General Session Minutes
State Board of Registration for Professional Engineers
August 6, 2013

The State Board of Registration for Professional Engineers met in their offices at 300 Capitol Street in Charleston, WV on Tuesday, August 6, 2013. Those present for all or part of the meeting were:

William E. Pierson	Vice-President
Bhajan S. Saluja	Secretary
Richard E. Plymale	Member
Lesley L. Rosier-Tabor	Executive Director
Don W. Johnson	Board Investigator
Debra L. Hamilton	Legal Counsel

The meeting was called to order at 9:05 AM.

The Board meeting minutes for May 28, 2013 (both executive and general session) were reviewed. A motion to approve the minutes as revised was made by Mr. Saluja, seconded by Mr. Plymale. Motion carried.

The Board budget summaries for May and June 2013 were received and reviewed. The detailed purchasing card expenditures were also received and reviewed. A motion to approve the current expenditures and purchasing card transactions was made by Mr. Saluja, seconded by Mr. Plymale. Motion carried.

Ms. Rosier reported that the FY 2014 Budget and Expenditure Schedule submission was approved by the State Budget Office following our last meeting.

Ms. Rosier presented the Executive Director's report and addressed all Board questions and comments. Ms. Rosier discussed participation in recent events and presentations made by her to various groups since the last Board meeting. She also reviewed the office's schedule of upcoming activities. A motion was made by Mr. Plymale, seconded by Mr. Saluja, to approve attendance and travel for Board members and staff activities outlined in the Executive Director's report and updated 2013 calendar of events and travel, including the additional travel costs to be incurred by Ms. Rubenstein due to the scheduling issues involving her travel to the NCEES meeting. Motion carried. (The Board made clear that details regarding such changes in travel costs can be made by the Executive Director without Board action).

The annual license renewal season is proceeding on schedule. The 3rd courtesy e-mail was sent at the end of July to all Active PE's, Retired, and COA contacts yet to renew alerting them of the increasing late fees that would be incurred beginning August 1, 2013. As of the July 29th email, there were 474 PEs, 211 COAs and 30 Retired who had not renewed.

Ms. Rosier reported that she had accepted committee assignments on the NCEES MBA and Mobility Committees. Mr. Pierson reported that he was re-appointed to the Education and FE Exam Committees.

The upcoming October exams were discussed. Currently 86 PE applications have been received for review, including one requiring a repeat taker interview. Additionally, 181 FE applications have been received and will be processed next week. Mr. Pierson and Mr. Saluja discussed their interest in obtaining details on the pass rates for EAC vs. TAC vs. foreign degree holders vs. national averages.

Mr. Plymale made a motion to enter into Executive Session at 9:20 AM, seconded by Mr. Saluja. Motion carried.

After interviewing, the Board recessed the meeting in Executive Session at 10:00 AM to hold an informal conference for inquiry I2013-14 and for lunch.

The Board resumed the meeting in Executive Session at 1:00 PM.

At the conclusion of the Executive Session, Mr. Plymale moved to enter into General Session with a second by Mr. Saluja. Motion carried and the Board took the following actions:

1. Mr. Plymale made a motion that inquiry I2013-14 be filed as a Board-initiated complaint after the receipt of additional information, which may be taken into account by staff in determining the Complaint's allegations. Motion was seconded by Mr. Saluja and carried.
2. Mr. Saluja made a motion that inquiry I2013-15 be filed as a Board-initiated complaint. Motion was seconded by Mr. Plymale and carried.
3. Mr. Plymale made a motion that inquiry I2013-16 be filed as a Board-initiated complaint. Motion was seconded by Mr. Saluja and carried.
4. The Board prioritized the candidates interviewed and authorized the Executive Director to extend an offer of employment with a specified salary.

Based on a motion by Mr. Plymale, seconded by Mr. Saluja, the Board took the following actions on Special Cases for Board Action:

1. Justin R. Cooner's request to sit for the PE exam was held in abeyance until such time as he could supply additional, acceptable information requested by the Board regarding his response on the disclosure on the exam application.
2. Nathan T. Stark's request to sit for the PE exam was approved.
3. James D. Authur's request for comity was approved.
4. William B. Carpenter's request for comity was approved.
5. Douglas G. Kesner's medical exemption request to waive the remaining PDHs required to renew his license through June 30, 2014 was approved.

The action item list for the upcoming NCEES Annual Meeting was discussed. There will be a proposal presented to remove the 4 years experience requirement prior to sitting for the PE exam. A number of states already have different experience requirements.

Ms. Rosier reminded the Board members that as part of CBT implementation they had agreed to use the automatic registration option offered via NCEES for all FE examinees, with a post-application process for successful FE examinees to obtain EI certification. The Board also agreed to allow NCEES to release scores directly to the examinees at the same time that all other scores are released to candidates throughout the country. Our applicants will receive notification that their scores are available to preview by logging into the NCEES website. Official correspondence will then follow from the Board office within 5-7 business days of the score release.

The new NCEES Software Engineering exam was discussed. There are a number of open issues such as what measurable standards to use to evaluate acceptable software engineering experience. This topic will be discussed at the upcoming NCEES Annual Meeting in August 2013.

A number of jurisdictions are reporting that foreign engineers who have passed NCEES exams in foreign countries are querying the licensing boards throughout the country to determine which jurisdictions will accept them for initial licensure or certification. WV Engineering Law currently requires PE examinees to sit for the exam within WV in order to obtain initial licensure in our state.

Ms. Rosier and Ms. Hamilton reported that the new WV Engineering Law became effective July 1, 2013. Copies of the new law were provided to the Board and copies are available on the Board web-site. Legislative rules, which will also be filed as emergency rules, are being drafted and should be available for Board review at the September meeting.

Ms. Rosier reported that the entrance conference for the Legislative Performance Evaluation Review Division (PERD) was held on July 23rd. Mr. Robinson, Ms. Rosier and Ms. Rubenstein were in attendance and provided the initial information requested by PERD staff.

Ms. Rosier discussed the upcoming Fall 2014 ABET visit to Fairmont State University. Mr. Timms has agreed to be the Board observer for this general review.

The next Board meeting is Tuesday, September 17, 2013. The meeting will take place at the Board office at 300 Capitol Street – Suite 910, in Charleston, WV.

Upon motion by Mr. Saluja, seconded by Mr. Plymale, the meeting adjourned at 2:00 p.m. The Board members will be compensated one day per diem plus travel expenses.

Ms. Rosier provided an update concerning the 2013 renewal period. Audit responses are being received and reviewed, and are due by November 17. Final 7-day notification will be sent out to all who haven't yet responded to the audit on November 18. Staff will mail invalidation letters during the first two weeks of December.

A motion to approve the current expenditures and purchasing card transactions was made by Mr. Pierson, seconded by Mr. Saluja. Motion carried.

Ms. Rosier presented the Executive Director's report and addressed all Board questions and comments.

- Ms. Rosier highlighted that the Fundamentals of Engineering (FE) exam has fully transitioned to Computer Base Testing (CBT) and that staff will no longer process pre-exam applications.
- Ms. Rosier reported that 65 applications for the April 2014 Principles and Practice (PE) exam have been received and that there are no interviews to be conducted. Additionally, there are no educational plans of study required for submission in preparation for the upcoming PE exam.
- Ms. Rosier reported that the final paper and pencil FE exam was completed on October 26th and that NCEES opened up the new computer-based testing (CBT) registration via their website on November 4th. The first FE exam via CBT was offered on January 2, 2014.

- Ms. Rosier reported that there has yet to be a FE CBT exam administered in WV to date, but that 6 were scheduled.
- Ms. Rosier discussed the NCEES reporting of CBT results. She highlighted that the reports should not change much and that the best method to track progress will be to report results, by discipline, for each engineering school within the state.

Mr. Timms noted that there was a significant increase in the number of FE candidates in October 2013 vs. October 2012. Ms. Rosier highlighted that as a result of the CBT implementation the Board policy requiring FE exam interviews for repeat takers is no longer feasible. General Session Minutes
State Board of Registration for Professional Engineers
March 25, 2014

The State Board of Registration for Professional Engineers met in their offices at 300 Capitol Street in Charleston, WV on Tuesday, March 25, 2014. Those present for all or part of the meeting were:

Edward L. Robinson	President
William E. Pierson	Vice-President
Bhajan S. Saluja	Secretary
Richard E. Plymale	Member
Leonard J. Timms	Member
Lesley L. Rosier-Tabor	Executive Director
Aaron M. Armstrong	Board Investigator
Debra L. Hamilton	Legal Counsel

The meeting was called to order at 9:00 AM.

The Board meeting minutes for January 21, 2014 were reviewed. A motion to approve the minutes as submitted was made by Mr. Timms, seconded by Mr. Saluja. Motion carried.

The Board budget summaries for January and February 2014 were received and reviewed. Mr. Timms commented on the current budget balance being slightly less than last year at this time. Ms. Rosier confirmed this and attributed it to carrying two board investigator salaries for 6 months. The detailed purchasing card expenditures were also received and reviewed. A motion to approve the current expenditures and purchasing card transactions was made by Mr. Plymale, seconded by Mr. Saluja. Motion carried.

Ms. Rosier discussed the progress of the upcoming licensure software request for quotation as well as the elimination of Windows XP support as of April 2014. Due to the cessation of Windows XP support and the current age of our office technology, it was recommended that we upgrade. Mr. Timms made a motion to approve up to \$10,000 worth of expenditures on computer and printer upgrades based on current statewide contract pricing. Motion was seconded by Mr. Saluja and carried.

Ms. Rosier presented the Executive Director's report and addressed all Board questions and comments.

- Ms. Rosier shared the statistics for the 2 computer-based testing (CBT) sites in WV since the inception of the FE CBT transition. She reported that 62 individuals to date have signed up via the NCEES website to take the new CBT exams at the in-state locations. Among those 62 individuals, Ms. Rosier reported 16 individuals have taken the Fundamentals of Engineering (FE) exam in WV via CBT. Of those 16, 6 received a passing score while 10 failed.
- Board members reviewed how the pass rate compared to traditional pen and paper testing. Ms. Rosier reminded the Board that while the pass rate appears

lower at this stage, there are many factors that can affect this rate, including but not limited to the extremely small WV examinee pool (not statistically sound), early in the process, first-time takers vs. repeat takers, currently enrolled vs. graduates, engineering vs. engineering technology programs, etc.

- Ms. Rosier reported that 65 applications were received for the Principles and Practice Exam (PE) scheduled for April 2014. 64 of these applications were accepted, with 2 of these immediately transferred at the applicant's request to the October 2014 exam. Of the remaining 62 accepted applications, a total of 5 did not register with NCEES by the deadline so 57 exams were ordered.
- Ms. Rosier reported no PE examinee interviews were required for this period.

The Board discussed the agenda for the upcoming May 2014 NCEES Northeast Zone meeting. All board members and lead staff are planning to attend all or part of the meeting. President Robinson and Mr. Plymale requested a hard copy of the NCEES Northeast Zone Meeting agenda.

A motion was made by Mr. Saluja, seconded by Mr. Plymale, to approve attendance and travel of Board members, staff and counsel for the activities outlined in the Executive Director's report and updated 2014 calendar. Motion carried.

Mr. Pierson made a motion to enter into Executive Session at 9:25 AM, seconded by Mr. Plymale. Motion carried.

Mr. Saluja absented the room and recused himself from all discussions relevant to I2014-06.

The Board recessed the meeting in Executive Session at 12:08 PM for lunch and resumed the meeting in Executive Session at 12:45 PM.

At the conclusion of the Executive Session, Mr. Timms moved to enter into General Session at 1:36 PM with a second by Mr. Saluja. Motion carried and the Board took the following actions:

1. Mr. Timms made a motion to dismiss C2012-06 with a right to re-file. Mr. Pierson seconded the motion. Motion carried.
2. Mr. Plymale made a motion to dismiss C2014-01, seconded by Mr. Timms. Motion carried.
3. Mr. Plymale made a motion to dismiss C2014-09, seconded by Mr. Saluja. Motion carried.
4. Mr. Plymale made a motion to dismiss C2014-10. Motion was seconded by Mr. Timms and carried.
5. Mr. Saluja made a motion to move I2013-10 to complaint. Motion was seconded by Mr. Plymale and carried.
6. Mr. Pierson made a motion to move I2014-04 to complaint. Motion was seconded by Mr. Plymale and carried.
7. Mr. Pierson made a motion to move I2014-09 to complaint. Motion was seconded by Mr. Timms and carried.

8. Mr. Pierson made a motion to move I2014-10 to complaint, seconded by Mr. Timms. Motion carried.
9. Mr. Timms made a motion to move I2014-11 to complaint. Motion was seconded by Mr. Plymale and carried.

Ms. Rosier reported there were no special cases for Board action at this time.

Ms. Rosier discussed the NCEES survey concerning the need for the creation of a separate system of licensure for structural engineers. The Board agreed that the survey responses provided by Ms. Rosier were acceptable. Currently the WV Board does not see a need for a separate structural licensing structure in our state as we do not license by discipline.

Mr. Timms and Ms. Rosier reported that NCEES will utilize a conference room at Fairmont State University for the April 2014 PE Exam. Additionally, Professor Hugh Costello will be the new chief proctor for this exam administration.

Ms. Rosier reported that there were no comments received during the required comment period on the initial filing of the proposed Legislative Rules. The Board directed Ms. Rosier to file the agency-approved Legislative Rules by the March 27, 2014 deadline.

The Board discussed the requirements of registration with respect to forensic engineering and expert testimony. While the Board took no formal action concerning the issue, the Board reaffirmed its position that, while only a judge has the power to allow a witness to testify as an expert, the Board will continue to assess instances of forensic engineering and expert testimony on a case-by-case basis in the event it may have involved the unlicensed practice of engineering.

Ms. Rosier discussed the upcoming EXPO briefing and order of events.

Ms. Rosier presented the latest and most current Board Calendar of Events for 2014 and requested the Board to provide her with any potential conflicts. At the request of Ms. Hamilton, the July meeting date has been moved to July 22nd to accommodate her in-person attendance. Mr. Pierson also requested a schedule change for the September 2014 Board meeting, which was changed to September 17th.

The next Board meeting is Tuesday, May 20, 2014. The meeting will take place at the Board's office in Charleston, WV.

Upon motion by Mr. Pierson, seconded by Mr. Plymale, the Board meeting adjourned at 2:30 PM. The Board members will be compensated one day per diem plus travel expenses.

**“WHILE I ADMIT *change is*
good, ONE CHANGE WE ARE
EXPERIENCING IS DIFFICULT.”**

From Pie In The Sky to Reality!

While attending my first NCEES Annual Meeting a dozen years ago, I learned of a study that had been conducted by NCEES regarding the need to move our licensure exams to a computer-based testing (CBT) platform. That study yielded several concerns that halted NCEES from immediately moving forward and put them on a 10-year plan to convert at the earliest feasible date. Some of the impediments over a decade ago were (1) candidate's preference for CBT over paper-and-pencil, (2) NCEES item banks being of sufficient size and quality to be used for CBT, (3) willingness to modify the exam length and format if necessary, (4) sufficient value of licensure to candidates to warrant the conversion, (5) concerns regarding costs of converting to CBT, and (6) exam security issues.

For a number of years, I was lucky enough to be appointed to serve on the NCEES CBT Task Force and work hand-in-hand with other volunteers, NCEES staff, Board members, professional engineers and professional surveyors to answer these important questions and assist in the move forward of this organization into the 21st century testing environment.

Fast forward a little more than a decade and I am pleased to report that the conversion of our paper-and-pencil exams to CBT is a reality. As of January 2, 2014, the Fundamentals of Engineering (FE) and Fundamentals of Surveying (FS) exams have fully transitioned to computer-based testing and are now administered exclusively at approved Pearson VUE test centers. Computer-based testing has proven to provide so many advantages for both examinees and other professional licensing organizations and now engineers and surveyors have joined the club. Examinees are now able to schedule their exam at a time and location that work best for them and receive their results within a week or less. NCEES and Member Boards gain enhanced security and greater uniformity in testing conditions with the move to CBT.

Much work had to occur at the state level in order to implement the change to CBT. New legislation was passed in 2013 in West Virginia to remove references to 8-hour exams and paper-and-pencil formats as well as exam application

deadlines. There is no longer an FE pre-exam application or FE pre-exam approval process so new post-exam applications were developed for use by those who pass the NCEES Fundamentals of Engineering exam and wish to be certified as an Engineer Intern (EI) in West Virginia. A full list of the details can be reviewed on Page 10 of this newsletter, and on our website as well as on the NCEES website.

Change is Good!

After publishing 10 editions of this InterChange newsletter, we are unveiling a new look and what we hope to be an enhanced reader experience for our primary publication. As our newsletter designer approached me with the idea, I thought to myself ... why don't we wait a few more years, you know ... after we have a few more editions published. Then I counted the number of previous newsletters and realized WOW! No time like the present as we have just passed a decade of the old look and layout. So as you continue reading, we hope you enjoy the modern and refreshing new design.

While I admit change is good, one change we are experiencing is difficult.

As I write this article, we are planning for the retirement of our first Board Investigator, our dear friend, Don Johnson, PE. The thought of such a celebratory day for him and his family is bittersweet for me. Don has been with our Board during that decade of change I referenced above and he has been my right-hand man the majority of my 12-year career in this position. He has certainly plowed the way and developed our Enforcement Program into the success that it is today. I could take up a lot of space telling you about what a genuine person he is, how dedicated he was to his job, or how he always exhibited exemplary work ethic, but for those of you who know him or have had the opportunity to meet him on either side of the Board room table, you can likely attest to all of that already. The simple fact is that he is a sincere and honest individual I will miss around the lunchroom table. From myself, and our staff that keep this office moving in the right direction, we say "Goodbye friend. Enjoy your retirement ... you deserve it!"

Board Updates

WV PE BOARD MEMBER APPOINTMENT UPDATES

Our agency receives a number of questions during the year about why our Board members' terms show expired dates and then go on to ask "just how does that all work?" As noted in previous publications, as well as within the West Virginia Engineering Law, our PE Board members are appointed to serve five-year, staggered terms and if their term should expire, they will continue service until a successor has been appointed by the Governor or a reappointment is made.

As outlined in W. Va. Code §30-13-5, Board qualifications include US citizenship and residency within our state, engagement in the lawful practice of engineering as a professional engineer for at least twelve years, responsible charge of engineering projects for at least five years and registration as a professional engineer in this state. Any gubernatorial appointment requires the advice and consent of the Senate.

On November 22, 2013, our Board was pleased to learn that the following re-appointments had been made to the WV Board of Registration for Professional Engineers pursuant to the provisions of W. Va. Code §30-13-4:

- **Dr. William E. Pierson**
Term expires June 30, 2018
- **Mr. Richard E. Plymale, Jr.**
Term expires June 30, 2017
- **Mr. Bhajan S. Saluja**
Term expires June 30, 2016

In addition, the other current Board members who hold the remaining seats on the Board include:

- **Mr. Edward Robinson**
Term expires June 30, 2014
- **Mr. Leonard J. Timms, Jr.**
Term expires June 30, 2015

WELCOME A "BOARD" AARON ARMSTRONG

While with a heavy heart we say goodbye to our first-ever Board Investigator, Don Johnson, we are very excited to welcome Mr. Aaron Armstrong. Aaron was hired in September 2013 to serve as our new Board Investigator.

Prior to becoming the Investigator with the WV PE Board, Mr. Armstrong worked in the project engineering field focusing on chemical plant, water, and wastewater design and construction. A native of West Virginia, Mr. Armstrong attended the United States Military Academy at West Point and earned his Nuclear Engineering degree. Upon graduation from West Point, he was commissioned in the US Army as an Air Defense Artillery Officer. Tours of duty while in the Army included the Republic of Korea, Fort

Bliss, TX, Rio Rancho, NM, and White Sands Missile Range, NM where he commanded a battery of Patriot missile system soldiers and equipment. Aaron is a combat veteran of Operation Iraqi Freedom, deploying to Southwest Asia during the invasion of Iraq in 2003. Upon discharge from the Army, Mr. Armstrong earned his Master's degree in Computer Information Systems.

Aaron joined our team as we were preparing to launch our annual continuing education audit at the end

of the renewal grace period, so needless to say he hit the ground running and never looked back. The investigative team developed a transition plan for Don to work toward closure of existing complaints while Aaron started to tackle the more recent complaints, inquiries and calls received. Aaron has taken on many new administrative and technical duties in his full-time position with registrants, Board staff, and Board members to ensure compliance with the Engineering Laws, Statute and Rules of West Virginia. Don has expressed on multiple occasions he is confident that he is leaving the Board in very competent hands.

The Next Chapter ...

OUR NEW INVESTIGATOR'S CORNER

**AARON ARMSTRONG,
BOARD INVESTIGATOR**

Even though the phrase “hit the ground running” may have its origins from the Allies’ D-Day invasion during WWII, this is surely a sufficient description of my first 5 months as only the second Board Investigator for the WV PE Board. First and foremost I must thank the Board and staff members for making me a part of their team and giving me what I feel to be an opportunity of a lifetime. As a native West Virginian, my schooling and military service took me away from home for almost 18 years. Now that I have been back home and getting settled for a while, it is a great honor to serve the Board and the excellent Professional Engineers of West Virginia.

WV PE Board Enforcement Program Surpasses 10 Year Mark

As some may know, my predecessor (Mr. Don Johnson, PE) began the enforcement program a short 10 years ago. Since then the program has come a long way in the areas of standards, documentation, training, and national recognition. As an active member of the Council on Licensure, Enforcement & Regulation (CLEAR) national organization, Don was able to build an enforcement program based upon other jurisdictions’ success. Thanks to Don for doing the hard part! As Don moves on to his well-deserved retirement, I will be thankful for his hard work, dedication, and expertise in leaving me an established program. Moving forward into 2014 and beyond, I anticipate maintaining the enforcement program at its currently established high standard and hopefully bring some different perspectives to the engineering community regarding regulation.

History, Education, and Experience – All Three Go Hand in Hand

One can always say that you will act based upon your direct experiences or that our response to certain situations is truly based upon our experience. My current role within the engineering field is clearly

one of regulation. But my past roles in the engineering consulting field **and** as an owner will allow me to operate with different ‘hats’ and hopefully provide a further breadth and depth of contributions to the staff, Board, and licensees. After my military service, I worked as a water and wastewater consultant to both private and public utilities. Next, my career took me to the other side of the fence as an owner. Seeing both sides of engineering work (consultant **and** owner) has certainly raised my awareness and given me a greater appreciation of the challenges seen from both sides. Now that I am in the field of regulation and enforcement, I have to become even more aware of WV engineering law. These laws can be found on our website and, quite frankly, are easy to read. I certainly urge all registrants to read these -- in fact, all licensees sign their name to a claim every renewal season certifying they have read and understood the WV engineering law. With that in mind I hope to pull from my past experience, learn from my current endeavors, and serve the Board diligently in the future.

Initial Thoughts and Impressions

As mentioned above, the past 5 months have been fast and furious. The Board recently completed the annual Renewal and Audits for the 2013-2014 renewal period. The results of this work resemble that of many years past, with nearly 5% of all renewals receiving an audit and only 9 registrants failing to properly renew their WV license due to inadequate continuing education. From a high level view, a few of the main reasons for an audit continue to be simple typographical errors and not providing valid Certificates of Authorization with the renewal form. To combat this, I suggest all renewals be entered correctly the first time and that you provide all of the information requested on the renewal form. Remember, once an audit has been triggered (for any reason), the registrant must submit all documentation substantiating **ALL** of the PDH's claimed and

all other documentation (COA, disciplinary actions, etc.) required by the renewal form. This includes any ‘carryover’ hours claimed. For any further discussion or should you need a presentation, speaker, or just some informal discussion concerning WV engineering law, please do not hesitate to contact our office.

What Next?

So why must we perform regulation? The primary purpose of regulation is to protect the public interest. Period. Your WV PE Board is dedicated to safeguard life, health and property and to promote the public welfare. The enforcement arm of regulation gives the public and you, the licensee, a sense of comfort knowing that the engineering profession will remain ethical and honorable. A WV Professional Engineer license is a great responsibility, but with that responsibility should come a satisfaction that you are contributing to the greater good of our State. I am sometimes asked what your ‘contemplated priorities’ are for 2014? While not being in a position to have too many priorities at this time, remember that while we do not license by specific discipline within WV, it is noted that registrants must only practice within their area of technical competence. Furthermore, no person or firm is authorized to practice or **offer** to practice engineering in this state until the person or firm has been issued a certificate of authorization by the Board (§30-13-17), which requires a licensed engineer in responsible charge. As the word ‘offer’ is highlighted above, please be reminded that submitting a scope of work proposal or bid is considered an offer, even if the proposal and/or bid is not accepted. These two topics, while certainly very clear in the law, seem to be reoccurring issues.

In closing, I welcome any input and questions regarding engineering topics, especially related to the enforcement of WV engineering law. I look forward to the challenges that 2014 may bring.

Board Disciplinary Actions

In meeting its mission of safeguarding life, health and property, and to promote the public welfare, the WV Board actively enforces the statutes and rules that fall within its jurisdiction. Below is a summary of formal complaints that resulted in disciplinary action since the 2013 newsletter. Numerous other investigations were conducted, some resulting in formal complaints which are still pending; some dismissed because the charges were unsubstantiated or considered trivial; and some closed after acceptable corrective action or warning.

The actions below were either a result of a formal hearing resulting in a Board Order or

an informal settlement resulting in a Consent Order. These orders are public records. If you are interested in knowing more about the nature of the complaint, you may request a copy pursuant to the State's Freedom of Information Act. All Final Orders are posted on the Board website.

All civil penalties are deposited in the state's general fund. Administrative costs are made payable to the WV PE Board and are retained by the Board to offset costs incurred in the investigation and complaint resolution efforts. Administrative costs may be waived if the complaint is resolved with a minimum of expense, including staff time.

Disclaimer: *Every effort has been made to ensure that the enforcement information is correct; however this information should not be relied upon without verification from the Board office or website. It should be noted that the names of companies and individuals listed may be similar to the names of parties who have not had enforcement actions taken against them. Should you have any specific questions regarding the disciplinary actions noted above, please contact the Board office.*

Counsel's Column

OUR LEGAL CORNER

DEBRA L. HAMILTON, BOARD COUNSEL
AND DEPUTY ATTORNEY GENERAL

Like almost everything in life, no matter how much you get used to things, you also have to stay adaptable to change. There are lots of changes on the 9th floor of 300 Capitol Street - from the move to computer-based FE testing to another trip back to the Legislature for more hoped-for changes to Article 13 to lots of new equipment. But the change that affects me the most is the transition to a new investigator.

Don Johnson started working as the WV PE Board's investigator shortly after I took on their legal work. I was a Managing Deputy and was just filling in until I found a lawyer that I thought would be a good fit. Don planned to work there a few years and go off into his senior sunset. It is now more than ten years later, and we have worked together on all facets of the Board's disciplinary duties - from pre-complaint investigations to the processing of complaints through to their resolution. But Don's work went well beyond his role as the Board's part-time investigator - to the point that the Board determined that to fill his spot required a full-time position.

It went to Aaron Armstrong, who in his short time as the Board's new investigator has already proven to be up to the task. I trust that we will be able to team up equally well in working toward full compliance with West Virginia engineering law. Prevention is the best way, and that is best accomplished through education, clarification and consistency. Therefore, the Board strives at every opportunity to help people be aware of and adhere to the Board's statutes and rules through education, clarity and consistency.

And speaking of consistency, there is one thing that has changed with regard to how complaints are resolved (see article in the Board's 2012 newsletter). As you may have noticed in prior listings of disciplinary actions, it was common to settle matters involving an offer to practice and actual practice of engineering without a license or certificate of authorization (COA) for \$250 each (no license, no COA). However, sometimes there was actual practice with no offer to practice (such as when a firm is solicited by a client) or an offer without a license or COA, but the engineer or firm immediately took steps to become credentialed before actually practicing engineering. Since they are really two separate offenses, the Board started

treating them that way when assessing civil penalties. You will start to notice this in the sanctions for unlicensed practice or no COA.

Back to education and clarification. The new investigator has raised a few questions, and we thought it might help the readers of this newsletter to pass my answers to some of those questions along.

What is the difference between a statute and a rule - and between a legislative rule, an emergency rule, a procedural rule and an interpretive rule?

The Legislature primarily adopts legislation that creates or amends statutes - laws which can be found in the West Virginia Code. Laws for professional licensing boards are in Chapter 30 of the Code, and the WV PE Board's specific enactments are in Article 13. Citations to a statute look like: W. Va. Code §30-13-[section number] (sometimes a subsection letter). W. Va. Code §30-13-1 *et seq* can be found on the Board's website. ("*et seq*" means "and sequential" - all the sections of that article.)

The four types of rules differ in what they address and how they are adopted, but all legally adopted rules have the force and effect of law, the same as a statute. Rule-making procedures are in W. Va. Code §29A-3-1 *et seq*. The WV PE Board has all four types in effect currently, and they are all under Title 7 of the Code of State Rules (CSR) on the Secretary of State's website. The legislative rules are Series 1, the procedural rules are Series 2, and Series 3 is one interpretive rule adopted by the Board.

Rules are formally cited as W. Va. Code R §7-[series number]-[section number. subsection]. You might also see them cited as §7 CSR [series number-section number. subsection]. The rules currently in effect, as well as any proposed rules that have been adopted by the Board and filed with the Secretary of State, are posted both on the Board's website and at <http://apps.sos.wv.gov/adlaw/csr/rule.aspx?agency=Professional%20Engineers>.

Legislative rules must be filed well in advance of the legislative session that will consider them. After a 30-day comment period, they are re-filed and go through rule-making review. The Legislature may adopt them as presented,

modify and adopt the modified rules, or reject them. If authorized, an agency may also have emergency rules, which must be followed up by the filing of legislative rules within 30 days and in effect for no longer than 15 months.

On December 27, 2013, the Board filed Series 1 emergency rules to implement 2013 amendments to Article 13 regarding NCEES' transition to computer-based testing. The rules took effect on January 1, 2014, and can be found on the Board's website and the Secretary of State's website referenced above. These will be followed up by legislative rules and a comment period, but the Legislature will not act on them until 2015. The emergency rules likely will be in effect for the full 15 months.

Procedural and interpretive rules do not have to go through the rule-making review process. A proposed procedural or interpretive rule is published in the State Register, has a public comment period, may be amended by the agency before final adoption, and is published again in the state register along with the effective date. Again, the Board's procedural rules are Series 2. The Series 3 interpretive rule will be repealed when incorporated into new legislative rules (Series 1).

Now that I probably have you confused, we may as well study some Latin

What does *prima facie* mean?

Prima facie is a Latin term which means "on its first face." It is used in an evidentiary context and can be found in WV engineering law in a couple of places.

§ 30-13-11. Records and reports.

- (b) The record of the board is *prima facie* evidence of the proceedings of the board and a transcript duly certified by the secretary shall be admissible as evidence with the same force and effect as if the original were produced.

§ 30-13-16. Certificates and seals

- (b) An unexpired and unrevoked certificate is *prima facie* evidence that the person named on it is entitled to all rights, privileges and responsibilities of a professional engineer

"*Prima facie evidence*" is sufficient by

itself to prove a point, but if there is substantial contradictory evidence then the point will have to be proved by a preponderance of the evidence.

What is preponderance of the evidence?

"Preponderance of the evidence" is a "standard of proof". You have likely heard of the more stringent "beyond a reasonable doubt" standard required in criminal cases. A "clear and convincing" standard is required in some matters, but the standard in most civil and administrative matters is "preponderance of the evidence," which was adopted by the Board in its procedural rules (W. Va. Code R §7-2-4.4). "Preponderance of the evidence" means that the evidence supporting a sanction

or penalty outweighs the evidence against disciplinary action. There are a lot of ways to explain "preponderance" – more likely than not, more than fifty percent, etc.

So, how do these two terms work together? Consider the two instances where "prima facie" is used in WV engineering law:

Board records - W. Va. Code § 30-13-11(b). The minutes of a Board meeting are a Board record and, therefore, *prima facie* evidence. If the minutes say one thing and one Board member testifies to the contrary, the preponderance of the evidence will likely be with the minutes, since they are *prima facie* evidence of what occurred at the meeting. However, if there are several witnesses who

were in attendance and refute the minutes, the Board (Hearing Panel) may find that the preponderance of the evidence outweighs the *prima facie* evidence of the minutes.

Certificates and seals -W. Va. Code § 30-13-16(b). A professional engineering certificate has only a date of issuance, so if a staff member of the Board introduced credible evidence that you had not renewed your license or had it suspended or revoked, that evidence would likely outweigh the *prima facie* evidence of your PE certificate authorizing you to practice engineering.

All the above may be in the category of "things you never asked and are now confused about." I hope not.

Updated Professional Use of Seals Brochure is Now Available

The Professional Use of Seals Brochure, published as a joint effort of the West Virginia State Board of Registration for Professional Engineers and the West Virginia Board of Architects,

is hot off the press and

available on our website. This original brochure was developed in 2005 to fulfill a need expressed by building code officials, design and construction professionals, and the general public in understanding the WV laws, rules and regulations governing the practice of the engineering and architecture professions in West Virginia.

Information contained in the brochure is basic and not intended to be a complete, comprehensive coverage of the WV law, but rather an overview of key aspects of the WV Code governing the professions and overlapping issues that often lead to questions. A major effort has been made to identify and address the most frequently asked questions by building code officials

and to provide concise answers whenever possible. Where simple answers do not suffice, this brochure provides additional sources you may contact for details. This brochure is intended to be used as a guide and any person having specific questions should address them to the appropriate Board or should seek legal counsel.

Safeguarding the public in the design and construction of buildings and public works is a shared responsibility. Building officials protect the public by enforcing building code requirements. Throughout the plan check and inspection process building officials, in cooperation with the State Fire Marshal's office, ensure compliance with building codes, local codes, and relevant ordinances. Building officials have the authority to reject documents as submitted and to withhold permits. Building officials rely on the State Boards to assure that the registrants and licensees are competent to practice. The Boards must depend primarily upon the local building officials and the State Fire Marshal, particularly in municipalities with no local building code officials, to assure that only those who are properly licensed are allowed to provide design services.

Some of the topics include:

1. Which type of licensee must prepare and seal plans and documents.
2. Special requirements regarding the seals.
3. What structures may be exempt from requirements.
4. What type of documents require a seal.
5. How to verify if an architect, engineer or engineering company is currently licensed to practice.
6. Proper seals and signatures.
7. Relevant Codes for both architects and engineers.
8. "Red Flags" for plan reviewers and the general public.
9. What to do should a red flag issue become apparent.
10. Contact information for both state regulatory agencies.

The brochure was updated during 2013 as an additional joint effort of both the Engineers and Architects Boards as well as input from legal counsel.

The NCEES Committee on Education

BOARD MEMBER**

NCEES

*advancing licensure for
engineers and surveyors*

The NCEES pages contain an overview of recent news releases received from the National Council of Examiners for Engineering and Surveying (NCEES), as well as NCEES Licensure Exchange, concerning items that may be of interest to our engineering community. Some of these articles may have been adapted to fit the space allocated. For more information on any of these updates, or to review the full news releases, simply visit the NCEES website at www.ncees.org.

We have all heard the analogy that professional licensure is like a three-legged stool: one leg being education, another being examination, and the third being experience. In order for the stool to be stable, all three legs must be present and strong. Obviously, education has always been a crucial part of the engineering licensure process. However, education is not limited to the initial degree required to enter into licensure; education also includes the continuing professional competency (CPC) required to maintain licensure. In addition, the NCEES Model Law has adopted a provision that beginning January 1, 2020, an engineering intern must have *“an acceptable amount of coursework resulting in a master’s degree in engineering from an institution that offers EAC/ABET- accredited programs, or the equivalent, and with a specific record of 3 years or more of progressive engineering experience of a grade and a character which indicate to the board that the applicant may be competent to practice engineering.”* In effect, this change in the Model Law increases the amount of engineering education ultimately required to become a registered Professional Engineer.

Considering the importance of engineering education to professional licensure and the pending implementation of the “MS or Equivalent” provision of the Model Law, in 2012 the NCEES Board of Directors created a new standing committee, the Committee on Education. Previous to the creation of this standing committee, education issues had been addressed primarily through special task forces. Creation of the Committee on Education provides an opportunity for continuous review of education-related issues, including CPC requirements and definition of “or equivalent” in the Masters or Equivalent (MOE) provision of the Model Law. Specifically, the role of the Committee on Education is described as follows:

The committee shall serve in an advisory role for education issues related to ABET, requirements prior to initial licensure, continuing professional competency, and foreign degree or unaccredited program evaluation. The committee shall review and update the Continuing Professional Competency Guidelines as necessary, but at least every five years.

Membership on the Committee on Education consists of a Chair and two members from each zone, where at least two members must be professional surveyors. Appointments are made to achieve representation from academia, private practice, industry, and government. I have been selected to represent the NE zone, and the current Chair of the committee is Roger Helgoth, Chair of the Nebraska PE Board. President Patty Mamola has assigned the committee eight specific charges for 2013-2014:

Charge 1: Further define the education registry concept with regard to both CPC and the MOE requirements for engineering licensure. Engage four to five technical societies/organizations to provide input into the equivalency requirement.

Charge 2: Develop required standards for assessing non-university coursework, paying particular attention to the rigor required for equivalency. Use input from entities that currently provide meaningful, non-university coursework.

Charge 3: Review and address specific guidelines related to webinars and Massive Online Open Courses (MOOCs) for both CPC and the MOE.

Charge 4: Consider the use of the NCEES education standard for defining substantially equivalent programs that are not ABET accredited. Review Model Law 130.10, and recommend revisions as appropriate.

WV CONTRIBUTIONS ON THE NATIONAL SCENE

In early 2013, NCEES President-Elect Patty Mamola solicited help from qualified individuals to serve on national committees and task forces.

West Virginia Board members and staff continue to recognize the importance of staying involved in the engineering community at the local, state and national level with NCEES, as well as other engineering organizations, and regularly give of their time, energy and knowledge in an effort to create and maintain a licensing system for engineers that has proven worthy of worldwide emulation. The following is a current list of the 2013-2014 assignments the WV Board and staff have been selected for, tackling some very important issues and providing significant contribution to the Council and the regulation of the profession.

2013-2014 NCEES Committee Appointments of WV PE Board Members & Staff

1. William E. Pierson, PE, PhD

- Fundamentals of Engineering Exam Committee
- Education Committee and Chair of the Continuing Professional Competency (CPC) Subcommittee
- NCEES ABET Representative (Alternate)

2. Leonard J. Timms, Jr., PE

- Advisory Committee on Council Activities
- Chair of the Foreign Experience Evaluation Task Force

3. Lesley L. Rosier-Tabor, PE

- Mobility Task Force
- Member Board Administrators Committee

The Committee on Education is also investigating ways to evaluate and validate non-traditional educational delivery methods.

Charge 5: Explore outreach to deans of engineering and surveying programs to help them understand importance of licensure and their support of the same.

Charge 6: Review and update the NCEES Continuing Professional Competency Guidelines as needed. Develop framework for a universal CPC/PDH certificate.

Charge 7: In concert with the Mobility Task Force, develop an action plan to promote the adoption of common standards for continuing education requirements, using the NCEES Continuing Professional Competency Guidelines as a model, to promote consistency and enhance mobility.

Charge 8: Ensure that the significant issues of the committee are presented to the Council at each zone meeting by either a committee member in attendance or the zone vice president.

While a number of specific charges have been assigned, there are two major objectives of the Committee on Education: (1) define what "or equivalent" means in the Masters or Equivalent provision of the Model Law and (2) recommend tools to aid registrants, especially those registered in multiple jurisdictions, in acquiring and maintaining records of CPC and MOE activities. One such tool that has been suggested and that will be further defined in the coming months is an NCEES Education Registry. This registry will allow registrants to maintain a central database of educational activities that can be reviewed by licensing boards for approval. The registry can be used for both CPC purposes and for keeping track of educational activity that might be deemed equivalent to course work taken as part of a Master's degree. For those persons licensed in multiple jurisdictions, the registry might also help provide some consistency in the application of the various CPC requirements.

The Committee on Education is also investigating ways to evaluate and validate non-traditional educational delivery methods. These methods include Massive Open Online Courses (MOOCs) and technical training activities provided by professional organizations such as ACSE, ASME, IEEE, and other societies. Ultimately, the goal of the Committee on Education is to create a framework that supports quality educational activities that are offered in a variety of formats and delivery modes that meet the varied needs of the professional engineering community. The system must insure quality while being a useful tool for registrants and boards alike.

A meeting of the Education Committee occurred in mid-December. The agenda for the meeting included the following items:

- Reviewing the current NCEES document Continuing Professional Competency Guidelines.
- Establishing standards for assessing non-university course work, with particular attention given to assessing the rigor required for MOE.
- Meeting jointly with the NCEES Mobility Taskforce to develop an action plan for promoting CPC consistency that will enhance mobility across jurisdictions.
- Listening to presentations from representative technical societies (AIChE, ASCE, ASHRAE, ASME and NSPE) that addressed how the technical training activities conducted by their respective organizations might satisfy "equivalency" in the MOE component of the NCEES Model Law.

Suggestions for the Committee are welcomed and encouraged and can be sent to the WV PE Board at info@wvpebd.org.

CBT Is Underway ... Get Informed!

IMPORTANT INFORMATION ON THE CHANGES FOR THE FUNDAMENTALS OF ENGINEERING EXAM BEGINNING JANUARY 2014

There is significant change in the future delivery system of the FE Exam and we want our readers to be informed! We are proud to announce that NCEES stayed on schedule to complete the major transition of the Fundamentals of Engineering (FE) exam to computer-based testing (CBT) which launched on January 2, 2014. This transition to CBT involved significant changes to the format of the exams and the administration procedures. Listed below are some key points of interest about the conversion to CBT.

- The October 26, 2013 exam administration was the last administration of the eight hour, FE Exam in pencil-and-paper format.
- As of Monday, November 4, 2013, all candidates who would have normally applied to take the FE Exam in West Virginia now register online directly with NCEES at www.ncees.org through the My NCEES account. A \$225 exam fee payment to NCEES via major credit card will be required at the time of the online registration process. This is not a WV Board fee, but rather the uniform exam fee being charged nationwide by NCEES and collected during their direct online registration process.
- Candidates will no longer be required to submit a pre-exam application or pay a pre-exam fee to the WV PE Board prior to registration with NCEES.
- Effective January 2, 2014, the FE Exam is only being offered via CBT and will be administered only at approved Pearson-VUE testing centers. Approved Pearson-VUE testing centers are located in Charleston and Morgantown, WV, as well as over 250 other locations throughout the United States. Exact locations can be found at www.ncees.org/cbt.
- A candidate may take the exam at any time that an approved Pearson-VUE testing center is open and seating is available. For example, if space is available, a candidate could take the exam in Tampa, FL in January if that best fits his / her schedule.
- Seating is limited, so candidates may need to register a month or more in advance to obtain their desired date at the selected Pearson-Vue testing center.
- There are now four testing windows for the FE Exam annually. Each of these windows will last two months, with a month between them. Therefore, exam appointments will be available in January and February, with no exams offered in March; exam appointments available in April and May, with no exams offered in June, etc.
- A pass / fail notification from NCEES will be sent directly to the candidate within ten (10) days after taking the exam.
- The FE Exams will continue to be closed book. Supplied reference material for the exams will be electronic and will be available for review or purchase on the NCEES website.
- Examinees will be allowed to bring and use NCEES-approved calculators on CBT exams.
- Sample exams and review materials for the computer-based FE Exam are available for purchase on the NCEES website.
- Candidates who have registered with the WV PE Board in the past but were unable to sit for an FE Exam or did not pass the exam will now be required to register directly with NCEES to sit for a future FE Exam via CBT.
- Once a candidate has passed the FE Exam and has met the requirements for certification, they may file an application package with this Board for certification as an Engineer Intern (EI). The FE Exam is a nationally accepted exam, but each state has different requirements for EI certification, so check with the state board in which you will be residing for its requirements.

Testing Open	Testing Closed
January & February	March
April & May	June
July & August	September
October & November	December

Please visit cbt.ncees.org for the latest updates on the FE Exam or contact Lesley Rosier-Tabor, PE at lesley@wvpebd.org if you have questions regarding CBT.

Other Important Changes to NCEES Exams

2014 NCEES PE EXAM CHANGES

In the April 2014 exam administration, NCEES will implement changes to two PE examinations.

- **Structural 16-hour** – The Structural (SE) 16-hour exam will have revised design standards starting in April 2014.
- **PE Civil** – The PE Civil exam will have revised design standards for the Civil Structural, and Transportation modules starting in April 2014.

In the October 2014 exam administration, NCEES will implement changes to two PE examinations.

- **PE Petroleum** – The PE Petroleum exam will have revised specifications starting in October 2014.
- **PE Agricultural** – The PE Agricultural exam will not be administered in October 2014. It has been revised and renamed the PE Agricultural and Biological exam and will be administered starting in April 2015 and in every spring administration thereafter.

2014 EXAM DATES

The spring exams will be administered on April 11 and 12, 2014. The fall exams will be administered on October 24 and 25, 2014. The PE exams and the Vertical Forces component of the SE exam will be administered only on Friday. The Lateral Forces component of the SE exam will be administered only on Saturday.

All new and existing exam specifications can be found on the NCEES website at ncees.org.

NEW PROCESS FOR EXAMINEES TO RECEIVE NCEES PASS/FAIL NOTIFICATIONS

On the heels of the monumental changes of the Fundamentals of Engineering (FE) exam moving from paper-and-pencil to computer-based testing, another new change from NCEES regarding exams is the pass/fail notifications for the Fundamentals of Engineering (FE), Principles and Practice (PE), and Structural Engineering (SE) exams. Beginning with the October 2013 exam cycle, our examinees were able to log into the NCEES website used during the candidates exam registration process and retrieve their own pass/fail exam details in lieu of waiting for the official Board score notification letters. Depending on the candidate's exam results, a link to the appropriate state Board website will be accessible for the candidate to review further instructions about either finalizing an Engineer Intern Certification or awaiting their PE license if successful. If unsuccessful, they will also be able to obtain procedures for applying for re-examination. Details regarding the appropriate steps to take when applying for examinations (or re-examinations) or EI certification, can be found on our website at www.wvpebd.org.

ABOUT NCEES

NCEES (the National Council of Examiners for Engineering and Surveying) is a national nonprofit organization dedicated to advancing professional licensure for engineers and surveyors. It develops, administers, and scores the examinations used for engineering and surveying licensure in the United States. It also facilitates professional mobility and promotes uniformity of the U.S. licensure processes through services for its member licensing boards and licensees. These services include the records program, study materials, credentials evaluations, exam administration, and more.

The Council's members are the engineering and surveying licensure boards from all 50 states, the District of Columbia, Guam, Puerto Rico, and the U.S. Virgin Islands, representing 69 member licensing boards total. NCEES is headquartered in Clemson, SC.

IS THE NCEES RECORD PROGRAM FOR YOU?

An NCEES Record is for licensed engineers and surveyors who plan to practice in multiple states. It provides a means of storing and transmitting your professional records—such as transcripts, exam results, and employment references—in order to apply for licensure in an additional state or territory (a process known as comity licensure).

Establishing an NCEES Record is the most efficient way to attain multistate licensure. Once you have established a Record with NCEES, you will have most—if not all—of the materials you need to apply for comity licensure in additional states and territories.

When you have a Record on file, NCEES can electronically submit your materials directly to the state licensing board on your behalf each time you apply for a license. For professionals who need to practice in multiple states, this saves time and makes the application process to the states much less complicated. Engineers and surveyors with the Model Law designation in their NCEES record also benefit from a faster turnaround for comity licensure applications in many states.

Visit www.ncees.org for details.

Keeping Your Records Up-To-Date

Did you know that whenever your contact information changes it is YOUR responsibility to update your personal record with the WV PE Board? It is the responsibility of the licensee, examinee or certificate holder to notify the Board of any change of vital information previously submitted, such as a name or address change, contact phone number(s), email addresses, name of employer, or change of the Engineer In Responsible Charge for a firm holding a Certificate of Authorization.

This information should be provided within 30 days of when the change occurs to ensure uninterrupted service and proper delivery of official Board correspondence (paper correspondence as well as electronic communications). We also encourage our examinees and licensees to provide a current primary and secondary email address as we

routinely provide special notices, renewal reminders and examinee updates via electronic means.

The most convenient way to submit your personal changes is by simply completing the online Change of Address form located on our website at www.wvpebd.org. You may also submit an email with the same information to info@wvpebd.org or simply phone our office and speak to an agency representative.

For those individuals requesting to change their name and obtain a new EI or PE wall certificate, you are required to submit new photo identification and a copy of a marriage certificate, divorce decree, or other official court documentation of an official name change along with the required \$25.00 replacement certificate fee.

**DON JOHNSON, PE,
RETIRED BOARD INVESTIGATOR**

Farewell...

Farewell to our Board Investigator Don Johnson RETIRING WITH MORE THAN A DECADE OF SERVICE

Just who is Don Johnson?

The 1980's Golden Globe winning actor for his role in Miami Vice or the television series? No

Singer, songwriter, producer, director? No, No, No, No!

In this case, the Don Johnson we are referring to is our very own 10+ year employee of the WV PE Board. Although he has dealt with criminal proceedings and Law Enforcement types, contrary to popular belief, he did not have the lead role in the 1990s cop series Nash Bridges prior to joining our team in 2003, he has never worn thousand dollar suits over pastel cotton t-shirts to work or driven a Ferrari or owned a yacht or pet alligator named Elvis. Instead, he is our first-ever Board Investigator and has been a faithful employee who built the WV PE Board Enforcement program from the ground up.

Prior to taking this position in October 2003, Don was employed by Chemstrand, Monsanto and Flexsys for 35 years in positions of increasing responsibility in the chemical industry ranging

from designer to engineer to engineering manager and has an extensive plant design and construction background. He is a 1974 graduate of the University of Alabama in Huntsville with a degree in Fluid and Thermal Engineering. Don is a registered professional engineer in Alabama and West Virginia.

Don is past president of the Appalachian Construction User's Council and a long time member of that council. He is also a member of the American Society of Mechanical Engineers. In his capacity as Board Investigator for the WV PE Board, Don has been actively involved in the National Council of Examiners for Engineering and Surveying (NCEES) activities and serves on various Zone and National NCEES committees and task forces involving important issues of professional engineering licensure and law enforcement.

As a formal farewell, the agency staff and Board members wish Don all the best and thank him for his friendship, dedication and unwavering service to the WV engineering community.

! Red Flags

Watch out for these issues:

- Architectural sheets sealed by an engineer
- Engineering sheets sealed by an architect
- Plans sealed by an unlicensed person, architect or engineer
- Plans sealed by an engineer of an unauthorized firm (one without a COA)
- Incomplete documents sealed without a disclaimer
- Plans that have not been sealed, signed (dated) by the licensee(s)
- Prototypical, standard plans that do not bear the seal of the WV licensee and disclaimer
- Seals that appear to be cut and pasted
- Contact person is not the licensee or it is difficult to contact the licensee
- Plans, details, letters, reports, etc. do not appear to apply to the project
- Plans have numerous or serious code violations
- Non-dated revisions
- Revisions or changes missing seal, signature (date)
- Plans which do not list the name of the architect or engineer involved and the name of his/her firm.

? What to do?

- Question the professional as to circumstances and qualifications
- Get the issue corrected
- Reject the documents
- Contact the appropriate licensing board
- File a complaint with the appropriate licensing board

e Engineering Addendum:

Are the services of a registered professional engineer required for single family residential structures?

Single family residences do not normally require the design services of professional (structural) engineers except for some large custom designed homes where the owner requests the services or the spans are too large for typical code-specified framing to work. Generally the only times a structural engineer will become involved in a single family residence are as follows:

- Where there is a problem with the foundation or framing of the house, such as storm damage, soil movements, or unusual deflections and damages in the architectural finishes.
- When an existing house is being sold and the mortgage company is looking for someone to identify and describe the various structural movements and damages that have occurred in the structure, as well as provide some recommendations of what should be done to eliminate the problems.
- When the design of the house involves a structural system which is outside of the typical structural framing and foundation systems specified in the residential building code or when the building code requires engineering services.
