1. James M. Atwater's request for comity was approved contingent on him providing an additional acceptable character reference.
2. John K. Henshaw's request for comity was approved.

Ms. Rosier reminded the Board of the upcoming NCEES Annual Meeting August 22-25, 2012 in St. Louis, MO. She has requested paper and electronic copies of the meeting proceedings for all attendees. Currently Board members Pierson, Plymale, and Timms along with staff members Rosier, Johnson and Rubenstein and Board counsel Hamilton are attending.

Mr. Timms reviewed the NCEES Annual Meeting Consent Agenda and selected motions that will be presented at the August meeting. Items of particular interest to this Board were discussed in detail.

Ms. Rosier discussed the current FE exam CBT status. Implementation remains on schedule. There is a webinar scheduled for MBAs and Board staff on July 18th. Board members can participate by responding to the email forwarded by Ms. Rosier from NCEES staff.

The October PE exam will continue to be offered at both Charleston and Morgantown.

The Educational Plan of Study (EPOS) requirements were reviewed. Ms. Rosier reminded Board members that the EPOS submissions will continue to be required but Board interviews have been discontinued for FE examination candidates, noting that in January 2014, FE exam applicants will be able to apply directly through NCEES and not need prior Board approval. The PE examination candidates will continue to be required to submit an acceptable EPOS after three failed attempts before being approved to sit for the PE exam the fourth time. Upon a fourth failure, the PE exam applicant will have to submit an additional acceptable EPOS and interview with the Board before being approved to sit for the PE exam the fifth time. If the candidate does not pass on the fifth or any future attempt, the Board automatically will require the PE exam applicant to sit out for a minimum of one year before reapplying for approval to retake the exam.

Ms. Rosier updated the Board on the status of the purchase of notebook computers for use by the Board and staff in Board meetings. The agency's IT support staff has recommended the purchase of laptops off of the statewide contract due to their larger screen size and lower costs. The laptops should be available for use at the September Board meeting. In the future all Board meeting information will be posted on a secure FTP site and made available for review by the Board approximately one week prior to the meeting. Paper notebooks may be used for off-site Board meetings.

An election of Board officers for the 2012-2013 year was held. A motion was made by Mr. Timms, seconded by Mr. Plymale, that the Board retain the same officers for the upcoming year (President Robinson, Vice President Pierson, Secretary Saluja). The candidates agreed to serve for another year. Motion carried.

The 2012-2013 renewal process is continuing on schedule. Multiple courtesy e-mail notifications have been sent out. As of July 11th, second notices were mailed to 602 PEs, 53 retired PEs and 335 companies with COAs who have yet to renew.

The Board and staff spent the remaining portion of the meeting reviewing the details of the proposed legislative changes to the WV Engineering statute (Article 13). Minor changes were made to the draft statute. Mr. Timms moved and Mr. Plymale seconded a motion that staff provide a copy of the current proposal to counsel for the House and Senate Government Organization Committees prior to a meeting between the Board and the Joint Committee on Government Organization. Staff was directed to schedule such a meeting, preferably during the Legislature's August interims.

The next Board meeting is scheduled for Tuesday, September 18, 2012. The meeting will take place in the Board offices at 300 Capitol Street in Charleston, WV.

Upon motion by Mr. Timms, seconded by Mr. Saluja, the meeting adjourned at 12:05 p.m. The Board members will be compensated one day per diem plus travel expenses.

**General Session Minutes
State Board of Registration for Professional Engineers
September 18, 2012**

The State Board of Registration for Professional Engineers met in their offices at 300 Capitol Street in Charleston, WV on Tuesday, September 18, 2012. Those present for all or part of the meeting were:

Edward L. Robinson	President
William E. Pierson	Vice-President
Bhajan S. Saluja	Secretary
Richard E. Plymale	Member
Leonard J. Timms	Member
Lesley L. Rosier-Tabor	Executive Director
Don W. Johnson	Board Investigator
Debra L. Hamilton	Legal Counsel

The meeting was called to order at 9:00 AM. The new laptop computers approved at the July Board meeting had been received and were set-up in the Board room. Ms. Rosier reviewed how to use the software shortcuts on the laptop to access the electronic Board meeting information. The meeting was conducted using the new laptops.

The Board meeting minutes for July 16, 2012 (both executive and general session) were reviewed. A motion to approve the minutes as submitted was made by Mr. Timms, seconded by Mr. Plymale. Motion carried.

The Board budget summaries for July and August 2012 were received and reviewed, noting a correction needed on FY dates 2013 vs. 2012. The detailed purchasing card expenditures were also received and reviewed. A motion to approve the current expenditures and purchasing card transactions was made by Mr. Timms, seconded by Mr. Pierson. Motion carried.

Ms. Rosier reported that for the first time ever the WV State Budget Office requested that non-appropriated Boards provide an Appropriation Request. Officials from the WV State Budget Office indicated the need to provide a more accurate accounting of total state budgets and that it is not intended to change the way this Board is currently funded.

Ms. Rosier presented the Executive Director's report and addressed all Board questions and comments. Ms. Rosier discussed participation in recent events and presentations made by her to various groups since the last Board meeting. She also reviewed the office's schedule of upcoming activities. A motion was made by Mr. Plymale, seconded by Mr. Timms, to approve attendance and travel for Board member and staff activities outlined in the Executive Director's report and updated 2012 calendar of events, including Ms. Rubenstein's attendance at the 2013 FARB meeting in January. Motion carried.

The pass rates for the April 2012 exam were discussed. Mr. Pierson raised the question as to how the national exam passage rates do not include engineering technology students as West Virginia's overall passage rates do. Ms. Rosier provided some quick computations for the last 3 exam administrations which reflected the added engineering technology scores appeared to decrease the WV passage rates anywhere from 5-10% in any given exam administration. Mr. Pierson recommended we keep this in mind when referencing state vs. national passage rates in the future. Mr. Timms volunteered to put together a related article for the Board newsletter to include, among other items, current statewide vs. national passage rates.

There are two remaining paper-and-pencil FE exam administrations to be offered in 2013 before the conversion to Computer Based Testing (CBT). The Board will continue to require the Educational Plans of Study with the applications of those who have failed the FE exam 3 or more times.

Mr. Saluja moved to enter into Executive Session at 9:45 AM, seconded by Mr. Plymale. Motion carried.

The Board recessed at 1:20 PM in Executive Session for an informal conference regarding complaint C2010-12. The Board meeting resumed at 3:45 PM in Executive Session.

At the conclusion of the Executive Session Mr. Timms moved to enter into general session with a second by Mr. Saluja. Motion carried and the Board took the following actions:

1. A motion was made by Mr. Saluja, seconded by Mr. Plymale directing Ms. Hamilton to send a "Notice to Show Cause" letter to the respondent in complaint C2009-11 if he has not met the conditions of the Consent Order by October 1st. Motion carried.
2. A motion was made by Mr. Timms, seconded by Mr. Saluja directing Ms. Hamilton to send a "Notice to Show Cause" letter to the respondent in complaint C2012-04. Motion carried. The Florida Board is to be copied in on the letter.
3. A motion was made by Mr. Saluja, seconded by Mr. Timms to dismiss complaint C2012-14. Motion carried. Respondent will be copied in dismissal letter to complainant.
4. Mr. Timms made a motion that inquiry I2012-07 be filed as a Board-initiated complaint. Motion was seconded by Mr. Pierson and carried. Ms. Rosier asked to be excused from this matter, which request was granted, and she absented herself, and will continue to absent herself, from any involvement in this complaint.

Based on a motion by Mr. Timms, seconded by Mr. Pierson, the Board took the following actions on Special Cases for Board Action:

1. John F. Germ's request for comity was approved.
2. Michael D. Neely's request for comity was approved.
3. Bradley E. Peter's request for comity was approved.

Ms. Rosier reported that Charlotte Keller has been hired as a temporary administrative assistant to fill the position of our summer intern who returned to school in mid-August. Ms. Keller will be assisting our agency through the end of 2012, helping with license renewal processing, continuing education audit needs and other duties as needed while staff member Davis is on maternity leave.

The recent NCEES Annual meeting was discussed. There were no major issues and all attending agreed the meeting was extremely informative and ran very efficiently.

Ms. Rosier provided an update on CBT. Implementation is still on schedule for January 2014. The length of the examination is still being reviewed by NCEES but is anticipated to be less than the current eight (8) hours. To help avoid confusion between the new and current FE specifications, NCEES is waiting until 2013 to release the detailed specifications. When they are posted, the specifications will include additional information within each domain and the percentages of each topic on the exams.

The October exam preparation was discussed. Mr. Timms will be the observer at the Morgantown site for both the FE and PE exams. Ms. Rosier and Ms. Davis will be the observers for the Charleston exams on both days.

Ms. Rosier addressed the question about whether or not the Board should continue to obtain and store institutional report exam data for our state institutions. The Board staff has not accessed this data from NCEES in a number of years and will not access the data unless directed by the Board to do so at some time in the future.

Mr. Timms discussed his NCEES activities. He reported on an upcoming ACCA charge regarding allowing new graduates to sit for the PE exam immediately after completing their degree and passing the FE exam.

The proposed statute revision was discussed. Based on the feedback from our interim meeting with House and Senate Government Organization Committee leadership and staff on August 15th, there does not appear to be adequate time for a major rewrite to be reviewed for introduction during the 2013 legislative session. Given the circumstances, the Board has decided to simply pursue minimal changes to W.Va. Code 30-13-15 to allow the WV PE Board to offer the engineering licensing exams in whatever form dictated by NCEES. Ms. Rosier was directed to convey this information to Mr. Roskovensky, Counsel for the House Government Organization Subcommittee, as soon as possible.

Ms. Rosier reported on the 2012-2013 renewal season status. As of September 16th there are 282 PEs, 29 Retired PEs and 120 COAs who have not renewed. Final courtesy e-mails reminding them of the September 30th deadline will be sent during the last week of the renewal grace period.

Mr. Timms reported that he sent an e-mail to WV Wesleyan College officials questioning a newspaper article in the northern part of the state about how their programs can supply highly skilled engineers. After reviewing Mr. Timms' concerns, the college agreed to change references to their program to pre-engineering and have invited Mr. Timms to provide an engineering licensure presentation to their faculty and students tomorrow evening on their campus.

Mr. Pierson raised the question about the Board's willingness to accept electronic delivery of transcripts. Marshall University, as well as other institutions, are already implementing processes to allow for this secure transfer. Mr. Pierson will get additional information from the Marshall Registrar. Ms. Rosier will contact other Boards to see if they are allowing the electronic delivery of transcripts and, if so, learn if they have encountered any problems.

Ms. Rosier discussed a request from the Design-Build Board to distribute proposed modifications to their legislative rules to members of our "association". After polling the Board it was decided to not distribute the proposed rule changes to all of our 10,000+ licensees but to place a public notice of the proposed rule changes on our Special Announcement bulletin board on the homepage of our website along with a computer link to access the proposed rules via the WV Secretary of State's office.

Board participation in the WV EXPO was discussed. It was decided to completely change the program and focus on "Trends in Engineering Education". Ms. Rosier will contact EXPO staff to see if a longer time slot is available for the Board's extended program. If additional time is available, Ms. Rosier will explore bringing in speakers from NCEES and ASCE to discuss the new exam specifications and CBT as well as the "Raising the Bar" initiative. The Board also agreed to continue the joint program with WVSPE to recognize our 2012 successful examinees.

Mr. Pierson made a motion to approve the expenditures to continue the Board's participation in the WV EXPO, to include a booth rental space, our continuing education program advertisement, as well as any necessary expenses needed for the extension of our continuing education program such as speaker expenses, etc. The motion was seconded by Mr. Plymale and carried.

The next Board meeting is tentatively scheduled for Wednesday, November 7, 2012 and will take place in the Andrews Conference Center of the WVU College of Engineering and Mineral Resources Building on the Evansdale Campus in Morgantown, WV. Ms. Rosier is to confirm the availability of WVU officials and will then notice the WV Secretary of State's office.

Upon motion by Mr. Pierson, seconded by Mr. Timms, the meeting adjourned at 4:50 p.m. The Board members will be compensated one day per diem plus travel expenses.

**General Session Minutes
State Board of Registration for Professional Engineers
December 18, 2012**

The State Board of Registration for Professional Engineers met in their offices at 300 Capitol Street in Charleston, WV on Tuesday, December 18, 2012. Those present for all or part of the meeting were:

Edward L. Robinson	President
William E. Pierson	Vice-President
Bhajan S. Saluja	Secretary
Richard E. Plymale	Member
Leonard J. Timms	Member
Lesley L. Rosier-Tabor	Executive Director
Don W. Johnson	Board Investigator
Debra L. Hamilton	Legal Counsel

Mr. Timms became ill and left Charleston at the start of the meeting but then phoned in at 10:30am and participated telephonically for the remainder of the meeting.

The meeting was called to order at 9:00 AM.

The Board meeting minutes for September 18, 2012 (both executive and general session) were reviewed. A motion to approve the minutes as submitted was made by Mr. Plymale, seconded by Mr. Pierson. Motion carried.

The Board budget summaries for September and October 2012 were received and reviewed. The detailed purchasing card expenditures were also received and reviewed. A motion to approve the current expenditures and purchasing card transactions was made by Mr. Pierson, seconded by Mr. Plymale. Motion carried.

Ms. Rosier presented the Executive Director's report and addressed all Board questions and comments. Ms. Rosier discussed participation in recent events and presentations made by her to various groups since the last Board meeting. She also reviewed the office's schedule of upcoming activities. A motion was made by Mr. Saluja, seconded by Mr. Pierson, to approve attendance and travel for Board member and staff activities outlined in the Executive Director's report and updated 2012-2013 calendar of events. Motion carried.

The results from the October 2012 exam were reviewed. The overall PE pass rate was 48.4%. First-time pass rate was 46.2%. The pass rate for repeat takers was 47.6%. The overall FE pass rate was 42.3%. First-time pass rate was 60.3%. The pass rate for repeat takers was 18.8%. More detail will be provided at the January Board meeting.

Certain items on the agenda were taken out of order to allow for Mr. Timm's participation by telephone.

Ms. Rosier reviewed the changes in the NCEES Records Program. NCEES has designated the organization's Credential Evaluation service as the official educational credentials evaluator for the Records Program.

Ms. Rosier informed the Board that nominations for the Northeast Zone and NCEES National Awards are due by the end of January. Please submit nominations in early January to allow time for completing the necessary applications.

Ms. Rosier discussed tentative plans for the Northeast Zone meeting scheduled for early May 2013 in Cape May, NJ. The Board will be sending a minimum of three funded representatives to this meeting. In addition, the Northeast Zone will be asked to vote on the new NCEES President-Elect nomination at this meeting. Currently there are two candidates running and the Board decided to wait until early 2013 before making their decision.

Ms. Rosier reported that NCEES has created an electronic verification system that allows participating Boards to request and receive official Board license verifications by e-mail. This system expedites the licensure process and reduces the amount of work involved for all parties. The WV Board staff participated in a training webinar and is now testing the program with a number of other state boards.

The Board discussed the change in the way FE and PE examination fees will be collected beginning in 2014 with the implementation of computer based testing procedures. All FE and PE examination fees, with the exception of the WV Board application fee, will be paid directly to NCEES after the applicants receive Board approval and are directed to register for their exam seat on the NCEES website. This eliminates the ability for the Board to waive the examination fees for first-time takers of the FE exam. However, the Board can still waive the state application fee. Mr. Saluja made a motion that the Board waive the state application fee under the same terms as the current fee waivers, which applies to WV students currently enrolled in an eligible ABET program and applying to take the FE exam for the first time. The motion was seconded by Mr. Pierson and carried.

Based on Board communications with the WV Legislature's Government Organization Committees, the WV Board will not be proposing a re-write of Article 13 and will only be submitting proposed amendments to current sections, primarily to allow for NCEES' nationwide computer based testing. A draft of the proposed changes was presented to the Board and will be reviewed, finalized and ready for Board approval at the January 2013 Board meeting.

W.Va. Code 30-1-6a & 6b (HB4037 – 2012) was discussed. The law requires WV licensing boards to consider Armed Forces training when veterans apply for licensure. The law also provides for fee and PDH waivers for active duty military and in certain cases their spouses. The Board reviewed our recent response to the legislative inquiry on our steps toward compliance.

Ms. Rosier reported that the Board had been in contact with the WV Surveyors' Board regarding scheduling of joint meeting to discuss common overlap issues. The Board will extend an invitation to the Surveyors' Board to join us for our January 31, 2013 Board meeting and working lunch.

Ms. Rosier reported that the Architects' Board had also responded to our Board's request for any updates needed to the joint publication "Professional Use of Seals" brochure prior to reprinting. The Architects Board had only minor edits that will be incorporated along with those of our Board. Once the final draft is complete, a copy will be provided to both Boards for final approval prior to printing.

Ms. Rosier reported on the attendance of our Board members and staff at the 2013 required Auditor's Training session. Mr. Saluja, Mrs. Rubenstein and Mr. Johnson attended the session on behalf of the Board.

Ms. Rosier reported on the upcoming WV EXPO. It was decided that our proposed program will be entitled "Trends in Engineering Licensure" and Vice-President Pierson will take the lead on the presentation. President Robinson, Ms. Hamilton and staff will also prepare brief remarks to be followed by the joint program with WVSPE to honor our 2012 successful examinees.

Ms. Rosier requested articles for the Board newsletter. The newsletter is scheduled to go to the printer immediately following our January 31st Board meeting. A draft copy will be made available for Board review prior to the January Board meeting.

Mr. Pierson moved to enter into Executive Session at 10:30 AM, seconded by Mr. Plymale. Motion carried. Ms. Rosier asked to be excused from the matters of C2013-01 and C2013-03, which request was granted, and she absented herself, and will continue to absent herself, from any involvement in these complaints.

At the conclusion of the Executive Session Mr. Pierson moved to enter into general session with a second by Mr. Saluja. Motion carried.

Regarding personnel issues, the Board discussed their options regarding continuity of legal services given the changes in the Attorney General's Office. The Board voiced their preference for Ms. Hamilton to continue representing the Board as an employee of the Attorney General's Office, but were willing to seek a new position for in-house counsel should that become necessary. Upon motion by Mr. Pierson, seconded by Mr. Saluja, staff was authorized to take whatever steps may be necessary to bring Ms. Hamilton in-house.

Based on a motion by Mr. Timms, seconded by Mr. Pierson, the Board took the following actions regarding investigations and disciplinary matters:

1. A motion was made by Mr. Pierson, seconded by Mr. Plymale to dismiss complaint C2012-10. Motion carried. Respondent will be copied in dismissal letter to complainant.
2. Mr. Timms made a motion that inquiry I2013-01 be filed as a Board-initiated complaint. Motion was seconded by Mr. Pierson and carried.
3. Regarding C2012-04, the Board had no objection to counsel and staff's pre-meeting decision to cancel the noticed show cause hearing and instead pursue a judgment in the Circuit Court of Kanawha County since the non-compliance related to collection of civil penalties and no licensure issues.
4. Counsel was directed to send a cautionary letter in I2013-04 and authorized to do so in I2013-03 if warranted after further investigation.

Based on a motion by Mr. Timms, seconded by Mr. Pierson, the Board took the following actions on Special Cases for Board Action:

1. Kamran Rostami Asrabadi's request for comity was approved.
2. William B. **General Session Minutes
State Board of Registration for Professional Engineers
January 31, 2013**

The State Board of Registration for Professional Engineers met in their offices at 300 Capitol Street in Charleston, WV on Thursday, January 31, 2013. Those present for all or part of the meeting were:

Edward L. Robinson	President
William E. Pierson	Vice-President
Bhajan S. Saluja	Secretary
Richard E. Plymale	Member
Leonard J. Timms	Member
Lesley L. Rosier-Tabor	Executive Director
Don W. Johnson	Board Investigator
Debra L. Hamilton	Legal Counsel

The meeting was called to order at 9:00 AM.

A number of agenda were addressed out of order to allow for the pending informal conference with a licensee, a joint meeting with the WV Surveyors Board and two PE exam candidate interviews.

Before beginning regular business, the Board requested an update from the Board President regarding the tentative agreement with the Attorney General's Office regarding the legal services of Ms. Hamilton as counsel of the AG's office and for her to continue to serve as this Board's attorney. President Robinson has heard from AG Morrissey's general counsel, who assured the Board Ms. Hamilton would be retained, with a majority of her time devoted to this Board. A memorandum of understanding (MOU) setting forth various understandings, including billing, is being drafted by the AG's General counsel and will be provided to this Board for consideration.

The Board meeting minutes for December 18, 2012 (both executive and general session) were reviewed. A motion to approve the minutes as submitted was made by Mr. Timms, seconded by Mr. Plymale. Motion carried.

The Board budget summaries for November and December 2012 were received and reviewed. The detailed purchasing card expenditures were also received and reviewed. A motion to approve the current expenditures and purchasing card transactions was made by Mr. Timms, seconded by Mr. Saluja. Motion carried.

Ms. Rosier presented the Executive Director's report and addressed all Board questions and comments. Ms. Rosier discussed participation in recent events and presentations made by her to various groups since the last Board meeting. She also reviewed the office's schedule of upcoming activities. A motion was made by Mr. Pierson, seconded

by Mr. Plymale, to approve attendance and travel for Board member and staff activities outlined in the Executive Director's report and updated 2012-2013 calendar of events and travel. Motion carried.

The upcoming April 2013 exam was discussed. As of today, 56 PE applications were accepted with 27 being first-time examinees. Two exam applicants are required to interview before being allowed to take the exam and will be meeting with Board members and staff this afternoon. 290 FE applications were received and are being processed for approval.

Ms. Rosier discussed the current legislation that can sweep a portion of Chapter 30 Boards' funds into the state's General Fund. The WV Association of Licensing Boards is currently working with the Joint Committee on Government Organization to offer amendments to this legislation during the 2013 session and seeking input. The current movement of the Association is to remove the sweep calculation and simply request monitoring and oversight if a Board's funds appear to be in excess of what they should be. Ms. Rosier and Ms. Hamilton will track the upcoming bill(s) and will report on the status of that legislation.

Ms. Rosier and President Robinson will be attending the NCEES Board President Assembly in Atlanta, Georgia on February 7-9, 2013. In addition, Ms. Rosier will be serving as an NCEES representative and providing educational outreach presentations at the National Building Museum in Washington, DC to kick-off National Engineers Week over the weekend of February 16-17, 2013. Upon her return, she will also be participating in other local E-Week activities including Introduce a Girl to Engineering activities at the Clay Center and co-moderating a national licensure webinar in cooperation with NCEES and ASCE the evening of Wednesday, February 20, 2013 .

Ms. Rosier encouraged the Board to review the upgrades and recent additions to the Board's website. Enhancements include social media links, video segments on the importance of licensure, a Frequently Asked Questions section, as well as a visitor survey.

The Board reviewed, in detail, the proposed changes in the Engineering Law being made to accommodate Computer Based Testing (CBT). With minor modifications, Mr. Timms made a motion to take the necessary steps to get the proposal introduced to begin the legislative process. Motion was seconded by Mr. Saluja and carried.

Mr. Pierson made a motion to enter into Executive Session at 10:45 AM, seconded by Mr. Saluja. Motion carried.

The Board recessed the meeting in Executive Session at 11:00 AM for an informal conference on inquiry I2013-7.

The Board returned to regular session for a joint luncheon meeting with the WV Board of Professional Surveyors (Surveyors Board).

In attendance from the WV Surveyors Board:

Nelson B. Douglas – Board Member
Anthony J. Sparacino, Jr. – Board Member
R. Michael Shepp – Board Member
Mark H. Hornish – Board Member

Kate Campbell, Assistant Attorney General, Counsel to the Board

Joining them from the Society of Professional Surveyors:

The WV PE Board members and the WV Surveyors Board members met for approximately 2 hours and discussed a variety of overlapping and incidental issues between the professions and agreed to meet again in early March to begin work on developing a joint publication or memorandum of understanding to assist our licensees and other professionals such as architects and building code officials, as well as the public at large regarding who can and cannot perform certain duties.

The Board resumed the regular Board meeting in Executive Session at 2:45 PM, again recessing to interview two repeat PE exam candidates.

3. A motion was made by Mr. Saluja, seconded by Mr. Timms, to dismiss complaints C2013-02 and C2013-04 in a single letter since the matters are related. Motion carried.
4. The Board authorized staff to hire an expert, if necessary, to review the HEC-RAS study in complaint C2013-05.
5. Mr. Timms moved that complaint C2013-06 be scheduled for hearing at the March meeting unless resolved. Motion was seconded by Mr. Saluja and carried.

6. Mr. Saluja made a motion that inquiry I2013-06 be filed as a Board-initiated complaint. Motion was seconded by Mr. Plymale and carried.
7. Mr. Timms made a motion that inquiry I2013-07 be filed as a Board-initiated complaint. Motion was seconded by Mr. Plymale and carried.

Based on a motion by Mr. Timms, seconded by Mr. Pierson, the Board took the following actions on Special Cases for Board Action:

Board members were presented with information on the two candidates that have stepped forward to be considered for the position at this time.

NCEES issued a Notice of Initiation of CBT effective January 1, 2014. The October 2013 exam will be the last pencil and paper FE exam. The PE exam will continue to be a pencil and paper exam offered twice a year. Computer-based FE exams will only be administered at approved Pearson VUE testing centers, which in WV includes one in Morgantown and one in downtown Charleston.

Ms. Rosier reported that the WV Architects Board had responded to our Board's request for updates needed to the joint publication "Professional Use of Seals" brochure prior to reprinting. The Architects Board had only minor edits that have been incorporated along with those of our Board. Once the final draft is complete, a copy will be provided to both Boards for final approval prior to reprinting.

Ms. Rosier reported on the upcoming WV EXPO. Vice-President Pierson will take the lead in our program entitled "Trends in Engineering Licensure". President Robinson, Ms. Hamilton and staff will also prepare brief remarks to be followed by the joint program with WVSPE to honor our 2012 successful examinees. WVSPE has prepared the invitations for the examinees, and our Board will mail the notifications in late February.

Ms. Rosier distributed the draft copy of the newsletter. She requested that any changes or additions be sent to her no later than February 4th. The newsletter is scheduled to go to the printer immediately after incorporating all proofing comments.

The next Board meeting is Tuesday, March 19, 2013. The meeting will take place at the Board office at 300 Capitol Street – Suite 910, in Charleston, WV.

Upon motion by Mr. Timms, seconded by Mr. Plymale, the meeting adjourned at 4:15 p.m. The Board members will be compensated one day per diem plus travel expenses.

Motion carried.

Ms. Rosier discussed the need to upgrade the current Access database being used by the Board. A replacement, cloud-based licensing solution would cost an estimated \$50-70k with \$10k in annual operating expense. A motion was made by Mr. Pierson, seconded by Mr. Plymale, to proceed with developing the required RFP/RFQ in cooperation with the Purchasing Division for integration of a complete database solution to replace the current system. Motion carried.

The upcoming April 2013 exam was discussed. A total of 56 PE applications were accepted with 26 being first-time examinees. However, only 53 registered with NCEES to sit for the exam. Two of the PE exam repeat applicants were interviewed and granted permission to sit for the exam. Regarding the FE exam, a total of 290 FE applications were accepted but 4 cancelled or withdrew by phone and 12 did not register with NCEES, for a total of 274 scheduled to sit for the exam.

Updating of the joint architect's and engineer's "Professional Use of Seals" brochure was discussed. A number of revisions have been proposed by both Boards. Board members were presented with information on the two candidates that have stepped forward to be considered for the position at this time. Information has also been received regarding the candidacy for the NCEES treasurer.

Ms. Rosier reported that several Boards have recently raised concerns about the direct registration of FE candidates with NCEES that will occur with the implementation of CBT. She also indicated that she and her staff will be participating in a CBT Examinee Approval Model webinar next week. She anticipates much discussion on this topic at the upcoming Zone meeting as well as the annual NCEES meeting.

Ms. Rosier discussed the status of the current legislation on Chapter 30 Board finances. A bill favored by the WV Association of Licensing Boards, removing the calculation that allows the treasurer's office to sweep any funds in excess of 2 times the Board's budget, has been presented as HB 2584. Ms. Rosier and Ms. Hamilton will continue to track the bill and keep the Board informed on the status of that legislation.

Ms. Rosier reported on the upcoming WV EXPO that begins tomorrow at the Charleston Civic Center. Vice-President Pierson will take the lead in our program entitled "Trends in Engineering Licensure". The performance results from the April 2013 exam were reviewed. The overall PE pass rate was 45.1%. First-time pass rate was 50.0%. The pass rate for repeat takers was 40.0%. The overall FE pass rate was 62.8%. First-time pass rate was 65.2%. The pass rate for repeat takers was 50.0%.

The joint architects' and engineers' "Professional Use of Seals" brochure has been updated and is currently being reprinted due to printing issues with the selected low bidder. Draft copies were presented to the Board and final copies should be available before the July 2013 Board meeting.

The Board is awaiting communications from the Surveyors Board regarding their progress on the joint Engineering/Surveying memorandum of understanding and possible joint publications. The Board is hopeful that a meeting can be scheduled between the two boards prior to the July board meeting.

The Board discussed the filing of emergency rules to comport with the changes in WV Engineering Law to accommodate CBT and additional statutory changes. Ms. Rosier and Ms. Hamilton reported they had met with staff of the WV Secretary of State's Office to discuss submission deadlines and learned that it is preferable to file legislative rules and have the comment period prior to filing emergency rules. These legislative rules will be filed in late October or early November, followed by the filing of the same rules as emergency rules. New legislative rules will be timely filed for adoption during the 2015 legislative session.

The statutory change to be sought during the 2014 legislative session would be to accommodate biennial renewal. A short survey to learn the preference of our licensees is attached to the current license renewal form. The initial response is favorable.

Mr. Pierson asked about the possibility of the Board accepting electronic transcripts. He reported that there are firms that provide this service. Ms. Rosier agreed to look into the matter but noted she was unaware of any applicant requests for acceptance.

Mr. Timms reported that he had contacted Wheeling Jesuit University and offered to make a presentation on licensure during the fall semester. He is awaiting a response from the school administration.

Ms. Hamilton brought up a request from a complainant to receive a copy of the response to the complaint citing the specific language currently used on the third-party complaint form. The Board took no action to change the practice of keeping the investigative file confidential until the complaint is acted upon by the Board, which means the complaint has been settled or the Board has voted to dismiss or notice the complaint for hearing.

Mr. Timms made a motion to enter into Executive Session at 9:40 AM, seconded by Mr. Pierson. Motion carried.

The Board recessed the meeting in Executive Session at 10:10 AM for an informal conference on complaint C2012-07.

The Board recessed the Executive Session for a luncheon presentation on "Raising the Bar" by David Peterson. Carol Stevens, WV Section Governor for ASCE, was also in attendance. The presentation addressed the need for increased engineering education and the possibility of requiring the Master's degree as the first professional degree in order to seek licensure.

The Board resumed the meeting in Executive Session at 1:00 PM.

At the conclusion of the Executive Session Mr. Timms moved to enter into General Session with a second by Mr. Plymale. Motion carried and the Board took the following actions:

1. Mr. Timms made a motion that complaint C2010-11 be scheduled for hearing at the July or September Board meeting. Motion was seconded by Mr. Pierson and carried.
2. Mr. Timms made a motion that complaint C2013-05 be scheduled for hearing at the July Board meeting. Motion was seconded by Mr. Saluja and carried.
3. Mr. Plymale made a motion that inquiry I2013-11 be filed as a Board-initiated complaint. Motion was seconded by Mr. Timms and carried.
4. Mr. Timms made a motion to authorize counsel to hire an expert, if necessary, to assist in the investigation of inquiry I2013-13. Motion was seconded by Mr. Pierson and carried.

Based on a motion by Mr. Pierson, seconded by Mr. Saluja, the Board took the following actions on Special Cases for Board Action:

1. William E. Casciola's request for comity was approved.
2. David P. Feron's request for comity was approved.

Mr. Timms made a motion to approve raises to be effective July 1, 2013, from a budgeted pool of \$20,000 distributed as follows: a 6% merit increase for the Executive Director with the remainder to be distributed to Board staff at her direction. Mr. Plymale seconded and the motion carried.

The proposed advertisement for the Board Investigator was discussed. At the request of Board member Pierson, the requirement for a criminal background check was added. The ad will be placed in the paper within the next 10-14 business days. The goal is to

have the investigator on staff in time to attend the annual NCEES meeting in late August.

Mr. Timms, Mr. Saluja and Ms. Rosier reported on the recent NE Zone meeting in Cape May, NJ. There were a number of major items discussed which included, but are not limited to the following:

- The election for NE Zone Candidate for NCEES President-Elect resulted in a tie vote. The Zone will now send the names of two candidates forward for vote at the annual meeting so the whole body will then elect the President-Elect.
- There is a proposal being prepared to remove the 4 years experience requirement for licensure from the NCEES Model Law. A number of states already have different experience requirements.
- The Ohio Board is proposing that each joint Board of engineers and surveyors have 2 votes on NCEES matters, one for each discipline. The intent is to give equal weight to the states who already have separate Boards. However, there were a number of other issues that were then brought up such as funding of delegates, equal representation based on the number of licensees within a jurisdiction, the equality of the member dues fee structure based on votes and number of licensees, etc. The NE Zone recommended that Jerry Carter share the outcome of the NE Zone discussions with the OH Board and also that President-Elect Mamosa consider establishing a task force to study the issue during her tenure.
- Ms. Rosier reminded the attending Boards that they must begin preparation for CBT no later than the summer deadline for last paper-and-pencil exam to be given in October 2013. There is a lot of work that has to be done before the change actually takes place on January 2, 2014.

Ms. Rosier asked for that Board members planning on attending the NCEES annual meeting to let her know. Currently Mr. Timms, Mr. Saluja, Mr. Pierson, Ms. Rubenstein, Ms. Rosier, Mr. Johnson and Attorney Hamilton plan on attending. Registration must be completed in early July.

Ms. Rosier reported that a two-page member agreement to implement CBT has been sent to each Board for their approval and signature. There is no contract between the individual Board and PearsonVue. The contract for CBT is between NCEES and Pearson. Ms. Hamilton will review the document and offer any necessary legal comments. Once finalized, Mr. Robinson will be asked to sign as the Board President.

Mr. Timms reported that there were a few problems at the Morgantown exam site with respect to noise and lighting. NCEES acknowledged the issues and tried to mitigate the problems prior to the exam administration and continue to look for other locations for future exams.

Ms. Rosier reported that the required annual BRIM Safety Meeting was held with staff prior to the Board meeting on May 28, 2013. The Board was presented with a copy of

the submission (draft safety meeting minutes, attendance sheet, annual survey results, etc) to be submitted to BRIM following the Board meeting in order to comply with their annual requirements.

The next Board meeting is Tuesday, July 16, 2013. The meeting will take place at the Board office at 300 Capitol Street – Suite 910, in Charleston, WV.

Upon motion by Mr. Pierson, seconded by Mr. Timms, the meeting adjourned at 2:15 p.m. The Board members will be compensated one day per diem plus travel expenses.

The seal of the Board of Registration for Professional Engineers, State of West Virginia, is a circular emblem. It features a rope-like border. Inside the border, the text "BOARD OF REGISTRATION FOR PROFESSIONAL ENGINEERS" is written in a circular path. The center of the seal contains a smaller circular seal of the State of West Virginia, which includes the date "JUNE 20 1863" and the word "MOUNTAIN". The city name "CHARLESTON" is written at the bottom of the outer seal.

Spotlight on the Executive Director

Lesley L. Rosier-Tabor, PE

In lieu of the regular column featuring the Executive Director's Message, the tables are turned and she is being placed in the spotlight!

Executive Director Rosier-Tabor recently received two of the highest honors that are given by the National Council of Examiners for Engineering and Surveying (NCEES) to those who are employed by a Member Board – the 2012 NCEES Northeast Zone Distinguished Service Award and the 2012 NCEES National Meritorious Service Award.

The first award, the 2012 NCEES Northeast Zone Distinguished Service Award, was given by the Northeast Zone of NCEES in May 2012 at their annual zone meeting held in Dover, DE. This award is affectionately dubbed the “Enny” for the “N” and “E” abbreviation of the Northeast Zone and also for its significance in the engineering licensure arena. The second award, the 2012 NCEES National Meritorious Service Award, was presented to Ms. Rosier-Tabor in August of 2012 during the NCEES Annual Meeting in St. Louis, MO. Each award is presented to an individual who has provided exemplary and faithful service to their State Board, the NE Zone and NCEES and has advanced the registration of professional engineers.

Since her appointment as the first Executive Director of the agency, Lesley has been committed to advancing the engineering profession. In addition to a number of outreach activities, she and her Board have worked diligently to increase the number of FE examinees by initiating a fee-waiver program for students who are first-time applicants. She led efforts to automate the state board's office, developed and maintains the board's website, and implemented new state-of-the-art technologies such as e-government processing and online renewals. Rosier-Tabor continuously promotes licensure, ethics and professionalism to the engineering profession through annual presentations made to the state engineering schools, governmental agencies, and professional societies. She also coordinates annual Board meetings at WV engineering colleges/universities, encouraging board members and faculty, students and administrators to meet and discuss important licensure issues.

Rosier-Tabor is actively involved with NCEES as well. She has served on at least one NCEES committee or task force for the last nine years. Her committee responsibilities have included consultant to the 2011-12 Committee on Examination Policy, member of the Computer-Based Testing Task Force (2007-2011), Continuing Professional Competency Task Force (2005-2006), Exam Administration Task Force (2003-2005), Credentials Evaluation Advisory Group (2011-2012), USCIEP Advisory Committee (2009), and NE Zone representative to the Member Board Administrators Networking Group (2004-2011). She was also instrumental in organizing and hosting the 2006 NCEES Northeast Zone interim meeting in Charleston, West Virginia in addition to serving as Chair of the NE Zone's Awards Committee for six of her 8 years of NE Zone committee service.

Outside of NCEES, Rosier-Tabor has also been an active member of the American Society of Civil Engineers for nearly 25 years and has served several terms on numerous state and national committees. She is a past president of the West Virginia section of ASCE, has served in all other elected leadership roles at the state level, and was also a long-time faculty advisor and practitioner advisor of the ASCE student chapter of the West Virginia University Institute of Technology. Recognized for her efforts, she has received several state and national ASCE awards including the WV Young Civil Engineer of the Year, the National Young Government Civil Engineer, as well as the 2010 WV Civil Engineer of the Year. She is also a member of the Tau Beta Pi Engineering Honor Society, the Phi Kappa Phi Engineering Honor Society and Chi Epsilon Engineering Honor Society.

When asked about the recognition, Ms. Rosier-Tabor was quick to point out that it was so very gratifying to be recognized with not just one but two awards of this significance within a few short months of each other, but the real honor and privilege is working with our WV PE Board members and staff, all individuals who truly care about their work, love their jobs and work tirelessly each and every day for the betterment of the engineering profession. Noting that the NCEES work has been very rewarding in and of itself, Lesley pointed out during her acceptance speech that both awards came as complete surprises. So much so that during her first recognition in Delaware, she had to chuckle as she reported she had no family present in the audience to recognize or thank for their support over the years because she did not plan for their attendance. Instead, her husband and daughter ditched her for a weekend of camping at Lake Moomaw because the fish were biting and the water was finally calm and clear enough for some great canoeing!

When receiving her NCEES National Award at St. Louis in August, Lesley did have a little more advance notice and her husband was present to witness the presentation. However, during her acceptance speech, she noted that as much as you love your career, there are always tough decisions to make ... such as attending that night to receive this important award or missing their only daughter starting her first week of first grade and possibly missing out on her pulling her first tooth! It is unbelievably hard to juggle and balance between career and family, but we are happy to report they headed home quickly after the event came to a close and did not miss out on the tooth fairy!

Congratulations Lesley!

Board Updates

NCEES Committees Make Use of WV Talents

Once a year, the President-Elect of the National Council of Examiners for Engineers and Surveyors (NCEES) solicits help from individuals who are qualified and interested in serving on national committees and task forces. This request is one which needs to be carefully considered, knowing those selected assume a responsibility to attend one or more weekend meetings in the fall and winter months to enable committee work to be completed in early spring, share their findings at the Zone meetings and publish their final reports in the Council's Annual Meeting Report. Committee members also participate in e-mail correspondence and conference calls and assist with preparation of draft reports. Some committees, such as exam committees, are required to meet several times each year, which requires even greater amounts of dedicated time and effort.

West Virginia Board members and staff recognize the importance of staying involved at the local, state and national level with NCEES, as well as other engineering organizations, and regularly give their time, energy and knowledge in an effort to create and maintain a licensing system for engineers that has proven worthy of worldwide emulation. In the box above is a brief list of current assignments the WV Board and staff have been selected for, tackling some very important issues and providing significant contribution to the Council and the regulation of the profession.

The Youngest Addition to Our PE Board Family

Tiffany Davis and Michael Coleman are the extraordinarily proud parents of a sweet baby girl, Carley Elizabeth Coleman. Carley was welcomed into this world on August 10, 2012. She weighed in at 5 pounds and 8 ounces and was 21 inches in length.

You may recall that her proud mother, Tiffany Davis, is our newest staff member who was introduced to our professional engineering community in the 2011 edition of the *Interchange*. Tiffany served as a summer intern in both 2006 and 2007 and assisted with many extra duties during renewal season. After completing her college degree and working for a few years in the healthcare field, Tiffany then re-joined our staff in November of 2010 as a permanent employee and one of the two Administrative Assistants for our agency. Among her many responsibilities, she stays most busy handling all Certificate of Authorization (COA) issues for the office including new COA applications as well as renewals.

The photo shown here was taken at 2 months of age as Carley prepared to watch a Marshall University football game with her family. She dons her adorable "Big Green" hair bow as she cheers for the Thundering Herd, her mom's alma mater.

Congratulations Tiffany and Mike!

From One Board to Another

Our Administrator's Perspective

Sue Rubenstein, Board Administrator

I am happy to report that I am very quickly approaching my sixth anniversary with the West Virginia State Board of Registration for Professional Engineers. I began my career in licensure in 1991 with the West Virginia Supreme Court when I was offered a position as Bar Admission Administrator for the Board of Law Examiners. I had no idea what I was getting myself into but I began to learn very quickly what the field of licensure is all about.

After moving to the Professional Engineers Board in June 2007 I found that, while all Boards have as their basic premise the protection of the public, not all Boards are created equal and not all operate the same. The seven members of the Board of Law Examiners are appointed by the Supreme Court and are a part of the judicial branch of government. According to statistics published by the American Bar Association there were 4,854 resident active attorneys in West Virginia at the end of 2012. Rules regarding admission to the practice of law are developed by the Supreme Court. The five members of the Board of Professional Engineers are appointed by the governor and are a part of the administrative branch of government. While the numbers change on a daily basis, as of January 25, 2013, there were 7,610 Professional Engineers actively registered in West Virginia. Laws regarding the practice of engineering are found in Chapter 30 of the West Virginia Code and more specific rules developed by the West Virginia State Legislature and approved by the Board of Professional Engineers.

The scope of responsibility for the two Boards for which I have worked are very different. The Board of Law Examiners is primarily responsible for processing applications for admission to practice law, administering the two-day Multistate Bar Exam and the Multistate Essay Exam, certifying applicants as eligible for admission to practice after meeting all of the requirements of the Supreme Court and organizing admission ceremonies held before the Justices. There is a separate agency, the West Virginia State Bar, that handles the

continuing education requirements (CLEs), payment of dues and renewal of licenses. There is yet a third agency, the Office of Lawyer Disciplinary Counsel, that handles complaints against attorneys and investigation of wrongdoing by an attorney.

The Board of Professional Engineers is a "one-stop-shop" with just four full-time and one part-time dedicated, hard working staff members, assisted by a Deputy Attorney General in legal matters, handling all aspects of the licensure process, including exam, comity and reinstatement application processing,

to be released. After passing this exam plus a nationally administered ethics test called the Multistate Professional Responsibility Exam (MPRE) and meeting the other educational and fitness requirements of the Supreme Court, a new professional is fully admitted to practice law after attending a mandatory admission ceremony before the Justices of the Supreme Court. There is no work experience requirement for a new admittee to practice law, and there is no follow up examination after they begin their practice.

Professional Engineer licensure begins with passing the one-day Fundamentals

Dr. Bob Rubenstein and Sue Rubenstein at the Officer Installation Ceremony at the 2012 NCEES Annual Meeting in St. Louis, MO.

coordinating the administration of the engineering exams, overseeing the annual reporting and audit of continuing education requirements (PDHs), annual renewal of licenses and payment of renewal fees, the investigation of complaints and disciplinary matters. The Office of the West Virginia State Board of Registration for Professional Engineers is an extremely professional and efficient operation and I have been very proud to say that I am a part of this office for the last five and a half years.

There is a major difference between the two Boards I have worked with in how the professional licensure exams are administered. The Board of Law Examiners administers their two-day paper and pencil exam in Charleston in February and in July using Board staff. Results typically take about six to eight weeks

of Engineering (FE) Exam, obtaining an Engineer-in-Training (EIT) certificate after meeting other educational and fitness requirements of the Board and, after attaining four years of work experience under a Professional Engineer, passing the one-day Principles and Practice of Engineering (PE) Exam. Both of these engineering exams have traditionally been administered by the National Council of Examiners in Engineering and Surveying (NCEES) in Charleston and Morgantown in April and in October. The Fundamentals of Engineering Exam is currently undergoing a major overhaul and in 2014 will become a six-hour computer-based test scheduled individually at a Pearson VUE testing center anywhere in the country with an opportunity for an individual to sit for the exam as many as three times a year. Results will typically be available within 48

hours. New registrants who apply to West Virginia for their EIT certificate after passing the FE exam and meeting other educational and fitness requirements will receive the certificate by mail. There is no mandatory ceremony attendance required. The Board of Professional Engineers and the West Virginia Society of Professional Engineers invite applicants who passed the FE and PE exam in West Virginia to attend a program held each year in March at EXPO at the Charleston Civic Center to recognize their accomplishment. While it is not a mandatory ceremony, all those who pass the exams are encouraged to attend to celebrate the occasion and to be recognized by their families, their peers and the members of the West Virginia State Board of Registration for Professional Engineers.

The biggest difference I've encountered between the two Boards — the reaction to failed exam results. It seemed like almost every applicant who failed a bar exam called or came to the office to talk about their failed exam and they were often upset or distraught. I've found the reaction from engineers to a failed exam to be very different and much quieter. Those few who call or come by the office after getting their results don't say much about their failed attempt but are looking toward their next attempt and already trying to figure out ways to improve their performance next time.

The hardest thing about the licensure process for both professions — working with those applicants who are not successful test takers. The process can be extremely frustrating and can be very discouraging when you have the education and the knowledge but have difficulty in getting over the testing hurdle. Persistence does pay off in most cases and I always encourage examinees to try again. The Professional Engineers Board developed a Plan of Study Agreement Form several years ago to help applicants who failed the exam multiple times to focus on and improve their preparation efforts. Board members and staff have also conducted face to face interviews with applicants after multiple attempts. In

several cases, the Plan of Study and the face to face interview to discuss study strategies have been successful.

The best thing about licensure work — getting to meet so many young professionals as they begin the path toward a great career. I like to think I have helped ease the transition from student

to professional for many of our examinees as well as having helped more experienced professionals as they transition from work in one state to another through the comity process. I've met a lot of great people during the twenty-one years I have worked in professional licensure in the State of West Virginia.

WV Association of Licensing Boards:

Timms Receives Accolades as Outgoing NCEES Past-President

Leonard J. Timms, Jr., PE, and WV PE Board member, recently completed his 5-year term on the NCEES Board of Directors and was recognized by the incoming leaders of the Council at the NCEES Annual Meeting in late August 2012. Timms was the first West Virginian to serve as the national NCEES President and had the privilege of traveling across the United States, as well as around the world, to speak on a subject near and dear to his heart—the importance of Professional Engineering licensure and our duty to protect the health, safety and welfare of our people.

As outgoing past NCEES President, Mr. Timms remained on the NCEES Board of Directors through August 2012 as immediate past president and completed his half-decade of service, thus fulfilling his NCEES Board of Directors responsibilities. While receiving a standing ovation from those in attendance, incoming President Dale Jans, PE, of South Dakota recognized Mr. Timms and his wife, Annabell, for their dedication and contributions to the society and the profession.

NCEES New Speakers Kit Available

NCEES has released a new Speakers Kit, with separate versions for engineers and surveyors, to help promote the benefits of becoming licensed. The Speakers Kit has played a central role in outreach activities of NCEES and PE Boards around the country since its introduction in 2003. Licensing board members, board administrators and other professional engineers and surveyors across the United States have used the multimedia presentation to explain the licensure process as well as the benefits and responsibilities of licensure to engineering and surveying students and young professionals.

The new Speakers Kit for Engineers addresses key concerns of today's students: how to find a competitive edge in today's job market and how licensure can prepare them for the unknown. In addition to explaining the licensure system and the steps to becoming a professional engineer, the presentation focuses on personal benefits:

- A PE is a member of a profession.
- A PE license opens career doors.
- A PE license commands a higher salary on average.

This message is also important for the other key audience of the Speakers Kit: working, unlicensed engineers. "For those engineering disciplines that have a lower percentage of PEs, we want to show how, even though they may not be required to hold a license, there are very real benefits to doing so," McDowell explained. NCEES designed the new Speakers Kit with greater flexibility in mind. Speakers can add or remove content more easily. Slides can be customized for specific groups, such as chemical or mechanical engineering students, or for a state's specific licensure requirements.

As part of its outreach efforts, NCEES also organizes Speakers Link, a network of licensed engineers and surveyors who are available to talk to students and young professionals about the licensure process—and how licensure has benefited their careers. When NCEES receives a request for a speaker, it looks for a local Speakers Link volunteer who can give the presentation.

To download the NCEES Speakers Kit, request a speaker, or volunteer to be a part of Speakers Link, go online to the Licensure section of ncees.org and click on Outreach.

"The best way to learn about licensure and its importance is from someone who knows firsthand," said Davy McDowell, P.E., NCEES associate executive director. "The Speakers Kit is designed to make it easy for professional engineers and surveyors to speak—and to get them in front of students to tell their stories."

Board Disciplinary Actions

In meeting its mission of safeguarding life, health and property, and to promote the public welfare, the WV Board actively enforces the statutes and rules that fall within its jurisdiction. Below is a summary of formal complaints that resulted in disciplinary action since the 2012 newsletter. Numerous other investigations were conducted, some resulting in formal complaints which are still pending; some dismissed because the charges were unsubstantiated or considered trivial; and some closed after acceptable corrective action or warning.

The actions below were either a result of a formal hearing resulting in a Board Order or an informal settlement resulting in a Consent Order. These orders are public records. If you are interested in knowing more about the nature of the complaint, you may request a copy pursuant to the State's Freedom of Information Act. All Final Orders are posted on the Board website.

All civil penalties are made payable to the State of West Virginia and are deposited in the state's general fund. Administrative costs are made payable to the WV PE Board and are retained by the Board to offset costs incurred in the investigation and complaint resolution efforts. Administrative costs may be waived if the complaint is resolved with a minimum of expense, including staff time.

DISCLAIMER: Every effort has been made to ensure that the enforcement information is correct; however this information should not be relied upon without verification from the Board office or website. It should be noted that the names of companies and individuals listed may be similar to the names of parties who have not had enforcement actions taken against them. Should you have any specific questions regarding the disciplinary actions noted above, please contact the Board office.

Investigator's Corner

Don Johnson, PE, Board Investigator

As I said last year, the number of registrants continues to grow. The main area of growth

seems to be comity applicants working in the gas industry. We currently have about 7500 PEs registered in West Virginia and about 2500 companies hold Certificates of Authorization (COAs) to practice engineering in our state. The majority of these are out-of-state registrants. The number of complaints continues to be low. The largest problem continues to be practicing or offering to practice without a license and/or a COA. We did see a few complaints for practicing outside of the person's expertise and sealing work not prepared under the engineer's direct supervision or control. Even though WV doesn't license by discipline the rules of Professional Responsibility require a person to only practice in areas where they have the education and/or experience in the field of engineering involved.

Certificate of Authorization Requirements:

The emphasis on COAs continues. We changed the question on the renewal form. It now asks you to provide the COA number that you are working under or the reason why you do not need to be working under a COA. We provided a space to explain the reason you think you don't need to be working under a COA. If you failed to provide the COA number or answer the question, you were added to the audit list. This resulted in a higher than usual number of audits.

There are a lot of valid reasons why you don't need to be working under a COA. The most common is that you are working for a governmental agency or under an industrial exemption. If you are an employee of one of these entities and you do not offer to practice engineering in WV in any other way (private practice, moonlighting, part-time, etc.), then you are most likely exempt. There are some industries that are not exempt. This is addressed later in this article. The next most common reason is licensed in WV but not practicing or offering to practice in the state. In that case, all you need to do is say this in the response block. A response as simple as "neither I nor my company is practicing or offering to practice engineering in WV and have no plans to do so in the upcoming year" will suffice in most cases. A lot of registrants who

plan on returning to WV or this is their home state and they want to maintain their WV license for personal reasons fall into this category. There are other reasons that you don't need to have a COA such as unemployed or retired, but these relate to not practicing or offering to practice engineering in WV. If you have any doubts or questions regarding the need for a COA, please give me a call. It is a lot easier to answer a question than go through the audit process.

Again this year we found a number of firms practicing or offering to practice engineering in WV without a COA who claimed to be operating under the industrial exemption. Remember, if you are offering engineering services in WV either directly or indirectly (through an engineered product customized for a specific end use or a product requiring an engineer's seal to sell it), then you need to be licensed as a WV PE and you or your company needs to have a COA. Examples of this may include metal buildings, building trusses, pre-manufactured concrete building elements and other similar items.

As I reviewed the COAs as part of the renewal process, I found something unusual. There were several people who listed their firm name as "John Doe and Associates" or "John Doe Engineers" but were registered as a sole proprietor. A sole proprietor, according to WV engineering law, means NO employees. There is no renewal fee for a sole proprietor COA. One of two things is possible: the engineer has employees and is not paying the fee or the engineer is misleading the public into believing it is a larger company than it actually is. Either way is cause for concern.

Professional Development Hour Issue:

A major problem we continue to find in the audit is failure to fill out the form correctly. This mainly occurs in listing incorrect dates on the form. The way the dates are reported makes PDHs fall outside of the renewal period which results in an audit.

We continue to see an on-line PDH provider who reports the PDHs as continuing education **HOURS**. Our registrants interpret them as continuing education units (CEUs) which count for 10 PDHs and as a result claim more PDHs than they earned. Remember you can only get credit for the actual amount of time it took you

to complete the activity up to the maximum stated by the course provider.

We also see people who report completing a large number of PDHs in one day. In most cases the registrant prints out the course information one day and reviews it for a few days or even weeks and then takes all of the examinations in one day. There is nothing wrong with this, but to avoid getting audited, you need to report the day you started the review as the beginning date and the exam date as the completion date. The reason we look at this is there are some course providers whose material can be completed in a lot less time than advertised. Remember, you only get credit for the time it actually took to complete the activity, up to the maximum listed by the course provider.

Things Worth Repeating:

As we have said in the past, keeping your Board record up to date is important. If your address changes without our knowledge, obviously you will not receive the necessary official correspondence such as renewal notices and audit notices. Failure to respond to either of these can result in your license lapsing or being invalidated. Reinstatement involves an application package, references and an additional fee. It can be a hassle. This could potentially lead to a case of unlicensed practice if the person does not realize his license has been lapsed or invalidated and he continues to practice or offer to practice engineering in WV.

Failure to report a change in employers can also be problematic, especially if you are the Engineer in Responsible Charge (EIRC) for the company. First, since you are listed as the EIRC, you could wind up explaining your previous employer's actions should a problem arise. Second, and of more concern, you could ultimately be responsible for a company that is not qualified offering engineering to the public. A PE, as well as the company, has 30 days to notify the Board should a change of EIRC occur.

What Exactly is an Invalidated License?

A registrant's license is invalidated when he or she fails to respond to the annual audit or is unable to provide sufficient proof that any condition of renewal is met, such as inadequate proof of obtaining the required continuing education.

West Virginia does not treat invalidation as a disciplinary action. It does not get reported to NCEES and does not affect Model Law Status for those registered with NCEES, but the license invalidation DOES appear in the Board's newsletter. *As a cautionary note, this is not true of all states. Failure to respond to an audit or responding late to an audit can result in disciplinary actions in some states.*

Remember:

When in doubt, give a shout! Our goal is to be proactive, not reactive, and we are here to help answer your questions before they develop into issues that must be brought to the attention of the Board.

Your WV Company COA Matters

Below is the Certificate of Authorization (COA) questions asked of each professional engineer who completed their required 2012 renewal form. The same information will again be required during the 2013 renewal season beginning in late May 2013.

West Virginia Engineering Law, specifically WV Code §30-13-17 and WV Rule §7-1-11.2, requires you and/or your employer to have a Certificate of Authorization (COA) issued by our agency to practice or to even offer to provide engineering in this state. All PEs that are licensed to practice engineering (or would like the ability to offer engineering services) in the state of West Virginia should be linked to at least one Certificate of Authorization (COA) number issued by our WV PE Board office and assigned to an authorized firm. The Board must fully understand your current engineering employment situation so please provide the COA number(s) and firm name(s) under which you should be linked. This should include your current employer(s) as well as your personal COA if you plan to offer engineering services in WV during this license year (meaning if you own your own firm or practice under your own WV PE license "on the side" or outside of the COA coverage of your regular employer(s)).

Your WV PE Board COA numbers should not be confused with your Certificate of Authority to do business that is issued through the WV Secretary of State's Office. The WV PE Board COA number will be in the format of C09876-00. If you do not know this number, please visit our website to perform a search for your company name or contact your company's Engineer In Responsible Charge for details.

Employer/Company COA Affiliation

Primary Employer Name: _____ * WV COA Number: _____ *

Secondary Employer Name: _____ * WV COA Number: _____ *

Personal/Sole Proprietor Name: _____ * WV COA Number: _____ *

- * The above six (6) lines regarding your COA affiliations must each contain a response. If "Not Applicable", you must list N/A in the required fields where a COA is not relevant to your current practice. *If you list N/A in all fields, meaning you are not practicing or even offering engineering services in WV or believe your employer does not require a COA due to an industry or government exemption, simply include a statement outlining the details of your special circumstances, basic reason for licensure or explanation of your exempt status.*

An Important, Proactive Reminder:

Our Board has taken disciplinary action against firms practicing or offering to provide engineering services without the required COA, and therefore we are attempting to be proactive in educating our licensees regarding the need for a COA and properly linking their engineering work to one or more authorized firms. If you do not have a WV COA permitting you or your current employer to practice, you must download and mail a completed COA application for immediate processing by our office before pursuing any additional work on projects within our state. **Sole proprietors with NO employees must also have a COA. There is no charge for COA applications for sole proprietors with NO employees other than yourself on the payroll.** If you are submitting a COA application for processing, you may still complete this PE renewal process. Simply note PENDING in the COA number fields above.

Counsel's Column

Are You Talking to Me?

Debra L. Hamilton, Board Counsel and Deputy Attorney General

Remember that scene in *Taxi Driver*? Robert De Niro clearly wasn't talking about renewing his engineering credentials, but it is also clear that many engineers applying for renewal of their West Virginia license don't think the Board is "talking to them" when asking the following question:

"Since your last WV PE renewal, have you been subject to any disciplinary action or any investigation by any local, state or national regulatory body (including those in WV) or have you been convicted of or pled no contest to a misdemeanor or felony?"

There have been times when a renewal applicant marks 'no' and it is later learned that the answer clearly was 'yes.' Apparently this is not just a problem in West Virginia. Peggy Abshagen, the Executive Director of the Delaware PE Board, wrote an article for the NCEES Licensure Exchange entitled "Is this disciplinary action?" since a lot of Delaware's applicants thought the question didn't apply to them. Her article inspired this one for WV PEs.

Importantly, the question on West Virginia's renewal form is broader than actual discipline and asks about regulatory boards, which is broader than licensing boards. It should be easy to know if you were investigated by a regulatory body or involved in a criminal matter for which you were convicted or entered a no contest plea. If there were criminal matters, you need to answer 'yes' and explain. Same thing if you have received a communication from a regulatory body asking questions about matters that may trigger some disciplinary or other enforcement action, even if no such action has been taken.

You may be less sure about what constitutes 'disciplinary action.' There are many meanings for the word 'discipline.' PEs use the word to describe their area of education, experience and expertise. In this context, however, the following meanings are more applicable: a systematic method to obtain obedience, a state of order based upon submission to rules and authority, punishment intended to correct or train.¹

W. Va. Code 30-13-21 sets forth various grounds for disciplinary action and authorizes various forms of discipline, including suspension, revocation, nonrenewal or non-issuance of a license, probation, civil penalties and reprimands. The Board has imposed or agreed to all these forms of discipline and has at times exercised its authority and discretion to require or allow the professional engineer to take additional education, practice under supervision, or any other remedy that serves to address the violation while protecting the public.

When a complaint is not dismissed by the Board and disciplinary action is being pursued, West Virginia Engineering Law provides for a number of ways to get the matter resolved: negotiation

West Virginia PE Board will almost assuredly know if a person or firm applying for licensure or renewal in West Virginia was disciplined by another engineering board and the Board often learns of other investigations, disciplinary actions or criminal matters.

Clearly, your best and safest bet is to self-report any investigation, disciplinary action or criminal matter because not providing the information or misstating the information may also subject you to discipline for providing misinformation to the Board. Like Delaware's executive director stated in her NCEES article, enforcement is as important as the three E's that qualify someone to be an engineer (education, examination and experience). And those aren't

with Board counsel, informal conferences with the Board, or a hearing before the Board. The first two result in a Consent Order which is agreed to by both the Board and the person or firm being disciplined. A hearing may result in a Board Order, which is discipline imposed by the Board without the Respondent's consent. Both types of orders are disciplinary actions, and both must be reported.

The West Virginia Board also reports these orders to the NCEES Enforcement Exchange database, as do most PE licensing boards. The

the only important E's in Engineering, because ethics and expertise are also required.

So, yes, the Board is talking to you. If you have paid a civil penalty, been required to take a class, or been reprimanded by a regulatory board, you have been disciplined. It doesn't matter if you agreed to the action or the Board imposed it, it is still discipline. Point it out yourself before someone else points it out for you. Err on the side of reporting anything that may be responsive to the Board's question. You'll be glad you did.

¹ Taken from the American Heritage Dictionary. Merriam-Webster has similar definitions: punishment; training that corrects, molds, or perfects the mental faculties or moral character; control gained by enforcing obedience or order; a rule or system of rules governing conduct or activity.

Important Changes to NCEES Exams

2013 NCEES PE Exam Changes

In the April 2013 exam administration, NCEES will implement changes to two PE examinations and introduce a new examination.

- **PE Software Engineering**—The Principles and Practice of Engineering (PE) Software Engineering exam will be offered for the first time in April 2013.
- **PE Industrial**—The PE Industrial exam will have new specifications and move to a spring administration schedule in April 2013. October 2012 was the last time this exam was offered in the fall.
- **PE Civil**—The PE Civil exam will have revised design standards for the Construction, Civil Structural, and Transportation modules starting in April 2013.

The new exam specifications are attached and are to be posted on ncees.org.

Important NCEES FE Exam Changes

NCEES is scheduled to complete the transition of the Fundamentals of Engineering (FE) and Fundamentals of Surveying (FS) exams to computer-based testing (CBT) on January 1, 2014. The transition to CBT involves significant changes to the format of the exams and the procedures for administering them.

In 2010, the Council approved a motion that NCEES prepare and administer the FE and FS exams via CBT at the earliest feasible date.

Since that action, NCEES has worked with our selected CBT vendor, Pearson VUE, to complete the transition of these exams from a pencil-and-paper format to a CBT delivery system. A content review was completed for the FE and FS exams, which resulted in new specifications for each exam. The new specifications are posted on the NCEES website (ncees.org/cbt).

The following information concerning the conversion of the FE and FS exams is provided for your information and dissemination as appropriate:

- The October 2013 exam administration will be the last administration of the FE and FS exams in pencil-and-paper format. Effective January 1, 2014, the FE and FS exams will only be offered via CBT.
- Computer-based FE and FS exams will be administered only at approved Pearson VUE testing centers.
- Registration for all exams will open Monday, November 4, 2013. The first available seating at a Pearson VUE testing center for the FE and FS exams will be Tuesday, January 2, 2014. Registration for the PE and PS exams in pencil-and-paper format will be for the April 2014 administration.
- There will be four testing windows for the FE and FS exams annually. Each of these windows will last two months, with a month between them. Therefore, exam appointments will be available in January and February, with no exams offered in March; exam appointments available in April and May, with no exams offered in June, etc.
- Candidates for a CBT exam may take the exam only one time per testing window and no more than three times in a 12-month period.
- Effective with the opening of registration on November 4, 2013, candidates registering to take the FE or FS exam will be required to pay NCEES directly for all exam-related fees. This will be included as a part of the online registration process and will require payment with MasterCard or Visa.

NCEES
advancing licensure for
engineers and surveyors

The NCEES pages contain an overview of recent news releases received from the National Council of Examiners for Engineering and Surveying (NCEES), as well as NCEES Licensure Exchange, concerning items that may be of interest to our engineering community. Some of these articles may have been adapted to fit the space allocated. For more information on any of these updates, or to review the full news releases, simply visit the NCEES website at www.ncees.org.

- The FE and FS exams will be six hours in length, which will include a tutorial, breaks, the exam, and a brief survey at the conclusion of the exam.
- The FE and FS exams will continue to be closed book. Supplied reference material for the exams will be electronic and will be available on the NCEES website.
- Examinees will be allowed to bring and use NCEES-approved calculators on CBT exams.
- Sample exams for the computer-based FE and FS will be available for purchase after the October 2013 exam administration.

The NCEES exam committees, Computer-Based Testing Implementation Task Force, and NCEES staff continue to work to finalize details related to this significant change in the future delivery system of the FE and FS exams. They are also working with Pearson VUE to identify potential sites for new testing centers to ensure there is adequate seating capacity at locations convenient to our candidate population centers. For West Virginia, Pearson VUE already has testing sites in Charleston and Morgantown so our exam candidates should not expect to experience any changes in geographical locations of our testing centers.

The WV State Board of Registration is currently preparing submissions to the WV Legislature to update their Engineering Law and Rules to reflect the new method of applying for and taking the FE exam.

The End of One Chapter Marks the Beginning of Another

The WV PE Board and engineering community were saddened to learn that our oldest active PE, Alexander Brast Thomas, passed away on August 20, 2012. Commander Alexander Brast Thomas, United States Navy (Retired) was a long-time Huntington, WV resident and third-generation Civil Engineer and retired Naval Officer. He was born in Cincinnati, Ohio on April 28, 1914 and lived to be 98 years old.

Mr. Thomas ran two engineering businesses and carried the oldest assigned active WV PE number of #2360 assigned to him on September 11, 1950. Archived records indicate that Mr. Thomas had maintained Active PE status for a total of 62 years! Mr. Thomas was very loyal to the engineering profession and was very active in the Engineers Club of Huntington as well as the American Society of Civil Engineers. Ms. Rosier-Tabor recalls receiving a phone call from Mr. Thomas during license renewal season nearly every year of the last

11 years she has been employed with the Board. Rosier-Tabor stated "He never once complained of the continuing education requirements like many of our younger 'whippersnappers' do, but praised the Board for being one of the first in the country to enact such legislation. He often said 'it keeps the mind healthy, curious and growing' and then chuckled saying 'some of us need a little more than others!'"

As we close one early chapter in the Board's history books, we open another. On December 18, 2012, the Board crossed a monumental mark by assigning WV PE #20000 to comity applicant Mr. Timothy Dallas. Mr. Dallas is a Principal Engineer for URS Consultants in Cleveland, Ohio. The WV PE Board welcomes Mr. Dallas and wishes him a very long and prosperous career. We can only hope that he takes such pride in his PE license and the engineering profession as Mr. Thomas did and serve this unique WV PE number well into the future.

Alexander Brast Thomas

He never once complained of the continuing education requirements ... but praised the Board for being one of the first in the country to enact such legislation. He often said "it keeps the mind healthy, curious and growing" and then chuckled saying "Some of us need a little more than others!"

! Red Flags

Watch out for these issues:

- Architectural sheets sealed by an engineer
- Engineering sheets sealed by an architect
- Plans sealed by an unlicensed person, architect or engineer
- Plans sealed by an engineer of an unauthorized firm (one without a COA)
- Incomplete documents sealed without a disclaimer
- Plans that have not been sealed, signed (dated) by the licensee(s)
- Prototypical, standard plans that do not bear the seal of the WV licensee and disclaimer
- Seals that appear to be cut and pasted
- Contact person is not the licensee or it is difficult to contact the licensee
- Plans, details, letters, reports, etc. do not appear to apply to the project
- Plans have numerous or serious code violations
- Non-dated revisions
- Revisions or changes missing seal, signature (date)
- Plans which do not list the name of the architect or engineer involved and the name of his/her firm.

? What to do?

- Question the professional as to circumstances and qualifications
- Get the issue corrected
- Reject the documents
- Contact the appropriate licensing board
- File a complaint with the appropriate licensing board

e Engineering Addendum:

Are the services of a registered professional engineer required for single family residential structures?

Single family residences do not normally require the design services of professional (structural) engineers except for some large custom designed homes where the owner requests the services or the spans are too large for typical code-specified framing to work. Generally the only times a structural engineer will become involved in a single family residence are as follows:

- Where there is a problem with the foundation or framing of the house, such as storm damage, soil movements, or unusual deflections and damages in the architectural finishes.
- When an existing house is being sold and the mortgage company is looking for someone to identify and describe the various structural movements and damages that have occurred in the structure, as well as provide some recommendations of what should be done to eliminate the problems.
- When the design of the house involves a structural system which is outside of the typical structural framing and foundation systems specified in the residential building code or when the building code requires engineering services.

Introduction

The licensing of Professional Engineers began in the State of Wyoming in 1907. The West Virginia State Board of Registration for Professional Engineers (WV PE Board) was formed to oversee the licensing of engineers in West Virginia in 1931. Article 13 – the part of the professional licensing chapter of the code (Chapter 30) that regulates Professional Engineers – was first enacted in 1992. The statutes in W. Va. Code 30-13-1 et seq. and Series 7 of the Code of State Regulations are the primary components of what is referred to as “West Virginia Engineering Law.”

Laws requiring professional licensure and regulating the practice of that profession are enacted under the police powers of the State. The primary purpose is to protect the public. Through its statutes and rules, the WV PE Board works to safeguard life, health and property and promote the public welfare. This is done, in part, by requiring professional engineers to meet specified minimum standards, follow certain procedures, and practice in accordance with their rules of professional responsibility.

Those licensure standards, and the procedures and rules that govern those who have been granted the privilege to practice engineering in West Virginia, can be found in these pages. It is hoped that the information provided here helps you understand the substantive and procedural aspects of West Virginia Engineering Law. The staff and its counsel are always available in the event you need more information or have questions regarding the Board’s implementation and application of West Virginia Engineering Law.

The Board and staff work diligently to carry out our responsibilities to the public, the State of West Virginia, and to the professional engineers licensed in West Virginia. The more that these entities know, understand and comply with West Virginia Engineering Law, the easier our job will be, and we can all work together to ensure that West Virginia’s professional engineers are providing good service to the State and its people.

NOTE RE: 2013 AMENDMENTS TO STATUTE & EFFECT ON RULES:

In 2013, the WV Legislature amended Sections 6, 13, 15 and 17 and added a new section 13a. In the Fall of 2013, legislative rules will be filed for comment with the Secretary of State and posted here to implement these statutory changes, which will also be filed as emergency rules that will become effective in 2014.

You will always be able to find the rules in effect and any proposed rules on this website and on the WV Secretary of State’s website at <http://www.sos.wv.gov/administrative-law/Pages/Rules.aspx>.

The Legislature hereby determines the need to regulate the practice of engineering; to provide for the registration of qualified persons as professional engineers and the certification of engineer interns; to define the terms “engineer”, “professional engineer”, “engineer intern” and “practice of engineering”; to create a state board of registration for professional engineers and provide for the appointment and compensation of its members; to fix the term of members of the board and define its powers and duties; to set forth the minimum qualifications and other requirements for registration as an engineer and certification as an engineer intern; to establish registration fees with expiration and renewal requirements; to impose certain duties upon the state and political subdivisions thereof in connection with public works; and to provide for the enforcement of this article and penalties for its violation.

§30-13-2. General provisions.

In order to safeguard life, health and property and to promote the public welfare, the practice of engineering in this state is hereby declared to be subject to regulation in the public interest. It is unlawful for any person to practice or to offer to practice engineering in this state, as defined in the provisions of this article, or to use in connection with his or her name or otherwise assume or advertise any title or description tending to convey the impression that he or she is a registered or licensed engineer, unless the person has been duly registered or exempted under the provisions of this article. Engineering is hereby declared a learned profession and its practitioners are held accountable to the state and the public by professional standards in keeping with the ethics and practice of other learned professions in this state. The practice of engineering is a privilege granted by the state.

§30-13-3. Definitions.

Unless the context in which used clearly requires a different meaning as used in this article:

- (a) **“Board”** means the West Virginia state board of registration for professional engineers as provided for in this article.
- (b) **“Consulting engineer”** means a professional engineer whose principal occupation is the independent practice of engineering; whose livelihood is obtained by offering engineering services to the public; who serves clients as an independent fiduciary; who is devoid of public, commercial and product affiliation that might tend to infer a conflict of interest; and who is cognizant of their public and legal responsibilities and is capable of discharging them.
- (c) **“Engineer”** means a person who is qualified to practice engineering by reason of special knowledge and use of the mathematical, physical and engineering sciences and the principles and methods of engineering analysis and design, acquired by engineering education and engineering experience.
- (d) **“Engineer intern”** means a person who has qualified for, taken and has passed an examination in the fundamental engineering subjects, as provided in this article.

- (b) The board's rules for examination shall include the following minimum requirements:
 - (1) An examination to qualify to be an engineer intern, to test the applicant's knowledge and understanding of the fundamentals of engineering; and
 - (2) An examination to qualify as a professional engineer, to test the applicant's knowledge and understanding of the principles and practice of engineering.

- (b) An unexpired and unrevoked certificate is prima facie evidence that the person named on it is entitled to all rights, privileges and responsibilities of a professional engineer.
- (c) Every registrant shall obtain a seal for use in identifying his or her official professional work. The complete dominion and control includes possession of the sealed and signed reproducible construction drawings with complete signed and sealed design calculations indicating all changes in design.

- (d) The board shall issue to any applicant who, in the opinion of the board, has met the requirements of this article, an enrollment card as engineer intern, which indicates that his or her name has been recorded in the board office. The engineer intern enrollment card does not authorize the holder to practice as a professional engineer. - (c) No person or firm is relieved of responsibility for the conduct or acts of its agents, employees, officers or partners due to compliance with the provisions of this article. No individual practicing engineering under the provisions of this article is relieved of responsibility for engineering services performed due to his or her employment or other relationship with a person or firm holding a certificate of authorization.
- (d) An engineer who renders occasional, part-time or contract engineering services to or for a firm may not be designated as being in responsible charge for the professional activities of the firm unless that engineer is an owner or principal of the firm.
- (e) The Secretary of State shall not issue a certificate of authority or business registration or license to an applicant whose business includes, among the objectives for which it is established, the words engineer, engineering or any modification or derivation thereof unless the board of registration for this profession has issued to the applicant a certificate of authorization or a letter indicating eligibility to receive the certificate. The certificate or letter from the board shall be filed with the application filed with the Secretary of State to do business in West Virginia.
- (f) The Secretary of State shall decline to register a trade name or service mark which includes the words engineer, engineering or modifications or derivatives thereof in its business name or logotype except those businesses holding a certificate of authorization issued under the provisions of this article.
- (g) The certificate of authorization may be renewed in accordance with board rule upon payment of the required renewal fee.
- (h) Every holder of a certificate of authorization has a duty to notify the board promptly of any change in information previously submitted to the board in an application for a certificate of authorization.

§30-13-18. Expirations and renewals.

Certificates of registration and certificates of authorization for firms expire on the last day of the month of June following issuance and are invalid after that date unless renewed. The secretary of the board shall notify every person registered and every firm holding a certification of authorization under this article of the pending expiration of a certificate of registration or certificate of authorization issued to that person or firm including notice of the fee required to renew the registration or certificate. The notice shall be mailed to the registrant or firm at their last known address at least one month in advance of the date of the expiration. An expired certificate may be renewed under rules promulgated by the board and may require reexamination and the payment of penalty fees.

§30-13-19. Reissuance of certificates.

A new certificate of registration or certificate of authorization to replace any certificate lost, destroyed or mutilated may be issued subject to the rules of the board. A charge established by rule shall be made for each new certificate.

§30-13-20. Public works.

Government agencies, authorities, officials and employees may not engage in the practice of engineering involving either public or private property unless the provisions of this article are met.

§30-13-21. Disciplinary action — Revocation, suspension, refusal to issue, restore or renew, probation, fine, reprimand.

- (a) The board may suspend or revoke or refuse to issue, restore or renew a certificate of registration of, or place on probation, impose a civil penalty or reprimand any professional engineer who has:

3.1. Hearing Panel.

- (a) Complaints regarding persons licensed by the Board and complaints regarding unlawful practice of engineering in this State or a request

for hearing regarding licensure or issuance of a certificate of authorization shall be heard and decided by the Board as a whole sitting as a Hearing Panel, except that any member of the Board who has a conflict of interest with regard to a particular complaint may decline to participate in such proceedings. Recusal is mandatory in any proceeding in which a judge, similarly situated, would be required to exercise recusal. The filing of a complaint by a Board member will not automatically be grounds for recusal. Recusal shall not prevent a Board member from testifying as a witness.

- (b) If recusals result in there being less than a quorum, the remaining unrecused members of the Board shall appoint a registered professional engineer who is not a member of the Board for each recused member to serve solely for the purposes of hearing and deciding such complaint.
- (c) The Hearing Panel shall conduct hearings, make findings of fact and conclusions of law, and issue administrative decisions and orders to enforce the provisions of W. Va. Code §30-13-1 et seq.

3.2. Location of Hearing Proceedings. Unless otherwise ordered by a majority vote of the Board, all hearings shall be heard at Charleston.

3.3. Quorum. A quorum shall consist of not less than three members of the Hearing Panel.

3.4. Presiding at Hearings.

- (a) The President of the Board shall serve as the presiding officer at hearings. In the event of the President's recusal, the Hearing Panel shall elect a presiding officer from among themselves who will preside for hearings on that complaint.
- (b) The presiding officer shall have the power to (1) administer oaths and affirmations, (2) rule upon offers of proof and receive relevant evidence, (3) regulate the course of the hearing, (4) hold conferences for the settlement or simplification of the issues by consent of the parties, and (5) dispose of procedural requests or similar matters.

3.5. Privilege and Immunity. All information provided, including documents and testimony given with respect to any complaint, investigation or proceeding under these rules, shall be privileged in any action for defamation or the like. All members of the Board, its counsel, and their employees shall be absolutely immune from civil suit in the same manner as members of the judiciary in the State for any conduct in the course of their official duties.

§7-2-4. Procedural Rules for Hearings.

- (a) Within sixty (60) days of filing complaint, the presiding officer shall set a hearing date and time. Notice of the hearing date and time shall be served on respondent and counsel for respondent, if any, by first class mail addressed to the last known mailing address of such

person. Such notices shall be mailed not less than thirty (30) days before the hearing date. All complaints, unless dismissed by the Board as unfounded, trivial or settled informally, shall be heard within six months after the date each complaint was received and filed.

- (b) Hearings may be rescheduled by the presiding officer and, once begun, continued from time to time, for cause shown as the interests of justice may require.

4.2. Prehearing Matters. The presiding officer, with or without the request of a party, may schedule a prehearing conference to narrow the issues to be heard, to estimate the time which will be required for the hearing, rule upon prehearing motions, and, when appropriate, negotiate informal disposition of the complaint.

4.3. Hearings Generally.

(a) Conduct and Order of Hearing.

- (1) Upon calling on for hearing any complaint, the presiding officer may cause the complaint to be read and shall offer the respondent the opportunity to reply. The Hearing Panel may receive evidence from its investigator or staff. Respondent, directly or by counsel, may present evidence in defense against the complaint. All testimony given shall be subject to cross-examination by the opposing party. The Board may receive rebuttal evidence after respondent's presentation. Any member of the Hearing Panel may inquire to any witness at any time.
- (2) After the receipt of all evidence, respondent and Board staff, directly or by counsel, may be allowed to make closing arguments.
- (3) If the respondent is not a natural person, the respondent shall be represented by counsel. The Board or its staff may be represented by counsel.
- (4) Failure of the respondent to appear, without cause, shall not result in delay or postponement of the hearing.

(b) The Record. The record of a hearing shall consist of the testimony and documentary and physical evidence admitted into evidence by the Hearing Panel, all judicially cognizable facts so noticed, and the administrative decision or order ruling upon the complaint. All hearing proceedings on the record shall be recorded by stenographic means. Any party may obtain a transcript of the proceedings at the party's expense.

(c) Testimony. Witnesses shall testify under oath or affirmation.

(d) Evidence.

- (1) The West Virginia Rules of Evidence shall apply. Irrelevant, immaterial, or unduly repetitious evidence shall be excluded. When necessary to ascertain facts not reasonably susceptible of proof under those rules, evidence not admissible thereunder may be admitted, except where precluded by statute, if it is of a type commonly relied upon by reasonably prudent persons in the

conduct of their affairs. The Hearing Panel shall be bound by the rules of privilege recognized by law. Objections to evidentiary offers and the ruling thereupon shall be noted in the record. Any party to any such hearing may vouch the record as to any excluded testimony or other evidence.

- (2) Only the evidence admitted into the record and judicially cognizable facts so noticed shall be considered in the determination of the complaint.
 - (3) Depositions may be taken and read or otherwise received as evidence in accordance with Rules 30 and 32 of the West Virginia Rules of Civil Procedure.
 - (e) **Conformance.** Upon motion of any member of the Hearing Panel or any party assigning error or omission in any part of any transcript, the presiding officer shall settle all differences arising as to whether such transcript truly discloses what occurred at the hearing and shall direct that the transcript be corrected as appropriate so as to make it conform to the truth.
 - (f) **Deliberations.** Hearing Panels may deliberate and issue decisions in person, by telephone conference, or by written correspondence, including electronic communications.
 - (g) **Open Meetings and Executive Sessions.** Pursuant to W.Va. Code §6-9A-1, the Board may by majority vote hold hearings under these rules in executive session unless the respondent requests an open meeting. In any event, the vote upon the final decision of the Hearing Panel shall be in open session.
- 4.4. Standard of Proof.** To impose any sanction or penalty, the findings of the Hearing Panel in support thereof must be proved by a preponderance of the evidence.
- 4.5. Subpoena and Contempt Power.** The Hearing Panel shall have power to issue subpoenas or any other lawful process through the presiding officer at the request of any party. Subpoenas may be issued for attendance of witnesses or the production of documentary evidence. Subpoenas and other process may be served in accordance with the West Virginia Rules of Civil Procedure. All witnesses shall be entitled to such witness fees and expenses as in any civil proceeding in this State. The Hearing Panel may apply to any circuit court for an order requiring any person to comply with the presiding officer's directions in maintaining order at a hearing or to compel compliance with subpoenas.
- 4.6. Criminal Convictions.**
- (a) An engineer who has been convicted of a crime that reflects adversely on the engineer's honesty, trustworthiness or fitness as an engineer, or of any felony, shall, within thirty days of entry of the order or judgment of conviction, forward a copy of the order or judgment to the Board's Administrator. A plea or verdict of guilty or a conviction after a plea of nolo contendere shall be deemed to be a conviction within the meaning of this rule. Any other person may file a copy of the order or judgment with the Board.

- (b) Upon receipt of the order or judgment, which shall be conclusive evidence of the guilt of the crime or crimes of which the engineer has been convicted, the Board Administrator shall treat the order or judgment as a complaint for misconduct and violation of professional responsibility.
- (c) A respondent may present evidence and argument in support of mitigation based on, but not limited to, the nature of respondent's misconduct, surrounding facts and circumstances, previous ethical violations, the willfulness of the conduct, and the adequacy of respondent's previous opportunity to present evidence.

4.7. Reciprocal Discipline.

- (a) A final adjudication in another jurisdiction, whether state or federal, of misconduct constituting grounds for discipline of a registered professional engineer in that jurisdiction or a voluntary surrender of a license to practice engineering in connection with a disciplinary proceeding in that jurisdiction shall, for the purposes of proceedings under these rules, conclusively establish such conduct.
- (b) A registrant in this State against whom any form of public discipline has been imposed by the authorities of another jurisdiction, whether state or federal, or who voluntarily surrenders his or an aggravating factor in any subsequent disciplinary proceeding. Any other person may notify the Board of such action by submitting a complaint.
- (c) If the registrant intends to challenge the validity of the disciplinary order entered in the foreign jurisdiction or the voluntary surrender of his or her license to practice engineering in connection with a disciplinary proceeding, the registrant must request a formal hearing and file with the Board a full copy of the record of the disciplinary proceedings which resulted in imposition of the disciplinary order or the voluntary surrender of a license to practice engineering.

§7-2-5. Disposition of Complaints.

5.1. Administrative Decisions and Orders.

- (a) Any party may submit proposed findings of fact and conclusions of law as permitted in the discretion of the presiding officer.
- (b) After a hearing upon a complaint is completed, including an instance in which the respondent defaults, the Hearing Panel may make findings of fact and conclusions of law and shall issue the appropriate administrative decision or order.
- (c) The Hearing Panel may make findings of fact and conclusions of law in connection with the hearing and in conformity with applicable law notwithstanding the failure of the complaint to allege the grounds therefor.
- (d) Informal disposition may also be made of any complaint by stipulation, agreed settlement, or consent order provided, however, that a hearing

upon any pending complaint set pursuant to Rule 4.0 shall not be cancelled other than by a respondent's acceptance of such proposed informal disposition.

- (e) All dispositions of complaints shall be signed by the presiding officer. A copy shall be maintained in the permanent records of the Board.
 - (f) The official determination of the Hearing Board shall be made by majority vote of the Hearing Panel. The presiding officer shall vote in every matter but shall reserve his vote to the last. Any minority of the Hearing Panel may preserve its opinion in written form submitted at or not less than ten days after the entry of the majority's administrative decision or order.
 - (g) A copy of the administrative decision or order shall be served upon each party and his counsel in person or by registered or certified mail within five days after entry by the presiding officer.
- 5.2. Unlawful Practice.** In addition to disciplinary actions authorized by W. Va. Code §30-13-21, if the administrative decision or order finds that the respondent is engaging in the practice of engineering in this state without being registered, the Board may request the prosecutor of any county to prosecute the respondent pursuant to W. Va. Code §31-13-23 or the Board may file a complaint seeking an injunction to enforce the provisions of W. Va. Code § 31-13-1 et seq. Nothing in these rules shall prohibit the Board from requesting prosecution or seeking an injunction without prior notice and opportunity for hearing to the person who is believed to be in violation.

TITLE 7

SERIES 3

INTERPRETIVE RULE

§ 7-3-2. Checking another registrant's work.

The second sentence of the second paragraph of W. Va. Code 30-13-16(c) sets a standard by which a registrant checks the work of an out-of-state registrant. The reviewing registrant must “completely check and have complete dominion and control of the design” which “includes possession of the sealed and signed reproducible construction drawings with complete signed and seal design calculations indicating all changes in design.”

W. Va. Code R 7-1-7.3(g) also discusses the standard for checking the work of an out-of-state registrant and requires the West Virginia registrant to have “complete dominion and control of the design, which includes possession of the sealed and signed reproducible construction drawings and sealed design calculations indicating all changed in design.”

The above provisions relate to circumstances when a West Virginia registrant is asked to place a West Virginia professional engineer's seal on work that was done by an out-of-state registrant. This requirement or standard is consistent with the provisions set forth in earlier in W. Va. Code 30-13-16(c) and in R 7-1-7.3(a) which requires the registrant's seal to be on engineering documents “presented to a client or any public or government agency” only when the work was done by the registrant or under the registrant's complete direction and control. However, the provision is outdated inasmuch as there is no longer any distinction between an out-of-state and in-state registrant. Violation of the provisions regarding the legal use of a registrant's engineering seal is a ground for disciplinary action in W.Va. Code 30-13-21(a)(10), which makes it unlawful to sign or affix the seal (or permit same) “to

any specifications, reports, drawings, plans, design information, construction documents or calculations or revisions which have not been prepared or completely checked by the professional engineer or under the professional engineer's direct supervision and control;"

While there is no need for a standard that applies solely to out-of-state registrants, there is often a need for a standard of review for another's work. However, currently there are no provisions that specifically set forth a registrant's duties with regard to review of another's work when it is not an out-of-state engineer. This is a common practice and is often necessary due to death, mobility, job change or other circumstance that requires a successor engineer take over and complete the work.

The Board would like to provide some clarity to its registrants so they may avoid disciplinary action in connection with their sealing engineering work that was done by another engineer. Therefore, the Board is of the opinion that the requirements set forth for the review of work by an out-of-state registrant applies to the review of any registrant's work and will interpret the term "out-of-state registrant" to mean "another registrant" when used in the context of the standard under which a registrant checks another professional engineer's work.
