

**BEFORE THE WEST VIRGINIA STATE BOARD OF
REGISTRATION FOR PROFESSIONAL ENGINEERS**

IN RE: FREDERICK GRANTHAM

C2025-05

CONSENT ORDER

Comes now the West Virginia State Board of Registration for Professional Engineers (hereinafter “the Board”) by Garth E. Thomas, Jr., P.E., its President, for the purpose of agreeing to resolve a Board initiated Complaint against Frederick W. Grantham (“Respondent”). As reflected in this document, the parties have reached an agreement concerning the proper disposition of this matter, and the Board, upon approval of such agreement, does hereby **FIND** the following:

1. The matters set forth herein are within the jurisdiction of the Board, which is the state entity with the power and duty to regulate the practice of engineering in the State of West Virginia.
2. Respondent is a licensed professional engineer in California. His original licensure date is January 2014, and his registration number is No. 82413.
3. Respondent is a licensed professional engineer in West Virginia. His original licensure date is September 12, 2024, and his registration number is No. 026878.
4. Every West Virginia Registered Professional Engineer (hereinafter “Registrant”) is required to obtain a seal reflecting Registrant’s name and license number.
5. A Registrant is required to place one’s seal, signature and date on all final/record specifications, reports, drawings, plans, design information and calculations whenever presented to a client or any public or governmental agency.

6. In November 2024, the Board became aware that Respondent, in August 2024 and September 2024, presented engineered drawings and calculations for a pedestrian bridge at the West Virginia Division of Arts, Culture, & History Culture Center, Charleston, Kanawha County, WV (hereinafter “Project”) to his client.
7. The August 19, 2024 set of engineered drawings and calculations for the Project were sealed with Respondent’s California PE seal, in violation of West Virginia Engineering Law.
8. The September 6, 2024 set of engineered drawings and calculations for the Project were sealed with Respondent’s West Virginia PE seal, prior to the issuance of Respondent’s West Virginia PE license, in violation of West Virginia Engineering Law.
9. Respondent presented these incorrectly sealed, engineered drawings and calculations to his client.
10. This resulted in a Board investigation, which indicated that prior to his September 12, 2024 West Virginia PE license issuance date, Respondent had provided engineering services for this West Virginia engineering Project, at a time when he did not have a West Virginia PE license, and at a time when he did not possess a Certificate of Authorization (“COA”), and incorrectly sealed the engineered drawings and calculations for this West Virginia engineering Project, in violation of West Virginia Engineering Law.
11. The Board, at its November 20, 2024 Board Meeting, received and filed a Board initiated Complaint against Respondent, and docketed the action as C2025-05. The Complaint set forth facts that Respondent produced two (2) sets of incorrectly sealed engineered drawings and specifications for a Project located in Kanawha County, West Virginia prior to obtaining his PE license and at a time when he did not hold a COA.

12. The Complaint was served upon Respondent, and the Board and Respondent agreed to settle this matter by the entry of this Consent Order in lieu of Respondent filing a formal response to the Complaint, and waiving his right to an administrative hearing, and waiving his right to appeal.
13. By agreement of the parties, the Board dismisses the allegation that Respondent had engaged, or attempted to engage, in dishonorable, unethical, or unprofessional conduct of a character likely to deceive, defraud or harm the public.
14. Respondent admits that he practiced engineering for this West Virginia Project prior to applying for or being issued a West Virginia Professional Engineer license.
15. Respondent admits that he practiced engineering for this West Virginia Project without a West Virginia Certificate of Authorization.
16. Respondent admits that he incorrectly sealed the August 19, 2024 engineered drawings and calculations for this Project with his California Professional Engineer seal.
17. Respondent admits that he sealed the September 6, 2024 engineered drawings and calculations for this Project with his West Virginia Professional Engineer seal, prior to being issued his West Virginia PE license.
18. The Board has considered the following factors in reaching this settlement: Respondent applied for and was issued his PE license; Respondent has agreed to apply for a COA; and Respondent cooperated in the resolution of this Complaint.
19. The Board, in its discretion, will not assess administrative costs although it is within its power to assess such costs and administrative costs were incurred in the investigation, initiation and resolution of the original and amended complaint.
