's time to renew your personal WV Professional Engineer's registration for the 2021-2022 biennial timeframe. All individuals in possession of an active WV PE license will be required to be renew their PE by December 31, 2020. As outlined in West Virginia Engineering Law, our agency is required to send notification at least 30 days prior to the expiration of a license, meaning no later than December 1st of odd numbered years for COAs and December 1st of even numbered years for Active PEs and Retired PEs. Renewal notifications are typically mailed in mid-late November and the WV State Treasurer's Office activates our online license renewal system at the same time. If you have an active WV PE license, renewal instructions were enclosed with this newsletter and a live PE renewal link is now posted on our website as well. A number of courtesy email notifications will also be sent to the PE's record email address(es) throughout the renewal season until successfully renewed. Upon successful renewal, we will no longer forward renewal reminders and one will be able to print a copy of their full renewal submission, their personalized PE wallet card with expiration date, and a payment receipt. An email confirmation will also arrive within seconds from the West Virginia State Treasurer's office indicating their online credit card payment was processed via the e-Government payment system.

If you have any questions regarding the PE renewal process, please do not hesitate to contact our office by emailing info@wvpebd.org or call 304-558-3554.

CONTINUING EDUCATION REQUIREMENTS

As of the September 22, 2020 meeting of the West Virginia State Board of Registration for Professional Engineers, the Board took no action regarding changing of continuing education requirements for the upcoming December PE renewals. The biennial renewal requirement for continuing professional competency to renew your WV PE license remains at thirty (30) professional development hours and will be required for renewal in December 2020. A few additional reminders are being provided below in an effort to assist those with renewal and/or continuing education requirement:

» Renewal notifications will be mailed in late November (the cover letter to this newsletter mailing shall serve as the official PE renewal notification) and the PE renewal submission will be due by midnight on December 31, 2020. If additional time is needed to complete the renewal or meet requirements, WV Engineering Law provides a 30-day grace period through the end of January 2021. (Please note late fees do apply during the grace period.)

» The WV PE renewal is a biennial renewal and you may claim any hours earned since your last renewal date. If you are unsure of the date of your last renewal, simply visit our website License Verification page https://services.wvpebd.org/verification/ and type in your last name and then hit search. If you click on your name, the hyperlink will display a table that contains the public information regarding your last renewal which includes your previous renewal date.

» Do not forget you may have carryover hours from your last renewal submission. If you are unsure of your carryover hours from 2018, simply visit our website License Verification page https://services.wvpebd.org/verification/ and type in your last name and then hit search. If you click on your name, the hyperlink will display a table that contains the public information regarding your last renewal which includes your awarded carryover hours. Your carryover hours also appear on the cover letter to this newsletter mailing.

» We have received a number of questions on whether or not the WV PE Board accepts online continuing education and the answer is "Yes, absolutely". Often the next question is whether there is a limit on the number of on-line hours earned and that answer is "No". We have learned there are many professional societies, local / state agencies and online providers

offering free or very reduced rates for many courses given the COVID situation and remote work environments. We also understand many employers have encouraged their employees to obtain such hours during slower work periods and/or while working from home.

» WV Engineering Law, and specifically Legislative Rule 7-1-10.9, provides for several exemptions from professional development requirements, including:

(a) A new registrant (by exam or comity) is exempt for their first renewal period

(b) A registrant on active duty for at least one hundred twenty (120) consecutive days in a calendar year is exempt from obtaining PDHs during that year.

(c) A registrant experiencing physical disability, illness, or other extenuating circumstances may be exempt subject to review and approval by the Board; the registrant shall furnish supporting documentation to the Board.

(d) Those with Retired PE status are exempt from the required professional development hours.

As of 2016, the WV PE Board no longer requires completion of a detailed continuing education form at the time of online renewal. You will simply provide the total number of hours earned since your 2018 renewal date (which will be provided in a pre-populated, locked field) through your December 2020 renewal date. Only if one is audited, will you be required to provide the level of details that used to be required on the continuing education renewal form (date of activity, location, name of presenter, title of seminar, sponsoring organization, # of hours being claimed, etc.) and completion certificates.

In closing, please know the West Virginia PE Board does not pre-approve continuing education courses nor do we pre-qualify companies to offer continuing education seminars. The current WV policy has been to allow the PE to deem whether or not certain activities serve as valid professional development for their current position. The philosophy is that we license thousands of Professional Engineers and all have diverse backgrounds and needs that must be met. Since no pre-approval process is offered in WV, the Board will have final authority with respect to approval of credits when reviewing annual renewals. Should one be audited, it will be the responsibility of the engineer to defend their educational choice(s) and produce records of attendance and completion of the claimed credit used for professional development activities.

STATUS SUMMARY FOR RECENT 2020-21 WV COA RENEWAL

» Active COAs receiving COA Renewal Notification in November 2019 3357

» Non-Responding COAs resulting in Lapsed Status after COA Renewal Season in February 2020 110

To view or download a complete roster of the Active PE licenses, Firm Certificates of Authorization (COAs), and Retired PEs, simply visit our website License/COA Verification page at https://services.wvpebd.org/verification/. There you will find access to a real-time, online verification search tool that shows if a particular individual and/or firm is authorized to practice or offer engineering services in West Virginia.

Please be reminded that all licensees should report any updates such as disciplinary actions, a change in address, employer or email to the Board within 30 days. W.Va. Code R. §7-1-6.5 entitled Updated Information states, "It is the EI's or PE's responsibility to notify the Board within thirty days of any change in information previously submitted to the Board, such as name change, change of address, change of employer, or similar matter requiring current information." All address and employer updates submitted online, as well as new license activations or licensee status changes, will appear immediately unless an action is required by staff before posting. Should you have any questions about the status of a WV PE or WV COA, simply contact the Board office for assistance.

Engineering Addendum:

Are the services of a registered professional engineer required for single family residential structures?

Single family residences do not normally require the design services of professional (structural) engineers except for some large custom designed homes where the owner requests the services or the spans are too large for typical code-specified framing to work. Generally the only times a structural engineer will become involved in a single family residence are as follows:

- Where there is a problem with the foundation or framing of the house, such as storm damage, soil movements, or unusual deflections and damages in the architectural finishes.
- When an existing house is being sold and the mortgage company is looking for someone to identify and describe the various structural movements and damages that have occurred in the structure, as well as provide some recommendations of what should be done to eliminate the problems.
- When the design of the house involves a structural system which is outside of the typical structural framing and foundation systems specified in the residential building code or when the building code requires engineering services.

Introduction

The licensing of Professional Engineers began in the State of Wyoming in 1907. The West Virginia State Board of Registration for Professional Engineers (WV PE Board) was formed to oversee the licensing of engineers in West Virginia in 1921. Article 13 – the part of the professional licensing chapter of the code (Chapter 30) that regulates Professional Engineers – was first enacted in 1992. The statutes in W.Va. Code 30-13-1 et seq. and Series 7 of the Code of State Rules are the primary components of what is referred to as "West Virginia Engineering Law."

Laws requiring professional licensure and regulating the practice of that profession are enacted under the police powers of the State. The primary purpose is to protect the public. Through its statutes and rules, the WV PE Board works to safeguard life, health and property and promote the public welfare. This is done, in part, by requiring professional engineers to meet specified minimum standards, follow certain procedures, and practice in accordance with their rules of professional responsibility.

Those licensure standards, and the procedures and rules that govern those who have been granted the privilege to practice engineering in West Virginia, can be found in these pages. It is hoped that the information provided here helps you understand the substantive and procedural aspects of West Virginia Engineering Law. The staff and its counsel are always available in the event you need more information or have questions regarding the Board's implementation and application of West Virginia Engineering Law.

The Board and staff work diligently to carry out our responsibilities to the public, the State of West Virginia, and to the professional engineers licensed in West Virginia. The more that these entities know, understand and comply with West Virginia Engineering Law, the easier our job will be, and we can all work together to ensure that West Virginia's professional engineers are providing good service to the State and its people.

CHANGES TO STATUTE OR RULES AFTER 2020:

Please be advised this booklet contains only legislative action prior to April 2020. It is unpredictable when the West Virginia Legislature may consider and possibly pass legislation amending Article 13, and there is always the possibility that the Board may choose to seek statutory and/or or legislative rule changes through the legislative process in future years. The Board, on its website, will attempt to keep the engineering community and citizens of West Virginia apprised of legislative developments and will always post legislation amending Article 13 that is enacted into law. In addition, any proposed legislative rule filing will be posted for comment on the Board's website at ***www.wvpebd.org*** *and on the WV Secretary of State's website at* ***www.sos.wv.gov.***

The Legislature hereby determines the need to regulate the practice of engineering; to provide for the registration of qualified persons as professional engineers and the certification of engineer interns; to define the terms "engineer," "professional engineer," "engineer intern" and "practice of engineering"; to create a state board of registration for professional engineers and provide for the appointment and compensation of its members; to fix the term of members of the board and define its powers and duties; to set forth the minimum qualifications and other requirements for registration as an engineer and certification as an engineer intern; to establish registration fees with expiration and renewal requirements; to impose certain duties upon the state and political subdivisions thereof in connection with public works; and to provide for the enforcement of this article and penalties for its violation.

§30-13-2. General provisions.

In order to safeguard life, health and property and to promote the public welfare, the practice of engineering in this state is hereby declared to be subject to regulation in the public interest. It is unlawful for any person to practice or to offer to practice engineering in this state, as defined in the provisions of this article, or to use in connection with his or her name or otherwise assume or advertise any title or description tending to convey the impression that he or she is a registered or licensed engineer, unless the person has been duly registered or exempted under the provisions of this article. Engineering is hereby declared a learned profession and its practitioners are held accountable to the state and the public by professional standards in keeping with the ethics and practice of other learned professions in this state. The practice of engineering is a privilege granted by the state.

§30-13-3. Definitions.

Unless the context in which used clearly requires a different meaning as used in this article:

(a) **"Board"** means the West Virginia state board of registration for professional engineers as provided for in this article.

(b) **"Consulting engineer"** means a professional engineer whose principal occupation is the independent practice of engineering; whose livelihood is obtained by offering engineering services to the public; who serves clients as an independent fiduciary; who is devoid of public, commercial and product affiliation that might tend to infer a conflict of interest; and who is cognizant of their public and legal responsibilities and is capable of discharging them.

(c) **"Engineer"** means a person who is qualified to practice engineering by reason of special knowledge and use of the mathematical, physical and engineering sciences and the principles and methods of engineering analysis and design, acquired by engineering education and engineering experience.

(d) **"Engineer intern"** means a person who has qualified for, taken and has passed an examination in the fundamental engineering subjects, as provided in this article.

(e) **"Practice of engineering"** means any service or creative work, the adequate performance of which requires engineering education, training and experience in the application of special knowledge of the mathematical, physical and engineering sciences to such services or creative work as consultation, investigation, evaluation, planning and design of engineering works and systems; planning the use of land and water; teaching of advanced engineering subjects, engineering surveys and studies; and the review of construction for the purpose of assuring compliance with drawings and specifications any of which embraces such services or work, either public or private, in connection with any utilities, structures, buildings, machines, equipment, processes, work systems, projects and industrial or consumer products or equipment of a mechanical, electrical, hydraulic, pneumatic or thermal nature, insofar as they involve safeguarding life, health or property, and including such other professional services as may be necessary to the planning, progress and completion of any engineering services. Engineering surveys include all survey activities required to support the sound conception, planning, design, construction, maintenance and operation of engineered projects.

Any person who practices any branch of the profession of engineering or who, by verbal claim, sign, advertisement, letterhead, card or in any other way represents himself or herself to be a professional engineer, or by using another title implies that he or she is a professional engineer or that he or she is registered under this article or who holds himself or herself out as able to perform, or who performs any engineering service or work or any other service designated by the practitioner which is recognized as engineering, is considered to practice or offer to practice engineering within the meaning and intent of this article.

(f) **"Professional engineer"** means a person who has been duly registered or licensed as a professional engineer by the board. The board may designate a professional engineer, on the basis of education, experience and examination, as being licensed in a specific discipline or branch of engineering signifying the area in which the engineer has demonstrated competence.

ADMINISTRATIVE HEARING PROCEDURES

§7-2-1. General.

1.1. Scope. — This rule specifies the procedure for Resolution of complaints relating to the practice of engineering in this State pursuant to the authority granted to the West Virginia State Board of Registration for Professional Engineers by W. Va. Code §30-13-1 et seq.

1.2. Authority. — W. Va. Code §30-13-1 et seq. and §30-1-1 et seq.

1.3. Filing Date. — June 22, 2004.

1.4. Effective Date. — July 23, 2004.

§7-2-2. Complaints.

2.1. Submission.

(a) Form. The form of complaints shall be determined by the Board. All complaints shall be in writing and verified by the complainant before a notary public.

(b) Who may submit. A complaint may be submitted by any natural person or legal entity, any registered engineer, or any firm holding a certificate of authorization. A complaint may be submitted by the Board, a member of the Board staff, with or without direction from the Board, or a member of the Board. Charges may be based upon information received solely through investigative activities undertaken by the Board.

2.2. Filing.

(a) The applicable statute provides for disposition of a complaint if trivial, unfounded, or settled informally. Unless in the opinion of at least one member of the Board the alleged situation which is the subject of a

complaint presents an imminent danger to health or safety, a complaint will be deemed received and filed only upon the majority vote of the Board members present and meeting in general session. Until such action, the complaint will be on the agenda for each meeting until resolved informally or filed. During the period before a complaint is deemed filed, the Board may take appropriate action, upon motion and consistent with the applicable statutes, to investigate and settle the complaint informally.

(b) A complaint will not be considered by the Board until an original is delivered to and logged in and numbered by the Board Administrator at Charleston during normal business hours. Facsimile and other electronic transmission of complaints will be accepted for filing, provided originals are delivered to the Board Administrator within fourteen (14) days thereafter.

2.3. Notice to Respondent. The Board Administrator shall give notice of the filing of a complaint to any and all respondents named in the complaint. Such notice shall be by certified mail, return receipt requested, to the respondent at his, her, or its last known address or in a manner consistent with the rules for service of process under the West Virginia Rules of Civil Procedure. A return of service shall be completed by the person effecting service and filed with the Board.

2.4. Response to Complaints. The respondent may file, within thirty days after service of the complaint, a responsive pleading which shall state with particularity every defense in law or fact to the allegations in the complaint. Every responsive pleading shall be verified by the respondent.

2.5. Failure to File Response. The failure to file a response to the complaint shall be deemed an admission of the factual allegations contained therein. The failure to file a response shall not be grounds for delaying hearing or other action upon the complaint.

2.6. More Definite Statement. The Board or a respondent may request a clarification or more definite statement of the allegations in the complaint. A respondent's request for a more definite statement shall be filed with the Board not less than fifteen days before the hearing date. The Board's request may be issued to a complainant at any time, and the complainant shall respond within seven days of service of the request by the Board. Failure of a complainant to respond timely to such request may be grounds for dismissal of the complaint.

§7-2-3. Hearing Panel.

3.1. Hearing Panel.

(a) Complaints regarding persons licensed by the Board and complaints regarding unlawful practice of engineering in this State or a request for hearing regarding licensure or issuance of a certificate of authorization shall be heard and decided by the Board as a whole sitting as a Hearing Panel, except that any member of the Board who has a conflict of interest with regard to a particular complaint may decline to participate

in such proceedings. Recusal is mandatory in any proceeding in which a judge, similarly situated, would be required to exercise recusal. The filing of a complaint by a Board member will not automatically be grounds for recusal. Recusal shall not prevent a Board member from testifying as a witness.

(b) If recusals result in there being less than a quorum, the remaining unrecused members of the Board shall appoint a registered professional engineer who is not a member of the Board for each recused member to serve solely for the purposes of hearing and deciding such complaint.

(c) The Hearing Panel shall conduct hearings, make findings of fact and conclusions of law, and issue administrative decisions and orders to enforce the provisions of W. Va. Code §30-13-1 et seq.

3.2. Location of Hearing Proceedings. Unless otherwise ordered by a majority vote of the Board, all hearings shall be heard at Charleston.

3.3. Quorum. A quorum shall consist of not less than three members of the Hearing Panel.

3.4. Presiding at Hearings.

(a) The President of the Board shall serve as the presiding officer at hearings. In the event of the President's recusal, the Hearing Panel shall elect a presiding officer from among themselves who will preside for hearings on that complaint.

(b) The presiding officer shall have the power to (1) administer oaths and affirmations, (2) rule upon offers of proof and receive relevant evidence, (3) regulate the course of the hearing, (4) hold conferences for the settlement or simplification of the issues by consent of the parties, and (5) dispose of procedural requests or similar matters.

3.5. Privilege and Immunity. All information provided, including documents and testimony given with respect to any complaint, investigation or proceeding under these rules, shall be privileged in any action for defamation or the like. All members of the Board, its counsel, and their employees shall be absolutely immune from civil suit in the same manner as members of the judiciary in the State for any conduct in the course of their official duties.

§7-2-4. Procedural Rules for Hearings.

4.1. Notice of Hearings.

(a) Within sixty (60) days of filing complaint, the presiding officer shall set a hearing date and time. Notice of the hearing date and time shall be served on respondent and counsel for respondent, if any, by first class mail addressed to the last known mailing address of such person. Such notices shall be mailed not less than thirty (30) days before the hearing date. All complaints, unless dismissed by the Board as unfounded, trivial or settled informally, shall be heard within six months after the date each complaint was received and filed.

(b) Hearings may be rescheduled by the presiding officer and, once begun, continued from time to time, for cause shown as the interests of justice may require.

4.2. Prehearing Matters. The presiding officer, with or without the request of a party, may schedule a prehearing conference to narrow the issues to be heard, to estimate the time which will be required for the hearing, rule upon prehearing motions, and, when appropriate, negotiate informal disposition of the complaint.

4.3. Hearings Generally.

(a) Conduct and Order of Hearing.

(1) Upon calling on for hearing any complaint, the presiding officer may cause the complaint to be read and shall offer the respondent the opportunity to reply. The Hearing Panel may receive evidence from its investigator or staff. Respondent, directly or by counsel, may present evidence in defense against the complaint. All testimony given shall be subject to cross-examination by the opposing party. The Board may receive rebuttal evidence after respondent's presentation. Any member of the Hearing Panel may inquire to any witness at any time.

(2) After the receipt of all evidence, respondent and Board staff, directly or by counsel, may be allowed to make closing arguments.

(3) If the respondent is not a natural person, the respondent shall be represented by counsel. The Board or its staff may be represented by counsel.

(4) Failure of the respondent to appear, without cause, shall not result in delay or postponement of the hearing.

(b) The Record. The record of a hearing shall consist of the testimony and documentary and physical evidence admitted into evidence by the Hearing Panel, all judicially cognizable facts so noticed, and the administrative decision or order ruling upon the complaint. All hearing proceedings on the record shall be recorded by stenographic means. Any party may obtain a transcript of the proceedings at the party's expense.

(c) Testimony. Witnesses shall testify under oath or affirmation.

(d) Evidence.

(1) The West Virginia Rules of Evidence shall apply. Irrelevant, immaterial, or unduly repetitious evidence shall be excluded. When necessary to ascertain facts not reasonably susceptible of proof under those rules, evidence not admissible thereunder may be admitted, except where precluded by statute, if it is of a type commonly relied upon by reasonably prudent persons in the conduct of their affairs. The Hearing Panel shall be bound by the rules of privilege recognized by law. Objections to evidentiary offers and the ruling thereupon shall be noted in the record. Any party to any such hearing may vouch the record as to any excluded testimony or other evidence.

(2) Only the evidence admitted into the record and judicially cognizable facts so noticed shall be considered in the determination of the complaint.

(3) Depositions may be taken and read or otherwise received as evidence in accordance with Rules 30 and 32 of the West Virginia Rules of Civil Procedure.

(e) **Conformance.** Upon motion of any member of the Hearing Panel or any party assigning error or omission in any part of any transcript, the presiding officer shall settle all differences arising as to whether such transcript truly discloses what occurred at the hearing and shall direct that the transcript be corrected as appropriate so as to make it conform to the truth.

(f) **Deliberations.** Hearing Panels may deliberate and issue decisions in person, by telephone conference, or by written correspondence, including electronic communications.

(g) **Open Meetings and Executive Sessions.** Pursuant to W.Va. Code §6-9A-1, the Board may by majority vote hold hearings under these rules in executive session unless the respondent requests an open meeting. In any event, the vote upon the final decision of the Hearing Panel shall be in open session.

4.4. **Standard of Proof.** To impose any sanction or penalty, the findings of the Hearing Panel in support thereof must be proved by a preponderance of the evidence.

4.5. **Subpoena and Contempt Power.** The Hearing Panel shall have power to issue subpoenas or any other lawful process through the presiding officer at the request of any party. Subpoenas may be issued for attendance of witnesses or the production of documentary evidence. Subpoenas and other process may be served in accordance with the West Virginia Rules of Civil Procedure. All witnesses shall be entitled to such witness fees and expenses as in any civil proceeding in this State. The Hearing Panel may apply to any circuit court for an order requiring any person to comply with the presiding officer's directions in maintaining order at a hearing or to compel compliance with subpoenas.

4.6. **Criminal Convictions.**

(a) An engineer who has been convicted of a crime that reflects adversely on the engineer's honesty, trustworthiness or fitness as an engineer, or of any felony, shall, within thirty days of entry of the order or judgment of conviction, forward a copy of the order or judgment to the Board's Administrator. A plea or verdict of guilty or a conviction after a plea of nolo contendere shall be deemed to be a conviction within the meaning of this rule. Any other person may file a copy of the order or judgment with the Board.

(b) Upon receipt of the order or judgment, which shall be conclusive evidence of the guilt of the crime or crimes of which the engineer has been convicted, the Board Administrator shall treat the order or judgment as a complaint for misconduct and violation of professional responsibility.

(c) A respondent may present evidence and argument in support of mitigation based on, but not limited to, the nature of respondent's misconduct, surrounding facts and circumstances, previous ethical violations, the willfulness of the conduct, and the adequacy of respondent's previous opportunity to present evidence.

4.7. Reciprocal Discipline.

(a) A final adjudication in another jurisdiction, whether state or federal, of misconduct constituting grounds for discipline of a registered professional engineer in that jurisdiction or a voluntary surrender of a license to practice engineering in connection with a disciplinary proceeding in that jurisdiction shall, for the purposes of proceedings under these rules, conclusively establish such conduct.

(b) A registrant in this State against whom any form of public discipline has been imposed by the authorities of another jurisdiction, whether state or federal, or who voluntarily surrenders his or an aggravating factor in any subsequent disciplinary proceeding. Any other person may notify the Board of such action by submitting a complaint.

(c) If the registrant intends to challenge the validity of the disciplinary order entered in the foreign jurisdiction or the voluntary surrender of his or her license to practice engineering in connection with a disciplinary proceeding, the registrant must request a formal hearing and file with the Board a full copy of the record of the disciplinary proceedings which resulted in imposition of the disciplinary order or the voluntary surrender of a license to practice engineering.

§7-2-5. Disposition of Complaints.

5.1. Administrative Decisions and Orders.

(a) Any party may submit proposed findings of fact and conclusions of law as permitted in the discretion of the presiding officer.

(b) After a hearing upon a complaint is completed, including an instance in which the respondent defaults, the Hearing Panel may make findings of fact and conclusions of law and shall issue the appropriate administrative decision or order.

(c) The Hearing Panel may make findings of fact and conclusions of law in connection with the hearing and in conformity with applicable law notwithstanding the failure of the complaint to allege the grounds therefor.

(d) Informal disposition may also be made of any complaint by stipulation, agreed settlement, or consent order provided, however, that a hearing upon any pending complaint set pursuant to Rule 4.0 shall not be cancelled other than by a respondent's acceptance of such proposed informal disposition.

(e) All dispositions of complaints shall be signed by the presiding officer. A copy shall be maintained in the permanent records of the Board.

(f) The official determination of the Hearing Board shall be made by majority vote of the Hearing Panel. The presiding officer shall vote in every matter but shall reserve his vote to the last. Any minority of the Hearing Panel may preserve its opinion in written form submitted at or not less than ten days after the entry of the majority's administrative decision or order.

(g) A copy of the administrative decision or order shall be served upon each party and his counsel in person or by registered or certified mail within five days after entry by the presiding officer.

5.2. Unlawful Practice. In addition to disciplinary actions authorized by W. Va. Code §30-13-21, if the administrative decision or order finds that the respondent is engaging in the practice of engineering in this state without being registered, the Board may request the prosecutor of any county to prosecute the respondent pursuant to W. Va. Code §31-13-23 or the Board may file a complaint seeking an injunction to enforce the provisions of W. Va. Code §31-13-1 et seq. Nothing in these rules shall prohibit the Board from requesting prosecution or seeking an injunction without prior notice and opportunity for hearing to the person who is believed to be in violation.
